DIRECT IMPORTER OF CHOICE WINES, LIQUORS AND CIGARS.

LOWER WATER ST., CHATHAM.

As we have stated elsewhere, by means of Major R. B. Call's telephone, our lumber merchants in Chatham and Newcastle, are enabled to learn the progress of business at the boom once or twice a day. Major Call has telephonic connection between his house and his office, thence with the I. C. Railway Station; and on to the business offices of Messrs. Miller in Derby. The line, poles, etc. are the property of a private company of which Major Call is the head. We wonder some others of our enterprising men on the North Shore have not before this followed the example set by Major Call. The Stewart firm, through its enterprising representative Mr. Joyce, have leased the privilege of putting a wire, along the poles of Major Call & Co. from the Stewart office in Newcastle, to the boom.

L. J. TWEEDIE, BARRISTER & ATTORNEY-AT-LAW, Notary Public, Canadian, etc., etc. CHATHAM, N. B. OFFICE: in Snowball's Building Chatham, August 30, 1870.

LOCAL MATTERS.

NOTICE.

THE public are hereby cautioned against paying subscriptions or amounts for advertisements to any person on behalf of the STAR, unless said person hold written authority from me to collect and receive the same. J. E. O'CLLINS, Ed. "Star."

Mr. John McDonnell's connexion with the Star has ceased.

Unlawful Fishing.

We learn that a large proportion of the lobsters taken so far around the coast are females. This is because the female is now making its way to the shallows to spawn.

A Newcastle Young Man in Luck.

We have been informed that Jas. J. M'chell of Newcastle, has been engaged under the New Syndicate as Chief Clerk of the mechanical department at Winnipeg at a salary of \$2,000 per year.

Personal.

His Lordship, Bishop Rogers, went down by train to Point de Chene, Wednesday night, on diocesan business. He thence took steamer, Charlottetown. He will return to day or early in the week.

Rev. Father Bannon arrived home today from New York, where he had been for the past few days.

Dead in Michigan.

Mrs. James Keoughan received a telegram from her brother, James Harris, Menominee, Mich., Thursday stating that Donald Thompson of this town was dead. It is supposed that he was killed while lumber driving in the said place.

Lobster Fishing.

Lobster fishing has commenced along the coast, from Bathurst to Bay Chaleur. The fish is reported very plenty. Jas. Buttiner, who fishes on the Gloucester Coast, received in the first 24 hours 4,000 lobsters, -1,000 lbs. of fish—from 500 traps.

A Ship Probably Abandoned.

Pilot Allan McEachern arrived from sea Thursday night and reports having seen a barque which he took to be the "Batticola" of Christund, Norway, 4 miles S. W. of the Bird Rocks, surrounded by ice and supposed to be abandoned.

Seizure.

Mr. Overseer Wyse keeps his eyes open. An Acadian named Landry came here Monday, from Petit Roche, with two barrels of lobsters. Mr. Wyse examined them and found a large proportion of the fish were females; so he seized the lot.

Scared by a Goose.

As Mr. Ferryman Haviland was leaving his ferry on Tuesday evening, he saw a large animal on the end of the slip. As he neared it, it started him, and suddenly made a rush, with a hissing noise, which startled Mr. Haviland, who did not know what it was, that he tumbled over the slip into five feet of water. It was one Venadestine's goose. The other ferryman, took out the Captain.

Fancy Fowl &c.

Mr. John Lee, who lives a couple of miles out of town, has conceived the excellent idea of raising a large number of fowls, of different varieties, and setting fancy and other eggs. He has imported several high grade birds, and eggs, and has a habitation built and fitted up in a first class manner for the accommodation of his feathery care. A space is enclosed with boards, and a roof is formed of lattice work, which will let the air in, but will not let the hens out. Mr. Lee has a lad on the premises who cares for the birds. They are fed on grain. We wonder why no one has tried this before. For about two months of the year you get low in our market, and then there is a black fast. Why should there not be fowl in the market—but we have no market—all the year round?

The Booms.

The past week has been a busy time at the booms. There are about a hundred men employed rafting in the South West boom, and about fifty in the North West boom. During the week they have been "on the jump," so fast did the logs come rolling in. There were about 60,000,000 feet of logs cut on the South West this winter; a third of this by this time has probably reached the boom. There were about 20,000,000 feet cut this season on the North West Miramichi, a considerable portion of which has already reached the boom. Interested parties in Chatham as well as in Newcastle, through means of Major Call's telephone, get word a couple of times during the day, how matters are progressing at the boom.

