

Sunshine Furnace

DOUBLE
FEED-DOORS

Just about the meanest thing a furnace can have is a dinky little door. Ever have one? Hit the edge as often as the hole? One has to be an expert stoker to shovel coal into some furnaces. If you're not an expert you'll get as much on the floor as in the furnace.

The Sunshine furnace is equipped with a good, big door. You can put your shovel in and drop the coal just where it is wanted—no trouble, no taking aim, no missing, no scattering, or annoyance.

Everything about the Sunshine furnace is on the same scale of thoughtfulness.

Sold by all enterprising dealers. Write for booklet.

THE LEPROS OF CANADA

HOUSED IN THE LAZARETTO AT TRACADIE, NEW BRUNSWICK.

Disease Introduced by Two Foreign Sailors, There Have Been Lepers in New Brunswick for Three-Quarters of a Century or More—Pacific Coast Lepers Treated in a Building of Their Own.

A foreign ship that landed two infected sailors at a northern New Brunswick port is said to have been the means of introducing leprosy into Canada. By them the disease was communicated to the unsuspecting villagers, and in time it spread to other districts of the Province. That was no one knows how many years ago, but for three-quarters of a century or more there have been lepers in New Brunswick.

When the proportions of the scourge became sufficiently serious the Dominion Government built a lazaretto at Miramichi, which was burned in 1844, and replaced by a larger building at Tracadie, a fishing settlement on the Gulf of St. Lawrence coast. Still another building, the one now in use was erected in 1884.

A few lepers on the Pacific coast have been provided for in a building of their own. All the other lepers in Canada were removed to the lazaretto at Tracadie, which is considered to be in equipment and method of treatment, the best in the world. At one time the population of this afflicted colony numbered half a hundred, but the past few years it has been less than twenty, and at present numbers only fifteen. The institution is maintained by the Dominion Government, but the inmates are

THE LAZARETTO AT TRACADIE, N.B. cared for by a band of unselfish women belonging to the order of the Religious Hospitallers of St. Joseph.

The lepers at Tracadie have every comfort which it is possible for them to have; and they are grateful. The lazaretto is a stone structure, is thoroughly equipped both as a home and a hospital. Whenever practicable, the patients are given light employment in and around the building, and by way of recreation, some of the men go boat-sailing in the harbor. Four of the fifteen, however, are blind.

One of the most important results in the medical treatment of leprosy were obtained by the use of chaulmugra oil, first introduced two years ago. Even in some advanced cases, so the superintendent reports, "the effects of the oil were very marked, the patient becoming vigorous, and expressing themselves as feeling better and much stronger." One of the inmates, a man of forty-one years, was apparently so far recovered as to be allowed to go out for a time on leave of absence.

The youngest patient is ten years of age, and is a native of New Brunswick. Religious exercises are held at the lazaretto and are appreciated by the inmates, who are surprisingly cheerful and contented. The tender devotion of the women who care for them is in itself a daily object lesson. Yet it is the casual visitor to a place of dry-rot and oppression, rightly called a "cemetery of the living." It is gratifying to know, on the authority of the medical superintendent, that the disease is yearly lessening in Canada, and that the ratio to the total population is rapidly being reduced.

Curious Devices of Bankers. Some amusing anecdotes are being told of the devices resorted to by bankers to gain time and inspire confidence. On one memorable occasion the excited subscribers of a Chicago bank, much to their indignation, were only able to enter the bank one by one except at the cost of spoiled coins, as the cute manager had caused the doorposts to be freshly painted.

Another bank prevented a crisis in its affairs by exhibiting in the windows large tubs apparently brimful of sovereigns. These tubs, however, simply were upside down, and only a small quantity of gold was piled up on their bottoms.

But the most ingenious dodge of all was successfully carried out in Buenos Ayres recently. There was a run on a large bank, and for several days subscribers besieged the premises, withdrawing money and placing it in another bank on the opposite side of the road. It happened, however, that these two institutions had a private understanding, and as fast as the "safe" bank received the deposits they were returned to the "unsafe" one by an underground passage, with the result that every one marvelled at its continued ability to meet its demands.

