

before the advance in freights takes place. Prices have remained steady, and the few cheese sold in the country have been bought up at about 1 1/2¢ to 1 3/4¢ a lb. We hear that as high as 1 1/2¢ was paid at one of the markets in western Ontario, but this is no indication of the condition of the market, which does not warrant any advance in prices.

The shipments of this article will be heavy as large quantities of cheese are being ordered out of store, and there is no doubt that they will total nearly 100,000 boxes when all the figures are in. This will mean a substantial reduction of the stocks in store here, as the receipts for the week amount to barely 25,000 boxes. We will be able next week to give an idea of the stocks of cheese left in store in Canada as compared with last year.

There is no change to note in the market for butter. There is still a consider-

able quantity coming in from the country and for the best of it as high as 27 1/2¢ is being paid at the factory, but the bulk of it is being bought up at prices ranging from 25¢ up to the higher figure mentioned.

**GOSSIP**

Stock Breeders and Horsemen will be interested in the analysis made recently by G. H. Bostock, F.C.S., of Hex Sugar Food. Mr. Bostock says he has no hesitations in recommending Hex Sugar Food to all feeders and especially to those feeding young cattle. Such an eminent authority as Mr. Bostock pronouncing so decisively in favour of this food, proves that the preparation is of the highest merit. Our readers will find the latter sent up at prices to the Hex Sugar Food Co. published on another page.

**HOLSTEINS**