Telephones in Newcastle.

As we have stated elsewhere, by means of Major R. B. Call's telephone, our lumber merchants in Chatham and Newcastle, are enabled to learn the progress of business at the boom once or twice a day. Major Call has telephonic connection between his house and his office, thence with the I. C. Railway Station; and on to the business offices of Messrs. Miller in Derby. The line, poles, etc. are the property of a private company of which Major Call is the head. We wonder some others of our enterprising men on the North Shore have not before this followed the example set by Major Call. The Stewart firm, through its enterprising representative Mr. Joyce, have leased the privilege of putting a wire, along the poles of Major Call & Co. from the Stewart office in Newcastle, to the boom.

REPLY TO "QUACK."

To the Editor of the Star:—

DEAR SIR,—Will you kindly permit me to say a few words in reply to an article in a Chatham paper of 12th inst., headed "The Only Photographer."

Mr. Editor, the writer of the article above referred to, displays wonderful tact in presenting that low, mean, contemptible trash without a signature to the public. It requires no great intellectual capacity to scandalize or vilify a person especially over a fictitious name. Why did he not sign his name and be a man for once, or did he think the name of "Quack" best suited to him?

To prove that I am the only photographer here, the following will suffice:—

A short time before this great firm of Messereau & Thomson was ushered into existence, Mr. Messereau came into my place of business and told me that Mr. Stevens wanted him to buy out his business and asked me what I thought of it; to which I replied "Certainly buy him out, why not?" He, Messereau, said that he had intended to make a start first together with Thomson, in some little country place. I had told both Thomson and Messereau before, when they were talking of starting at Spring Hill, N. S., that I thought it was an excellent idea. They both concurred with me and it was the best way for them as they knew so little about the business; but on the time referred to, when Messereau came to ask my advice about buying Mr. Stevens' out, I told him he had better buy and commence here at once for there were already a certain class of individuals in every place who were not judges of work, consequently he would always have some thing to do and that he could practise up. He said he thought he would do so and spoke of taking some lessons in the art of Photography from me as they would not attempt such a thing as trying to photograph. I advised him not to have anything to do with Thomson as I had had him at my place a short time last winter. He wanted me to take him and teach him something about the business; but all the time he was at my place I never could trust him to put a plate into the bath let alone taking a picture. Now how in the name of common sense could I recognize either of these gentlemen as a Photographer?—photography, being a profession requiring years of study together with a practical experience.

"Quack" says I left town some years ago, and when I returned I brought back one of those "Buchanan Diplomas." In reference to me leaving town I would say that I could scarcely have gone away without leaving town. However, unlike "Quack" I paid my bills before leaving. Next he imagines I got a Buchanan Diploma but if he will just spend 3cts. for a stamp and address on enquiry to Professor M. J. Galloway, in charge of the Philadelphia Electric Institution, No. 1239 Walnut St., Philadelphia, Pa., I am sure the professor will be most happy to give him the necessary information as to whether I got my Diploma as the result of a proficiency in the study of Electricity or through Mr. Buchanan.

Next he imagines he has been watching me for some time and could say a thing or two about my Electrical business, but I can assure "Quack" that I have seen him since my return here with his eyes so badly swollen—the result of a drunken fight—that he could not watch any person for some time, at least. It is evident "Quack" has got his "back up" at me, some time. Perhaps he thinks I charged him too much for his Electrical treatment. Well, my charges for those treatments may seem high sometimes, but, as he says, I am the only Electrical Doctor here and I make my own prices. However, I feel warranted in some peculiar cases to charge what some might think high. Then he goes on in a wonderfully cunning way saying there are pictures from my Studio reported in places where their originals would be found to him. This of course any person can easily see through; it is just a little foolish bias to try to injure my business, but it's too thin, for there are too many people in this town that have often wanted to buy pictures from me of my customers, but never could do so as I always have made it a point to guard well any picture left by customers in my place. I have been in the business about 22 years and I defy any one to say I have sold or given away a picture of a customer.

Now I wish to remind "Quack" that he has taken the wrong card to bluff me, and holds as bad a hand as he did when he tried it before and went blind for two weeks and then tried to see me and couldn't. I advise him in future to watch some one else and give the firm of Messereau & Thomson a chance.

Thanking you Mr. Editor for space in your paper, I remain, Yours Very Truly, T. R. COLPITTS, Chatham May 13, 1881.

ST. JOHN NOTES.

