The Committee on the Children's Fund sub-mitted a constitution providing that the fund should be managed by a committee composed of the financial secretaries of the districts, a lay member from each district, elected by the mem-bers of the May district meeting, and a trea-surer to be appointed annually by the confer-ence. May 15th was recommended as the close of the year, no child born after that date to have a claim for the current year. The report of the Committee on Temperance was considered. They regard the Temperance Act as the best available means adopted to the ultimate total suppression of the iraffic. The committee concluded with the following recommendations:—(1) More systematic labour by the Church, specific times of more prominent and definite presentation by the Church of this great question. (2) The importance of temperance literature in the school, and especially in the home. (3) The great gain of commiting by pledge in the schools, day and Sabbath, and in the home, the rising generation to this question.
(4) The need, upon the part of many, of the development of principle with a stiff backbone in it. Leas of expediency, and more of duty, are the demands of the hour. (5) The imperative burdly of the Church, especially in her ordinances, to practically emody one of the petitions of the thorized, by excluding from the Lord's table that which intoxicates, putting thereupon only the pure unfermented juice of the grape. A discussion took place on the clause relating to the wine used at the Lord's table. Rev. Dr. DEWART moved in amendment to the report a recommendation for the use of unfer-mented wine in the sacrament of the Lord's Supper in all the churches. The amendment was carried. The report was then adopted as a whole. Ald. Moore then brought up the resolution set out that recognizing the importance of excluding the temperance question from the domain of party strife, and the desirability of obtaining an official record of public sentiment on the sub-lect. the conference should memorialize the party strife, and the desirability of obtaining an official record of public sentiment on the sub-ject, the conference should memorialize the Governor-in-Council to provide at the next gen-eral election for the taking of the votes of the electors on the question of prohibition. He made the proposal because at the general election they had all the machinery at hand for taking the vote, and it would work automatically. Then, when they had the will of the people expressed, no Government would ignore it. He believed a majority would vote in favour of it. Rev. S. J. HUNTER seconded the motion, which was carried. Ald. Moore then moved that the conference memorialize the General Conference to enact a a law ordering the use of unfermented wine in the sacrament of the Lord's Supper. Carried.

BIBLE CHRISTIAN PROPERTY.

A question having arisen as to the sale of the property of the former Bible Christian Church, whether, because it had been in a measure pledged for their missionary debt, it wus to be disposed of outside of the provisions of the basis

disposed of outside of the provisions of the basis of union. The GENERAL SUPERINTENDENT said that the Bible Christian Church property came into the union as the other Church property, and must be disposed of by the constitutional committees as the property the other dhurches brought in. If there were mortgages against if they must be paid as the other mortgages. The agreement was that they were to have certain of their proper-les to pay their mission debt. In case the mis-sion properties did not pay the debt the extra proceeds of their other properties could be used for that purpose, but unless they had been put into the hands of private individuals they must be sold under the provisions of the basis and discipline.

be sold under the provisions of the basis and discipline. Rev. Dr. Rice explained that their recent con-ference had found that the mission property had satisfied all the claims but about three thousand dollars, and this had to secure equality, being levicd by percentage on the other properties. They had endeavoured to distibute the debt in the interests of uniting Methodism. The subject was then reforred to the Commit-tee on Church Property. In pursuance of yesterday's resolution, a com-mittee, consisting of Rev. Dr. Jaques, Prof. Ray-ner, and Mr. S. Gibson, was formed to draft a cesolution of condelence to her Majesty the Queen on the death of her youngrest son. The GENERAL SUPERINTENEENT, before ad-journing the conference in view of his depar-

NEW CANON ON DISCIPLINE. Mr. CHARLES JENKINS, of Petrolia, introduced his cauon on the discipline of the laity, second-ed by the Rev. James Chance. The mover ex-plained his object, which was to as far as pos-sible keep the important legislation of the Church from falling into the hands of persons who had not lived up to the rules of the Church; also to elevate the franchise, and for the purpose of avoiding that yielding of authority in such matters so often usurped by persons whose only qualification was their ability to pay subscriptions, and whose whole life was very often a protest against the rules and rubrics of the Church. Mev. Mr. CHANCE, seconder of the motion, said the apostles of our Lord had the power of dus-ciplining tho early Church. He referred to some of the laymen who opposed the canon not as "Woe unto ye lawyers" –liaughter)-who had as-sisted in passing a unique and unprecedented canon for disciplining the elergy, while object-ing strongly to take a little of their own medi-cine. The BISHOP then stated that at a recent meet-ing of the Standing Committee he had asked that a motion containing a reference to the action of Rev. Mr. Wright might have the refer-ence struck out, as it was calculated to irritate that genutleman's relations with the 'synod. He would now request the synod to also authorize the rescinding of that portion of the motion re-ferred to. Chancellor CRONYN accordingly, at the Bishop's request, moved that the resolution finally passed by the Standing Committee, re-flecting on the conduct of the Rev. J. T. Wright and subsequently adopted by the synod, having been rescinded by the Standing Committee the synod now rescind the same. Carried unani-mously.

Fourth Day. LONDON, June 22.-The Synod of Huron closed its session last night. Amongst the business transacted was the leaving of the appointment of a missioner to the Bishop and to the Standing Coumittee. The Standing Committee's report was then taken up. On their recommendation to provide a suitable see-house at a cost of \$15,000, and to provide means for the same, the committee was authorized to appoint a sub-committee to take action in the premises. Mr. CRONYN read a motion of the Standing Committee, to the effect that their Bishop's sti-pend be at least \$4,000 a year, with house rent and travelling expenses. Adopted. Wen. Archdeacon MARSH proposed to expedite the business of synod that a committee on canons be appointed. This had been customary in the synod ever since its existence up to 1881, and would be found to work well. He moved that a committee be appointed, consisting of seven members from the clerical and seven from the lay representation, to be a Canon Commit-tee. Curried.
