Startling Inquiry

Divers Are Had Tempered. The of the peculiar effects of diving is writer in The Outlook. As the irritability passes away as soon as one is drawn up, ti s only reasonable to suppose that if is is caused by the unusual pressure of air inside the dress, though in what particu-lar way it acts I cannot say. My experi-ence and that of other divers whom I have questioned is that the merest trifle may what one furious. There is always some-thing wrong. The lines are held too tight or too slack, or there is too much air in the dress or too little, or the boat is drift-ing too fast, or shells are not plentiful encych, or the dress is leaking, or the face glass is not clean, and so forth. There occasionally become so angry at the signal to be pulled up with the express boat. As I neared the surface, however, and the pressure decreased my fighting spirit would gradually wane, and by the time to face glass was unscrewed I would be or idiculously good natured as to forts. At African King.

IRVINGITES

Survival et the Curieus Seet Started by Carlyle's Wile's Lever. It is somewhat hard to realise that an age so materialistic as this, with its decay of faits all around, should still see stud-an organization as that of the Irvingite sect, or, to give its own name, the Cath-olio and Apostolic church. The sect was founded, as readers of Mrs. Oliphant well know, by Edward Irving, the young Sootch olergyman who was the teacher and then the sweetheart, who ought be have been the husband, of Jane Welsh Car-lyle.

have been the husband, of Jane Welsh Car-lyle. The tragic story has often been told, among others by my unworthy self. Ir-ving loved Jane Welsh, and Jane Welsh loved him, and in both cases they proba-bly loved each, other to the end. But ir-ving had been lengaged to a young wom-an, the daughter of a fellow minister, be-fore he had met the bright, black eyed, oli a skinned evraw with the abave taneous the series.

an, the daughter of a fellow minister, be-fore he had met the bright, black eyed, olive skinned gyps with the sharp tongue, the domineering character, the comforta-ble fortune, the fiery and vehement nature of Jane Welsh, and the lady and her father held the young fellow to his bond. Sick at heart, tired of suspense, stung in her pride by the suggestion of an interfer-ing but well meaning friend that she was still dying for love of irving, Jane Welsh was precipitated into her marriage with Carlyle. The sequel of the story was as tragic as its opening. Jane Welsh led what I have always regarded a life of tor-ment with Carlyle, and in the end her heart burst, and she ided in her carriage in Hyde park without a moment of prepa-ration or warning, and Froude, looking at her face, from which death's effacing fingers had cleared away the heavy and harsh lines of sunless days and sleepless nights, of unsatisfied longings and mute revolts, doclared that is was the most im-pressive on which he had ever looked. And Carlyle was lefts to lonelings and streader to forgire by which so many of us pay the penalty of our unkindness to the living. Irving ended, to my mind, almost as tragically. Popular preacher for awhile, with churches cranmed to suffocation, and all the blare and tunnit for the oler-ical celebrity, he ended by losing his senses, and then—why, then he founded a new religion!

ical celebrity, he ended by losing his senses, and then—why, then he founded a new religion! There was to be a second coming of the Saviour; the gift of tongues was supposed to come to the second race of apostles as to the first, and the officers of the congregation were called **angels and** archangels.—Mainly About People.

Divers Are Bad Tempered.

An African King.

Asi African King. King Lewanika's costume was rather remarkable. On his head he wore a black, broad brimmed felt hat over a scales nightcap. A long bright blue dressing gown, much embroidered with scales braid in Manchester style; a fiannel shirt, tweed waistcoat, trousers and aggressively new yellow boots completed his costume. This was evidently his holiday attire, for on other days his scarlet nightcap was re-placed by a blue Tam O'Shanter and the

Tressing gown by a shoddy ulster. We seated ourselves opposite the ooking out on the river, while the r looking out on the river, while the rest of my party were grouped in a circle round us. It was not ctiquette for any but the king and his interpreter to enter the hus, so Letia and the councilors remained out-side while we carried on desultory conver-sation on the subject of our respective journeys, hunting, etc., enlivened by the gentle tinkling of the plano and the sub-dued singing of the king's choristers...-Blackwood's Magazine.

Misunderstood.

The words of some hymns are some-times misunderstood, and the misunder-standing 4s often ridiculous. A good story with this as a theme is being told. Tribune. How He Knew H. "It is apparent to nee," he said after a Sunday dinner, "that what the butcher ton a hen." "Why so?" she asked. "Because," replied the sufferer from dyspepsia, "it does not sot well."—Chica-go Post.

