Miss Etta May Ladd, who has been spending a few weeks with relatives in Brantford, has returned to her home here.

The Spanish influenza is very bad around here. There are a large number of cases of it, but the most of them appear to be getting along very nicely. We have only heard of two deaths from it in the village, but there are a few more serious cases of it. Mr. Charles Updegrave, a young man, 25 years old, died last Sunday. He leaves a wife and three children, a son being born a few hours after his death. His father, mother and one sister, also survived him. Much sympathy is extended to them. The funeral took place on Tuesday, interment being in Greenwood Cemetery.

Mrs. Will Smith of St. Thomas died at her home there on Wednesday, October 9th. She was a daughter of Mrs. Emerson Lockhard and sister of Mrs. Gourlie Campbell, both of this place. The remains were brought here and the funeral held from the home of Mrs. Campbell and was largely attended. Mrs. Smith was well known here, her home as a girl, always having been here. She leaves behind her husband and one son, also her mother and sister and one brother, Mr. Fred Lockhard, of Simcoe, who all have the sympathy of many friends.

WILL CURE YOU

Dyspepsia is an advanced stage of indigestion, arising from the stomach refusing to perform its normal functions. Digestion consists in the changing of foods from an insoluble form, so that they may pass through the walls of the alimentary canal and become part of the blood. The stomach keeps the food in almost constant motion for a considerable time to accomplish this purpose, and should this organ not be kept in good condition, indigestion results, to be followed in due course, if not relieved, by dyspepsia. You can keep the stomach performing its functions, and even relieve and cure dyspepsia if you get a Box at 50c from
