I OWE MY HEALTH

To Lydia E. Pinkham's Vegetable Compound.

Washington Park, Ill.—"I am the mother of four children and have suffered with female trouble, backache, nervous spells and the blues. My children's loud talking and romping would make me so nervous I could just tear everything to pieces and I would ache all over and feel so sick that I would not want anyone to talk to me at times. Lydia E. Pinkham's Vegetable Compound and Liver Pills restored me to health and I want to thank you for the good they have done me. I have had quite a bit of trouble and worry but it does not affect my youthful looks. My friends say 'Why do you look so young and well?' I owe it all to the Lydia E. Pinkham remedies."

—Mrs. ROBT. STORIEL, Moore Avenue, Washington Park, Illinois.
We wish every woman who suffers from female troubles, nervousness, backache or the blues could see the letters written by women made well by Lydia E. Pinkham's Vegetable Compound. If you have any symptom about which you would like to know write to the Lydia E. Pinkham Medicine Co., Lynn, Mass., for helpful advice given free of charge.

TREMONT

Christmas Season has passed as well as family reunions some of which have been sad ones. The last Sunday of Dec. a memorial service was held here for ptes. DeLong Burns and Hennigar Jones. Mr Burns leaves a wife and two children to mourn their loss also his parents Capt. Amos and Mrs. Burns.

Rev. Geo. Hudson our highly esteemed pastor for nearly three years went to Annapolis Royal with his family last week, to which church he has accepted a call followed by the best wishes of the members of this church and community whom they were very popular.

On the last Sunday of the old year the Mission Band gave a very pleasing concert at which Mrs. Hudson made her farewell address.

Mrs. Moore McCormick, Miss Grace Burns, of Clements port and Mrs. Clarence Ritchie and son pte. Wyle Ritchie of Farmington attended the memorial service of their brother pte. Burns.

The people of this country will greet with entire satisfaction the semi-official statement to the effect that more German submarines were sunk in Dec. than German shipyards were able to launch. Submarine warfare as conducted by the Germans is a distinct violation of international law. It is biting below the belt and for this barbarity Germans must be made to pay.

THE VICTORY YEAR.

That is the great hope, for "Every gift of noble origin is breathed upon by Hope's perpetual breath."

Home and native land, life and liberty, are great gifts bestowed for high and noble purposes. To defend them must be just and righteous and justify the connection that they are endowed by "Hope's perpetual breath."

Napoleon is credited with saying: "Providence is always on the side of the last reserve." In this war the reserves are manifold. Forty years' preparation by Germany meant much to overcome. At the Marne, near to the desired objective, the tide turned and Germany has been on the defensive ever since. On the western front, the front believed to be the sphere of victory.

The peace overtures may be interpreted differently but in the main they are signs of weakness. As records of humanness, the Belgian atrocities put them out of court. Pressure from within Germany, economical more than political, grows apace. The conviction of many leading financial observers is that the pyramid of paper piled up by the various banks is such as to cause peace, to be as much dreaded as war. German wars have been fed by indemnities. None are in sight today. Behind all is the deep senses, across a world that Germany has outraged the highest and best interests of humanity and confidence in her integrity and honor have gone. Germany's place in the sun today is under an overshadowing eclipse. To change the figure, a great people have taken the wrong road and disaster is at the end. With the really repentant Allies' growing strength comes with the days. To review the excellent position today, so palpably manifest to all careful observers is not needful. This noble saying sums up the certainty of victory. "The valour that is founded on Krupp's can never triumph over the valour that springs from the unconquerable instinct of freedom."

We now enter another year in good heart, with steadfast purpose, to be and do the best.

CANADA AND UNITED STATES

Christian Science Monitor. Calamity on one side of the line or on the other, was not necessary to the awakening in these later times, of kindly sentiment, and warm friendship between the two countries, but it will serve in this instance to reveal in the United States something of the extent and genuineness of the admiration, respect and neighborliness which the mass of its sons and daughters entertain for their kinsfolk to the north. The opportunity which the disaster affords of putting into tangible form sentiments of regard for Canada and for Canadians, so often expressed by them during the last three years, will not be overlooked or neglected by the people to the south.

GERMANY RESPONSIBLE

Manufacturer's Record: To Canada, our companion in arms, our neighbor and our closest friend, the sympathy of his nation goes in unstinted measure, because of the awful horrors of the Halifax explosion. Even if no individual German was guilty of that explosion, Germany itself is guilty, and every agonized heart and every death and every maimed man, woman and child was as directly due to Germany's work as was the sinking of the Lusitania. Germany's fearful war upon the world is responsible for the Halifax horror, and in reckoning up the sum of suffering and sorrow we should remember that this fearful tragedy was merely another outcome of the "Made in Germany" hell which has been turned loose upon earth.

What should the United States bring to the war as its most vital contribution to the great cause? A correspondent of Collier's on the battle line reports the conclusions of a dozen French officers of high rank. "These conclusions," he says, "are important because they are shared by the commander-in-chief of the French army." They are: "If America will build for her own use and the use of her Allies 20,000 cannon—6 and 9 inch—and will put into the air 10,000 bomb-dropping airplanes (and keep these numbers good), then, and at a very trifling loss of Allied lives, can the road be opened to Berlin—and beyond."

Miss Torrie, who has been visiting her grandfather, Mr. J. W. Lawrence, Hantsport went to Aylesford for a visit before returning to her home in Digby.

A GOOD SIGNATURE

Colonel Archibald Young, V. D., in a lecture in Edinburgh, mentioned a curious incident of the recent British advance towards Palestine. When the British troops were approaching a certain town in the desert a deputation of the natives came out to meet them. The headman of the deputation asked for a man-to-talk with the British Commander. In the course of the interview he urged the claims of the natives to kind treatment, and mentioned that he had brought with him a document showing how well they had behaved on the last occasion on which their town was visited by European troops. He duly produced the document, which was found to be all that he represented it. It was signed "Napoleon Bonaparte."