To the Editor of the Star,

DEAR SIR,—On Wednesday evening last we had the pleasure of attending a challenge debate between members of the Father Mathew's Association of St. John and of the St. Aloysius Association of Portland. A large and critical audience, composed principally of the various different temperance organizations throughout the city and Portland, assembled in St. Malachi's Hall at an early hour. The judges, Messrs. O'Reilly Esq., R. J. Quigley, Esq., and Councillor Kelly, shortly after arrived and having taken their seats, declared the proceedings formally opened.

On this announcement, Mr. Frank Duffy, leader of the affirmative, arose and

LOCAL MATTERS.

Boat Wrecking.

The boat of a fishery officer doing duty at Lower Napan, has recently been wrecked by some of the good people. The fishermen about Lower Napan should be above having the report go out they would do anything so mean as this. The boat will be replaced, and the officer will do his duty no less. Nothing will be harmed in consequence save the reputation of the people among whom the lawless act was done. We know it is hard shipping for the people to be forbidden to take with nets, the bass that now swim by their doors, and which will not bite the hook, but the stupid and unjust regulation that makes this so, is a Grit legacy left by Albert J. Smith. Now perhaps Napan sees what it is to be without a representative.

Since writing the above we learn the following:—On Thursday Warden McDiarmid and Fitzpatrick of Napan, having been informed that poaching was going on down the river, hired a canoe of Mr. William Gray, and paddled down the river. They found, contrary to law, two bass nets, one 4 1/2 inch, the other 5 inch mesh. One of these was evidently knit for catching middle sized goods. They seized the nets, and returned the canoe which was put on Mr. Grays premises. Yesterday morning when Mr. Gray arose, he found his canoe chopped in pieces. Now then, let the Government interfere, and punish the law breakers. We think the Officer ought to recommend that a reward of \$100 be offered for the apprehension of one or more of the lawless persons destroying these boats. If they are caught then deal with them to the utmost vigor of the law. Only a few days ago the same parties, presumably, destroyed Warden McDiarmid's boat. The Government should make good Mr. Gray's loss, as he is a poor man, and likewise should replace Warden McDiarmid's boat. But above all, Mr. Pope should see that this barbarous recrimination against Grit legacies, be put an end to, and severely punished.

Since writing both the above, Mr. W. Wyse, Fishery Overseer, has sent us the following:—

100 DOLLARS REWARD!

The above reward will be paid to any person who will give direct information which will lead to the conviction of the person or persons who willfully and maliciously destroyed the two boats used by the Fishery Wardens in Napan district at midnight, on Monday and Thursday last.

WM. WYSE, Fishery Officer. Chatham May 14, 1881.

\$20 REWARD!

The above reward will be paid by the subscriber to any person who will give him such information as will enable him to bring to justice the person or persons who destroyed the boats used by the Fishery Wardens on the nights of Monday and Thursday last. Informer's name to be kept secret.

WM. WYSE, Fishery Officer. Chatham, May 14, 1881.

STAR BRIEFS.

Fresh lobsters are for sale now through town.

Mr. Cunningham of Chatham is buying up all the empty casks he can get, and sending them to St. John.

John Scott of Portland, working at Morrison's mill, Fredericton, was killed Wednesday last by a pile of deals falling upon him.

The Dever Brothers of Fredericton have not yet recovered the postal card they lost during the sacking of the Fredericton post office!

We have to leave our notice of Mr. Hildebrand's business in Newcastle, over till next, though it is part in type. We shall have a word on our patrons all around.

Messrs. McKenzie & Co., are making improvements in their drug store under the supervision of Mr. Geo. Cassidy. We wish Messrs. Mackenzie & Co. much success.

Mr. R. Flanagan's little daughter, May, died of Diphtheria Thursday evening. A fortnight before, Mr. Flanagan lost his only son. We deeply sympathize with the afflicted parents in their sad loss.

Mr. P. A. Noonan of this town and latterly of Boston, Mass. has engaged the Noonian store, opposite Senator Muir-heads, where he intends errying on a general business. We wish him very much success.

An Indian named Venadestine today called at the Star office and said he shot a goose and divers other animals, at one shot, the other day with a ramrod. The presence of a black bottle in the Indians pocket, weakened the credibility of the story.

SHIP NEWS.

PORT OF CHATHAM.

ARRIVED—May 12—Bark Saturn, 479, Simonsdon, N. r-way, Guy, Beven & Co.

13—Bark Silone, 428, Bolstad, London, R. A. & J. Stewart; Sinken, 675, Gude, Norway, J. B. Snowball.
