Over Strong Pro-British Speech Credited to Commander W. S. Sims

MADE AT LONDON BANQUET

Expressed Views That American Sailors Would Fight For British Empire

Washington, Dec. 27.—The case of Commander W. S. Sims, of the U. S. S. Minnesota, who according to press reports delivered a distinctly pro-British speech at a banquet in London, Dec. 24, which has been regarded as offensive by other nations, is now in the hands of President Taft.

It is noted that Commander Sims was careful to state that the sentiments he expressed were only his own personal views, and in this connection the point is raised as to how far a naval officer, in view of his official relation to the government, can go in publicly declaring his opinions when they bear an international aspect.

Minneapolis, Minn., Dec. 27.-Min nesota again takes rank, by a big lead, Serious Charges Made Against as the greatest wheat producing seat of the country, and by a statistical coincidence, the most remarkable part is that the department of agriculture, whose annual report out today, has ever found is shown to have raised this year 94,080,000 bushels, exactly the number given by the estimate of

ment for 1909. W. H. Hays, assistant secretary of agriculture; Victor Olmstead, chief of the bureau of statistics, in the crop reporting board, which consists of N. Murray, Geo. Holmes, John J. Darg, and Joe H. Killebrew, all attest to the correctness of the figures. It is proounced by them a "mathematical coincidence" of the most extraordinary character.
