4 1/2% Guaranteed Mortgage Investments

This Company offers the above form of investment for those requiring a profitable rate of interest together with absolute security. Moneys so invested are doubly secured—they are invested only in first mortgages, which are earmarked and set aside to offset the liability; and the repayment of principal and interest on their line dates is guaranteed by the company to the full extent of its assets. DE LAVAL CREAM SEPARATORS

**Make Fall and Winter
Dairying More Profitable**

THERE are special advantages in using
a good cream separator during the fall
and winter months.

The milk from cows long in lactation is
hardest to cream, and likewise hardest to
separate with an inferior separator.

Moreover, cream and butter prices are
highest, so that the waste of gravity setting
or a poor separator counts for most.

Then there's the sweet, warm skim-milk
for stock feeding, alone worth the cost of a
separator in cold weather.

There is surely no reason to delay the
purchase of a separator or to continue the
use of an inferior one. A De Laval machine
will save its cost by spring, and may be
bought on such liberal terms if desired as
to actually pay for itself meanwhile.

See your local De Laval agent.