PEARY'S LAST BEAR recautions Taken to Preserve Its Snow White Skin Unsoiled.

FRIDAY, March 24.- Gil-Edge cheese and butter factory has com-At the first glimpse of daylight on the morning of Sept. 4 the Hope got under way and steamed out for Cape York to land my faithful Eskimo assistants. As menced the season's operations, the first milk being taken in last Friday. Butter will be made for the first few way and steamed out for Cape York to land my faithful Eskimo assistants. As we steamed out through the western pas-sage between Meteorite island and Akpudi we entered the fleet of countless bergs sweeping out of Melville bay, dazzling in their glittering brilliancy, and with the dancing whitecaps flashing between them in every direction. Scarcely were we well within this arctis white squadron, threading our way be-tween the stately cruisers, when one of my quick eyed Eskimos cried out, "Nannock-soah!" He had seen the bear for an in-stant far up on the top of a big berg, one of the tabular glants of Melville bay, peer-ing over its precipitous face, but it had quickly disappeared. As we steamed slowly round the borg he came into view again, a beautiful white animal with con-trasting black nose, moving: leisurely along the surface of the iceberg. The cap-tain and I both chanced a shot at him at long range, and the captain's bullet grazed his hind leg, making him whirl and snap savarely at the wound. Then he galloped awkwardly away and disappeared round a pinnacle of the berg. Circling the berg again, we discovered him in the water swimming vigorously, and several shots were fired at him, one of which took effect, and he apparently collapsed completely, yet a few moments later he was scurmd.

lays. The factory is again in charge of Mr. Jar. McAlonan, assisted by Mr. Wm. Chapman. The revival services in the Methodist church have closed. Mr. Rorison Eaton has gone to Winnipeg to secure a situation. Mr. W. Stafford's little child, who

give a sugar social at the Methodis parsonage on Tuesday. 28th inst. Mr. John Willis died last Wednstory recently oprinted by the Pem-broke Observer, has written as follows

Bridging Bering Sea

Professor W. J. McGee declares that two slow but interesting changes are taking place in Bering sea. The immense quan-tity of debris that is borne down the Yu-kon river from its sources and sides is be-ing deposited in the sea beyond the mouth of that mighty stream, and its weight causes the bed of the sea to subside. A corresponding rise in the earth's crust is produced along the chain of the Alentian islands. Now, not only are the islands themselves increasing in size in conse-quence of being lifted up out of the watar, but new islands are being formed in the gaps between the others. In some in-stances the new islands are the result of the rise and in others they are the product of volcanic action. Most of the Alentians are of volcanic origin, and they mark the position of a fold in the earth's crust that is predisposed to eruption. In time, Profess-or McGue says, there is likely to be a nat-ural bridge from America to Asia along this more but he white shold nod ynod Professor W. J. McGee declares that two

Japanese Tots Work Twelve Hours

Japanese Tots Work Twelve Hours a Day For a Penay. At Sakai, about half a dozon miles from Osaka, and some other towns in Japan where oarpets, rugs and fabries of the same class are manufactured there are no large carpet factories, but hand looms may be seen in nearly every house. The weaving is set to music. The ohil-dren are taught to sing a sort of nonsense verse to a certain tune, the superintendent or head worker leading, and that air means a certain pattern, the deft fingers of the little workers rhythmically follow ing the notes. At the right moment the woman in charge of a loom hums a new tune, and the little ones instantly take it up and as quickly change the pattern to suit the music. It is consequently quite correct to speak of these productions as a "one tune," "two tune" or "four tune" carpet and so on, as the case may be. The children kneel at their work upon a plank at the end of the loom, and each of them sides backward and forward along it, according to the spice occupied by their alotted pattion of the maticrean

of them slides backward and forward along it, according to the space occupied by their allotted portion of the pattern. The actual workers are for the most part children of from 7 years of ago up-ward, and from two to four, five or even six work at a single loom under the direc-tion of an adult, generally a woman. Some 6,000 hoys and over 13,000 gtrls are thus employed. The children work 19 hours a day, and each earns about, a penny in that time Three of them can'i fix expert hands, complete an ordinary rug, say 6 feet by 8 feet and made of colored hemp or woolen yarns, in a day. A slik rug of the same dimensions, however. With women entering almost every department of industrial commercial and professional life, lately wonoplized by men, their enfranchisement will probably follow as a natural conse propably follow as a metural conse-quence, but whether it will come as a result of the present agitation remains to be seen. With the justness of their claim to the franchise co.ceded in respect to municipal elections, it will
