

Featured Local Artist for January 14, 1990

Age:  
23

Current Occupation:  
Photo Bum

Professional Training:  
NBCC Woodstock

Comments:  
Most people don't see photography as an art and I would agree with them. Artists have it easy...if it's not in view they can draw it in...if it's not in a photo you f\*\*\*ed up. Photography is where art meets science. You create the picture in your head and then you make your subject match the picture.

*Alastair Johnstone: Photographer*
