A Railway Magnate Dead.

Mr. Harriman is dead. He was undoubtedly a great railway man of the constructive order. Other men have got rich by wrecking railway systems or by depreciating them so that they could be easily acquired.

Harriman succeeded by making railways better properties. By consolidation and co-operation of vast systems of roads, by improvement in the management and in the roads themselves he made them earn more money, pay more dividends and command higher prices for shares. The man whose illness has caused a decline of twenty to thirty dollars per share in the price of the trunk system: with which he was connected, and a considerable depreciation in every other railway stock on the continent, must have had some remarkable qualities.

Became Insane from Smoking Cigarettes. Startling Increase of the Habit in Canada. Parents should wake up.

Marion Burkhardt shivered and covered yesterday in the Eastern District Hospital, Williamsburg. She is a fine looking girl with long black hair, blue eyes and an oval face.

The Rev. R. S. Pardington, of the South Second Street Methodist Church, saw the young woman near his church Wednesday night. She was silently walking here and there talking to herself.

The clergyman pointed her out to Patrolman O'Brien, of the Bedford Avenue Station. As the policeman approached, Miss Burkhardt ran to a tree, threw her arms around it and made as to climb it.

The physicians at the hospital vainly tried to learn her identity from Miss Burkhardt, who answered them feebly. A well dressed man, who seemed to tell his name, went to the hospital yesterday. 'She is Marion Burkhardt,' he said.

'I am a distant relation of hers. There is nothing against her character, but she is a cigarette fiend. Cigarette smoking has made her insane.'

No. (1) MADAM PRESIDENT—An investigation set on foot in Winnipeg, by the Tribune of that city, revealed that, on their own admission, nearly one-fourth of the kids attending the city schools used tobacco.

No. (2) Only last year a deputation of Physicians, Principals of Schools, Ministers and representatives from the W. C. T. U. and benevolent societies, waited on the Kingston City Council to beg that something be done to guard the school children from the cigarette. The principal of one of the public schools said that of his class of 25 boys all but ten were cigarette users.

No. (3) The 154 teachers in the London schools signed a petition to the School Board asking that the parents of the scholars should be in some way warned of the injury the cigarette was doing.

No. (4) The Toronto School Board was so impressed with the ravages of the habit amongst Toronto children that they threw open the schools to a lecturer upon the cigarette, permitting him to address the scholars during school hours.

No. (5) Mr. C. Ferris is principal of the Victoria Industrial School (Mimico, near Toronto) to which incorrigible boys are sent, when parents or guardians can no longer control them. 'Thous over 14 years are not admitted, the average age is 12. The testimony of this gentleman is that fully 75 per cent. of all youths committed to his care are cigarette users.'

No. (6) Every such institution on this continent will furnish similar evidence. Not long ago the Supt. of the Illinois State Reformatory said that of the 278 boys confined there 256 were cigarette users, leaving only 22 who were not addicted to the habit.

No. (7) It is true that in the States since 1899 the manufacture of the cigarette has decreased. It fell 25 millions in 1900 and 35 millions more in 1901, but in Canada there has been a steady increase every year for many years. In 1900 we consumed 110 millions in 1901, 121 millions in 1902, 124 millions, which is an increase over 1900, of
