

6 THE ANACONDA SOLD

Group of Three Claims Near Greenwood Bought by English Parties.

PAYMENT OF \$1,000 MADE

Alfred Woodhouse and E. M. E. Munnes Represent the Buyers—Description of the Property—Adjacent to the Mother Lode and Other Good Claims.

GREENWOOD, July 29.—[Special.]—The first payment of \$1,000, under the bond on the Anaconda group of claims, has been made to E. A. Bielenberg, by Alfred Woodhouse and E. M. Munnes of Rossland, who are understood to represent English capital.

The Anaconda group comprises three claims—the Anaconda, the Columbia, and Kootenay—situate in the extreme north-eastern part of Deadwood camp, several adjoining claims being in Providence camp.

The Anaconda group comprises three claims—the Anaconda, the Columbia, and Kootenay—situate in the extreme north-eastern part of Deadwood camp, several adjoining claims being in Providence camp.

On the Anaconda the surface showing is very large, the quartz being mineralized over a width of 100 feet and easily traceable for 800 feet.

The Kootenay claim lies west and adjoining the Anaconda. The ore so far met with on this claim appears to be of a different nature to that on the Anaconda.

The most important strike so far recorded in the Dundee mine near Ymir was made on Wednesday last and the entire bottom of the shaft is now in clean ore.

It may be mentioned that the Boundary Creek Mining & Milling company has a 27-inch vein of good grade ore in the bottom of a 35-foot shaft on its G. A. R. claim, these workings being less than 1000 feet easterly from Anaconda.

It will be seen from the foregoing that the Anaconda group is a goodly section of the Boundary creek country. It is to be hoped that Messrs. Woodhouse and Munnes will soon meet with much success in developing this promising property, and will find their confidence so fully justified as to bring an ample return for the energy and enterprise displayed.

A BIG BOUNDARY CREEK DEAL.

The B. C. Claim in Summit Camp Bonded for \$60,000.

BOUNDARY CREEK, July 29.—[Special.]—One of the most important deals yet made in the Boundary Creek district, as regards the amount of money involved, was closed yesterday. Full particulars of the transaction are not yet disclosed, but several parties in a position to obtain reliable information agree that the consideration under the bond is \$60,000, and that a substantial cash payment has been made.

The B. C. is practically undeveloped, but its surface showing of ore is described by several competent men as the finest they have seen in the district. It lies on the grass roots and a big body of it too. Messrs. Keough are considered fortunate, it being stated that they bought the claim last spring for \$500.

The Gibraltar property, situate about a mile and a half from the junction of Canyon and the main creek, is also showing up very well. The lead has widened out to about five feet, and can be traced on the surface for nearly a mile.

Some nice samples of ore have been brought down from the Trio on Goat canyon. The new wagon road is progressing very rapidly. It is now completed almost all the way to Goat canyon.

NEW BLAST FURNACE CHARGED. Hall Mines Smelter Triples Its Capacity—A Long Run Predicted.

Big Body of Ore Uncovered in the Shaft Wednesday. Discovered by a Party of Officials During an Inspection of the Mine. Large Sale of Stock.

Where the Strike Was Made. The strike was made at a depth of 115 feet in the shaft. The new steam drill was started up Tuesday, and on Wednesday when the blasts were fired it was found that the entire shaft from wall to wall was in ore.

It was her testimony: "I was taken sick in January, 1893. I employed several of the best local physicians and was treated by them for kidney disease until the autumn of the same year without receiving much benefit."

"I was troubled for ten years with eczema on one leg; the itching was something terrible; would scratch until the blood came. How I would know the value of DR. CHASE'S OINTMENT, I have a little girl two years; when she was one year old the same disease began to show upon her face."

A SUCCESSFUL TRIP

J. S. Patterson Sold Three Rossland Properties While in the East.

ALL NEAR THE GOLD BAR

Forest Belle Fetched \$10,000. White-chapel \$8,000, and Oregon \$3,000.—They Will Be Worked This Year.—Notes About the Gold Bar.

J. S. Patterson, who has been in eastern Canada and in some of the eastern American cities for several months has returned and reports the sale of a number of mining properties in the vicinity of the Gold Bar, which is now being worked by a company of which Mr. Patterson is secretary.

The Forest Belle, adjoining the Gold Bar, was sold for \$10,000 to Toronto and Port Hope people. They will organize a company and develop the property at once.

The Oregon, situated on the north side of the Forest Belle was sold to Toronto people for \$3,000 and a company is to be organized immediately to take over the claim and begin work.

