The "Wallis Cub" 15-20

The "WALLIS FUEL SAVE TRACTOR CUB" is especially designed for general daily farm use on the road or in the field, where the utmost in power and efficiency is required. The "WALLIS" will deliver 5,000 lbs. pull at the draw bar, running on the low or plowing speed, when operating on level ground. It will pull four plows anywhere, and six plows in old ground, under average conditions. The "Cub" weighs approximately 8,500 pounds, consequently the possibility of miring itself is reduced to a minimum. The "WALLIS FUEL SAVE TRACTOR" is equipped with a three-speed transmission—two speeds forward, and one reverse, and the gear shifting is accomplished by a single lever. AN EXCLUSIVE FEATURE OF THE "WALLIS FUEL SAVE TRACTOR" is the spiral spring mounting, front and rear, which absorbs all shocks and jars and increases its life three times over that of ordinary tractors.

Will Take a Hill Like a Mule!

This tractor is built for hills, and it will take them too! The "Wallis" is as easy to drive as a team of horses. It is built to defy dust and dirt. Being armor-clad, there is not the slightest chance of grit and dirt coming in contact with the working parts. Note the hood protection. All working parts enclosed run in oil. The "WALLIS" may be turned within the radius of its own length. Further, it leaves no trail of packed ground behind, and fuel consumption is exceptionally small, owing to the absence of useless dead weight and the presence of the three-speed transmission, which permits full power of the motor at all times.
