### WHY EAT THE CRUSTS

Children and grownups are often averse to eating the crust of the bread. We used to be told it was the cream of the loaf. That theory seems now to be untrue. This was revealed in some interesting experiments just completed by Professor R. H. Shaw, who took two young albino rats of the same brood, and fed one on crusts and the other on crumbs from the centres of the same loaves. The rat that was fed on crumbs reached normal size at maturity, and was strong and sturdy, while the other remained scarcely larger than a mouse and was weak and puny. Repetition of the experiment on other rats brought the same result.

### FREEZING ICE-CREAM

In freezing ice-creams and ices, it has been found that eight parts of ice to one part of salt, if the ice is chipped very fine, will give excellent results. The mixture to be frozen should be cooled to about 34 to 36 degrees before being frozen, to give fine texture. The freeze should be turned slowly and regularly at first, about forty revolutions per minute for five to eight minutes. One may then turn faster, but regularity should be maintained.

A freezer should never be filled more than two-thirds full because if expansion is not allowed the mixture will be coarse and crystalline. Binders such as gelatin, junket tablets, or cornstarch, may be used to give body.

### OPPOSE MIXING PROVINCIAL AND FEDERAL POLITICS

MONTREAL, Sept. 19.—Opposing the intermingling of provincial and federal politics, the Conservative opposition in the Quebec legislature yesterday met in caucus and decided that any Conservative of the local assembly who strives to contribute his support to federal Conservatives does so on his own initiative and represents himself only. This was the tenor of a resolution adopted by the caucus. At the same time a resolution was framed and accepted which expressed regret at Hon. Mr. Patenaude's leaving the provincial field and re-entering federal politics. The resolution lauded Mr. Patenaude's activities in the local legislature and expressed the belief that he would be a worthy representative of Quebec in Dominion affairs.

### FOR THE PICNIC HAMPER

Hard-boiled egg, and prawns or shrimps chopped together, seasoned with pepper and salt moistened with melted butter.  
Lean ham finely chopped, seasoned with salt, pepper and made mustard, a "suspicion" of chopped onion added, and a little melted butter and tomato sauce worked in.  
Remains of curried meat or chicken put through the mincer.  
Cream cheese, with a layer of thinly sliced tomato or cucumber.  
Hard-boiled egg, finely chopped, pounded with grated cheese, seasoning of salt and cayenne, and a little melted butter.

### LAUGH THIS OFF

Blowhard—"I ain't seen Bill since his wife has went to Europe."  
Englishman—"My word, good fellow. Don't you know the King's English."  
Blowhard—"Sure. So is the Prince of Wales."

Whoever it was named it the "funny bone" had a mighty poor sense of humor. —Kincairdine Review-Reporter.

### A NEWSPAPER'S DUTY

The duty of a newspaper to a community is easily defined. The name "newspaper" suggests at once that it is a disseminator of news and if it is to do its duty to its subscribers, it must publish all the legitimate news that occurs in the community of which it is a part. By "legitimate" is meant, naturally, news of public interest. Scandal, gossip and the like do not constitute news in themselves, but if aired in public court, then the newspaper that fails to publish the proceedings falls down in its duty to its subscribers, especially those at a distance whose only idea in subscribing to the paper is that it will keep them informed of what is going on in the old home town.

There are some people who evidently believe that the newspapers take a real pleasure in reporting court cases, especially if the evidence is a bit "nippy" or sensational. We think we are safe in saying that there is not one reputable publisher in a hundred who willingly tells of the troubles of others, or who publishes in his columns anything of a

sensational nature, for the sole purpose of making what some may call "interesting" reading. Many may not believe it, but editors, like other residents of the community, are human. It is a whole lot easier to tell of the joys of life than to report its errors and tragedies as aired in the police court, but public sentiment demands that all that is news and should be published. A newspaper that does not do this fails in its duty; in fact, is guilty of obtaining money under false pretenses.

**MEN LIKE TO GOSSIP**

Men like to talk, to gossip too; I've even heard that women do. So here and there, and up and down, From door to door, and town to town, The strangest stories float about, Until humanity you doubt, Is ever any fellow fair? Or is there goodness anywhere? Of course there is! More good than bad I've found the world, because I had A simple rule, a simple test: Believe the best, Forget the rest.