The Gold Bar has been under development for some time with very satisfactory results. About 48,000 have been expended and 250 feet of tunnels, shafts and drifts have been run.

LETTERS TO THE EDITOR. The Sewer Contract. ROSSLAND, July 29.

A REVENUE INCREASE. New American Tariff Will Add \$80,000,000 to Government Income.

OUT OF THE TOILS. Physicians Failed. Cure-Alls Failed.—But the Great South American Kidney Cure, a Specific Remedy For a Specific Trouble, Cured M. A. E. Young.

"I HAD NO FAITH." But My Wife Persuaded Me to Try the Great South American Rheumatic Cure and My Agonizing Pain Was Gone in 12 Hours, and Gone for Good.

"I had been a victim of rheumatism for seven years—confined to my bed for months at a time; unable to turn myself. Have been treated by many physicians without any benefit. I saw no faith in rheumatic cures I had advertised, but my wife induced me to get a bottle of South American Rheumatic Cure from Mr. Taylor, druggist, in Owen Sound."

"I was troubled for ten years with eczema on one leg; the itching was something terrible; would scratch until the blood came. How I would know the value of DR. CHASE'S OINTMENT, I have a little girl two years; when she was one year old the same disease began to show upon her face."

The Keystone Gold Mining Co., Limited Liability.

INCORPORATED UNDER THE LAWS OF BRITISH COLUMBIA. TREASURY 500,000 SHARES. PAR VALUE \$1.00. CAPITAL STOCK 1,500,000 SHARES. Fully Paid and Non-Assessable.

KEYSTONE, GLADSTONE, BLACKSTONE, YELLOWSTONE.

If the Keystone does not make a great mine there will be few mines in Trail Creek. Every share of the stock other than the treasury is pooled until the mine is on a paying basis.

OFFICERS. President, JOSEPH B. DABNEY, Esq. Vice-President, JOHN HUNTOON, Esq. Secretary Treasurer, JOHN A. BEDFORD, Esq. General Manager, J. L. PARKER, Esq., M. E.

Mr. J. L. Parker, the mining engineer, in his report on the Keystone group says: "A shaft is sunk thirty-six feet on the Keystone and is in almost solid ore, having a little calcite which is usual in the Trail Creek ores."

"Although the ore at present is of low grade, yet at the foot of the shaft copper pyrites are coming in strongly and the ore will undoubtedly increase in value as depth is attained. This is the experience of Trail Creek ores generally, and I can see no valid reason why this should not do so."

"I reported favorably on the property of the Parker Group, afterwards acquired by the Dundee Gold Mining Company, which assayed only \$2.20 on the surface, and which improved very materially as successive assays of \$13, \$22 and \$49 were got, until at 100 feet, assays were obtained showing \$59 ore, which proves that low grade ore improves with depth, and I consider that the Keystone Group, while the ore is of a very different character, is unquestionably the "banner group," as far as surface showings are concerned, of any claims seen by me on which pyrrhotite ore is found, and I make no exceptions whatever of any mines or prospects in and around Rossland or in the Trail Creek mining division."

"I have great confidence in recommending this property to the investing public as being something exceptionally good, and if the necessary amount of capital can be obtained to properly develop this property I look forward to a mine resulting from the company's efforts."

FACTS TO CONSIDER. All of the promoters' shares have, by agreement been pooled indefinitely and consequently cannot come into competition with treasury shares until the mine is on a paying basis, and none will be sold except treasury stock for development purposes and the putting in of machinery, thus showing that the purchasers are willing to stand or fall on the merits of the property.

The work of opening up and developing the property is going steadily ahead and will be pushed vigorously. For the purpose of raising funds with which to carry on the work the company has decided to offer for sale a limited number of shares at Ten Cents each.

Statements will be sent from time to time to every shareholder giving full information in regard to the condition and progress of the business. All communications and applications for shares should be addressed to the

KEYSTONE GOLD MINING COMPANY, Ltd. ROSSLAND, BRITISH COLUMBIA. Box 64.

TURNER'S INVESTMENT. Reported That He Has Bought the Seattle P. I. For \$60,000.

SEATTLE, Wash., July 31.—It is reported here on what appears to be good authority that an option has been taken on the Post-Intelligencer at the price of \$60,000 and that Senator George Turner of Spokane and his friends are making the purchase. This means of course that Senator Turner is fortifying himself in his position at Washington. There has always been a rivalry between him and Senator John L. Wilson, and since both have been elected to the senate this rivalry has been greatly intensified.
