A few years since a great manufacturer of Brona sought the opinions of many medical gentlemen of distriction, for the purpose of having an unobjectionable food for invalids, and was assured that he had fully sucmection, for the purpose of having an unoojectionable food for invalids, and was assured that he had fully successful. Hospitals, infirmaries, and households generally, avoid always be provided with it. When gruel, arrowerot, grouts, barley, starch, ries, farina, and many other toings ordinarily resorted to for parients are of no utility, the firometic societies reliabled. It is believed that those who use it as a beverage will have manifest dilatetic advantage over the consumers of the and coffee. We see it stated that during the last summer those individuals who were continually using Chocolate or Broma neither had stacks of chose a or desentaric affections, while others of the same families, taking their daily potations in tease 5th, or simple cold water, were the sufferers, if any—We cannot wouch for the truth of this, but it has recalled to mind the statem at that the oil dealers in London have been free from Cholera or the choleroid symptoms. And it has been further observed that persons who were taking cod liver oil for chronic difficulties, during the presslence of the late epidenic, were not affected by it. Vegetable oil in the first instance, and animal oil in the last, taken internally, would appear, by these states has a state of the second through the second throug

of the Waterloo Tavern, Coatham, Yorkshire, late of the Life Guards, dated September 28th, 1848.

To Professor Holloway,
Sta,—For a long time I was a martyr to Rheumatism and Rheumatic Gout, and for ten weeks previous to using your medicines, I was so had as not to be able to walk. I had tried doctoring and medicines of every kind, but all to no avail, indéed I daily got worse, and felt that I must shortly die. From seeing your remedies advertised in the paper I take in, I thought I would give them a trial. I did so, I rabbed the Ointment in as directed, and kept cabbage leaves to the parts thickly spread with it, and took the Pilis night and morning. In three weeks I was enabled to walk about for an hour or two in the day with a stick, and in seven weeks I could go any where without one. I am now, by the blessing of God and your medicines, quite well, and have been attending to my business more than seven months, without any symptoms of the return of my old complaint.

Besides my case of Rheumatic Gout, I have lately had proof that your Pilis and Ointment will heal any old wound or ulcer, as a married woman, living near me, had had a bad leg for four years, which no one could cure, and I gave her some of your Pilis and Ointment, which soundly healed if when nothing else would do it. For your information I had the honour to serve my country for twenty-five years in the first regiment of Life Guards, and was eighteen years a zorporal. I was two years in the beninsular War, and was at the Battle of Waterloo. I was discharged with a pension on the 2nd September, 1533. The Commanding Other at that time, was Colonel

To Professor Holloway.

Sia,—With pleasure and gratitude I have to inform you that after suffering for 21 years with a had leg, which yielded to no kind of treatment, although I consulted, at different times, every medical man of eminence in this part of the country, but all to no purpose. I was frequently unable to work; and the pain and agony I often endured no one can tell. My leg is now as sound as ever it was in my life by means of your I'ilis and Ontment, which I purchased from Mr. I. Davidson, Druggist, Ber wiek-upon-Tweed, who knows my case well, and will, I am sure, be happy to certify with me, if necessary, as to the truth of this wonderful care.

Extract of a Letter from Mr Oliver Smith Jenkins, dated
Palkirk, August 13th, 1848.

To Professor Holloway,

To Professor Holloway,

Sig.—I was superintending, about six months ago, the erection of one of our Railway Bridges, and by the fail of a large stone my right foot was seriously bruised, which nikimately got so bad, that I was advised to go to Eximburgh to consult some of the enhinent Surgeons, which I did, and was fold that in order to save my foot, two of my toes must be taken off. In despair, I returned home to impart the melancholy news to my wife, intending to submit to the operation, it was then a thought struck me to try your valuable Ointment and Pills, which I did, and was by their means in three weeks enabled to resume my usual occapation, and at this time my toes are peritorly cared. Diseases arising from an injudicious use of Mercury, Dropsy, Exposure or Imprudence in Life.

This Medicine has acquired a very extended and attablished reputation wherever it has been used, based entirely on its own merits, which its superior efficacy has alone sustained.—The unfortunate victim of hereditary disease, with swollen glands, contracted sinews, and hones half carious, has been restored to health and vigour. The scrothlous patient, covered with ulcers, to thoome to him self and his attendants, has been made vhole. Hundre is of persons, who had grouned hopelessly for years, under cutaneous and glandular disorders, chronic rheumatism, and many other complaints springing from a derangement of the secretive organs and the circulation, have been raised as it were from the rack of disease, and now with regenerated constitution, gladly testify to the efficacy of this inestimable preparation.

The following is an extract from a lotter received from Mrs. Bevan, who had been afflicted several years with Scrofulous Ulcers, Dyspepsia, &c., and recently with an affection of the throat and chest:—

Messrs. A. B. & D. Sanns: Before I commenced using your Sarsaparilla, my sufferings were almost past expression: my throat was,completely ulcerated, I had a dreadful cough, and there were frequently weeks Together that I could not speak above a whisper; and bessides, the inflammation from my throat extended to my head, so that my hearing was very much impaired. After taking life Sarsaparilla a short time, my nealth improved, and my throat is now well; I am as free from cough and tightness of the class as eyr I was and can hear quite disfinctive. My throat has been well about three months, the cure of which has been effected entirely by the use of your Sarsaparilla. Your friend, LOUISA R. BEVAN.

The following testimonial to the value of the Sarsaparilla, is from the Rev. Luther Wright, aged 76 years, Congregational Minister, residing at Woburn:

Ladies of pale complexion and consumptive habits, and such as are debilitated by those obstructions which females are liable to, are restored, by the use of a bottle or two, to bloom and vigour.

The number of Diseases mentioned above, as cured by this preparation of Sarsaparuta, may seem large; but we are, nevertheless, prepared to prove, by an extensive array of certificates, that such is the fact. A fraction of the evidence which we possess concerning each disease, would be received before any judicial tribunal as complete demonstration. It must be remembered that all this frightful array of maladies, though appearing in an endless variety of forms, are yet similar in their origin and causes; for they all spring directly or findirectly from a corrupt fountain. If the blood were in a pure, healthy, and active state, it would drive all these complaints from the system, and chronic disease would be impossible.

Dasa Sin,—My wife has been declining in health for the last fifteen years with weakness and general debility, but the last 12 months she had been getting worse and worse, being under 3 doctors' hands, and taking various kinds of Medicines, but found she was getting no better, being troubled with palpitation of the heart, &c.—Her frame became enfaciated, and her appetite and strength failed, and she was considered, as she undoubtedly was, in the last stage of Consumption. I was informed kindly by one of her doctors that he could do nothing more for her and did not wish to put me to any more expense. As a last resort I purchased a bottle of your valuable Sarsaparilla, from your agent in Kentville, Mr. B. Caikin, at the same time expecting it would be of no use. But I am free to confess that I was disappointed; my wife commen cell using it, and before one bottle was exhausted she experienced a decided relief.
