Mr. John Mitchell, former presi-
dent of the United Mine Workers of
America, and one of the most widely
known labor leaders in the United
States, died at five o'clock Tues-
day afternoon at the Post-Graduate
Hospital, New York.

In July, 161 ocean-going vessels
in commercial trades passed through
the Panama Canal, exclusive of eight
United States naval vessels, on
which no tolls were levied, besides
other naval craft and launches. The
carriage of the 161 commercial ves-
sels amounted to 450,807 net tons,
canal measurements.

Five German steamships anchored
in Cuban waters when the island de-
clared war on Germany, and later
seized by the government, will be
returned to Cuba. Four of them
were turned over to the United
States in order that that country
might transport munitions and men
to Europe during the war, the fifth
being used by Cuba for carrying sug-
ar to the United States.

DEALING WITH PEACE TREATY.
Cape Town, Sept. 10.—The bill for
the ratification of the peace treaty
has been given its first reading by
the Assembly after debate and will
come up for second reading today.

**AUSTRALIAN-GERMAN
TRADE NOT WANTED**
Melbourne, Sept. 10.—Premier
Hughes, addressing a meeting of the
National Federation, said Germany
stood today the best organized na-
tion in the world for a commercial
war. He said some people had spo-
ken to him of trade relations between
Australia and Germany. If they
wanted trade relations with Germany
they must get somebody else.
His declaration was cheered.

Budapest, Sept. 10.—The Hun-
garians have so thoroughly denuded
Hungary of wheat that nothing is
left for the fall planting.

WHY PUSH OUT THE CLUTCH?

A good many people ask this ques-
tion, "What's the use of pushing out
the clutch when you start your
motor, as long as the shift lever is in
neutral and there is practically no
load on the engine?" The question
sounds like a logical one but as a
matter of fact it is based on a wrong
supposition. There is really a con-
siderable load on the engine, just on
account of the shaft and gears that
must be turned.

Just try this test if you want to
see how much this load amounts to.
Turn your engine over by hand some
morning with the clutch in. Then
have someone hold the clutch pedal
down, or fasten it down with blocks
and try it again. If you turn the
engine over rapidly you'll see that
there is quite a difference and the
load is much greater when the en-
gine spins at the rate the starting
motor turns it.

It pays to keep in mind the fact
that thickened oil has a very defi-
nite braking action and this action is
very largely lessened when you push
down on your clutch pedal.

BRITISH WORKERS
DECLARE FOR
NATIONALIZATION

Trades Union Congress by an over-
whelming vote adopted resolution
favoring Nationalization of Coal
Mines.

Glasgow, Sept. 10.—By an over-
whelming vote the British Trades
Union Congress at today's session ad-
opted a resolution favoring the na-
tionalization of the coal mines of the
United Kingdom. The motion, pre-
sented by Robert Smillie, the miners'
leader, was carried by a vote of 4-
478,000 against 77,000.

The resolution rejects the propos-
ed alternative scheme of the Govern-
ment declaring it would be contrary
to the best interests of the nation,
"and would create a distinct trustifi-
cation of the coal industry."
Mr. Smillie, who moved that the
Government be compelled to accept
the majority report of the Sankey
Commission, said he believed the
Government would refuse the de-
mand for ratification of the recom-
mendations in the report and that
within two months the Trades Union
Congress would reassemble to con-
sider the position.

Mr. Smillie said labor's fight for
the nationalization of all industries
would not cease with the gaining of
its demands for state purchase of
the coal mines. The desired end
would be accomplished through "the
commonsense realization of the jus-
tice of our claims." Mr. Smillie con-
tinued. He knew the hardship that
strikes caused, but there were times
when it was criminal for labor lead-
ers not to call strikes to enforce jus-
tice. The miners were really fight-
ing for all organized labor. The high-
est output was impossible, he in-
sisted, under the present working con-
ditions and the lack of modern machi-
nery and equipment.

James Henry Thomas, general sec-
retary of the National Union of Rail-
waymen, in seconding Mr. Smillie's
motion, said the question had come
to the point of a definite decision.
He exhorted the delegates to be sure
they saw clearly where they were
going.

Joseph Havelock Wilson, president
of the International Seamen's Union,
in opposing the resolution, was
pointing to the failure of state con-
trol of enterprises when he was in-
terrupted with a shout of "What ab-
out war?"

DOMINION THEATRE

Speaking in baseball parlance,
Charles Ray pitches a no-hit, no-run
game in "The Buzzer," his latest of-
fering on the Paramount program.
But speaking in picture parlance, he
appears in a picture fairly loaded
with laughing hits, while the runs of
human interest and quiet humor pile
up to a big figure. With each suc-
cessive characterization of Mr. Ray's
one finds it difficult to sum up the
superlatives employed on the one
previous are recalled. But certainly
it seems that in "The Buzzer" he ex-
ceeds all his work of the past.

While "The Buzzer" is primarily
a comedy with a lot of laughs in ev-
ery reel, there is plenty of excitement
and a pretty love story, with some
of the best acting both by the star
and support, you have ever seen on
the screen. Take our word for it,
this is about the best thing that
Charles Ray has ever done. With
this latest Mack-Sennett Paramount
comedies with Ben Turpin, he of the
funny eye, Chester Conklin, and a
host of fun-makers and pretty girls.
This is not a re-issue, but one of the
newest. Lastly we shall offer a Pic-
torial Review, full of interest and
up-to-date.

NOTHING LIKE OIL--

To make money quick.

It's a sure Winner, and Big Winner once the Oil is found. In Texas
there seems to be no trouble to find Oil. The Great State seems to be one
vast Oil Pool waiting only for wells to be drilled into it. That's why there
are more Millionaires there than anywhere, and almost every day there
is a new crop, a fresh Gusher is opened. You can scarcely make a mistake
investing anywhere in Texas, but if you select a Company managed with
brains and honesty, you are certain to make a lot of money, even though
your investment is comparatively small.

Ranger & Burkhart Oil Co. No. 2 is directed by the "Wizard Oil
Man" Henry Hoffman, who never yet has failed to make money. Big Money
for his Stockholders, and who has promised to put this Company over in
Record Time, and to make it one of the Greatest Successes of his Spectacular
Career.

The first issue of Stock at \$1.00 par is all gone and the price is
now.

\$1.25 Per Share

It is expected the Company will be fully financed and the stock off the
market by October 1st.

Well No. 1 will drill in very shortly, bar accidents, and is certain to be
a Big Gusher, to be followed in rapid succession with others probably
larger Gushers.

It's a sure thing now and cannot fail to make heaps of money for all
Shareholders and to do it quickly.

Better get a Block of this Stock before it goes higher. It is absolutely
certain to soar skyward, and almost before you know what has happened.
This is not simply bunk, meant to sell stock, but sober fact. I told you
No. 1 Company would be a great success, and last report, published else-
where in this issue, proves this, to say nothing of the Dividends that have
already been paid. This No. 2 Company will be even more successful,
and will probably make more money for the lucky Stockholders and do
it quicker.

Hoffman has promised this and he NEVER FAILS TO KEEP HIS
WORD.

Get into this Big Money Maker and Do It Now.