Moveable Islands. A geological phenomenon in the shape of floating islands has been the wonder of persons visiting Lake Little Creek, Va. The islands move from place to place under the force of the spray of the lake. Within the period of a few moments marked changes in the topography of the lake have occurred. It was a long time before fishermen and gunners were able to solve the puzzle. Recently Mayor Riddick was brought to an explanation of the scientific problem. The Mayor, in company with a friend, rowed a boat into a small intake of the lake and dropped his fishing line. When he was ready to call off the afternoon's sport the chief executive was surprised to find the outfit blocked. A small undergrowth-covered strip of territory about fifty feet square had drifted from its former position and lodged square across the mouth of the channel through which the Mayor had entered a short time before. In order to make his escape from his natural prison the Mayor and his companion were forced to drag their boat across this obstruction.

Lightning Kills Live Stock.

Madoc, July 10.—Farmer James Devolan, living on the 4th concession of Madoc Township, had 12 head of cattle killed by lightning Saturday night. He had \$200 insurance. Farmer Stuck, 1th concession of Rawdon, had eight horses killed in the same storm.

135 Degrees In Spain. Madrid, July 10.—The temperature in the sun at Seville Saturday was 135. A terrible draught prevails in the Province of Malaga. It is absolutely without water.

\$100 REWARD \$100.

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is Catarrh. Hall's Catarrh Cure is the only positive cure now known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have gone to great pains to secure the ingredients of their Catarrh Cure, and they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials.

Birth-marks which mark and mar the outside of the body are a grief to every mother whose children may bear them. But for every child who bears a birth-mark on the skin there are many who bear an indelible birth-mark on the mind. Nervous mothers have nervous children and many a man and woman owes an irritable and despondent temperament to those days of dread when the mother waited the hour of her maternity. The use of Dr. Pierce's Favorite Prescription strengthens the mother for her trial. With strength comes a buoyancy of spirits and quietness of mind, which is one of the happiest gifts a mother can bestow on her offspring. By giving vigor and elasticity to the delicate womanly organs "Favorite Prescription" practically does away with the pain of maternity and makes the baby's advent as natural and as simple as the blossoming of a flower. There is no opium, cocaine or other narcotic contained in "Favorite Prescription."

Discretion in speech is more than eloquence.

A checkered career often ends in stripes.

PACIFIC COAST EXCURSIONS.

During June, July, August and September the Chicago and North Western Railway will sell from Chicago round trip excursion tickets to San Francisco, Los Angeles, Portland, Ore., (Lewis & Clarke Exposition), Seattle, Victoria and Vancouver at very low rates. Correspondingly cheap rates from all points in Canada. Choice of routes, best of train service, favorable stop-overs and liberal return limits. Rates, folders and full information can be obtained from B. H. Bennett, General Agent, 2 East King Street, Toronto, Ont.

LEARN DRESSMAKING IN TWO WEEKS

I will be at the Garner Hotel, Chatham, on Saturday, July 22nd, between 9 and 6 o'clock, to show how dressmaking can be taught in two weeks. Why spend from six to nine months learning dressmaking in a shop, and then not know anything about cutting, when I teach you everything from measuring to finish in the making of ladies' and children's garments in two weeks. I have taught over 700 girls in this way within the past three years, and all were more than satisfied. If you are the wife or daughter of a farmer, mechanic, laborer, merchant or millionaire, you should learn Dressmaking. No accomplishment you can acquire will prove of such every-day, life-long value to you as a practical knowledge of Dressmaking. And if you have this knowledge you can, by saving dressmaker's bills, be able to dress much better, with less money, than you probably do now. I teach you how to put together, not only the lining, but all the outer goods, in coats, skirts, waists, wrappers, sleeves, in fact everything in dressmaking. And you are losing nothing by trying, for if you are not satisfied at the end of the term, then there will be no charge. School teachers, college girls and everybody who are having your holidays now, do not fail to take advantage of this splendid opportunity. You may never get another like it.

Charge for full course is \$10, when you are through, if satisfied, including one of the most perfect fitting systems in use, which I give you free! I will also at the same time teach part of the course, consisting of shirtwaists, sleeves and skirts, and teach you how to use the system for \$6.

I will teach at Chatham from July 24th to August 5th. Hours from 8:30 to 5. All wishing to learn, or for full particulars, be sure to see me in the upstairs parlor of the Hotel Garner on Saturday, July 22nd, at the hours named above.

An evening class will also be taught at Chatham this time. Full particulars for it can be had upon application on July 22nd.

MISS R. ELLISON,
Dressmaking Teacher,
Box 320, Brantford.
