FRANCIS SMITH,
Goderich.

Milburn.

On the Boom.—The farmers here are all early risers now. From four a. m. till nine p. m. are the working hours now by many of them.

Our Invalids.—The victims of the recent casualties are nearly recovered from their injuries. We regret to learn that our good townsman, Mr. Hodge, of the firm of Hodge & Haynes, was very ill last week. But is now getting better.

Holmesville.

Personal.—W. H. and A. P. Edwards, of Toronto, are visiting their father, Rev. A. Edwards of this place.

E. C. Potter had a quantity of berries and cherries preserved taken from his cellar last week.

Geo. Callick had a binding bee one night last week, in which about twenty men and boys took part.

Bit Work.—One day last week Joseph Coleough cut 18 acres of fall wheat in one day, and says he will bet money he can cut twenty acres.

Exeter.

The amount levied on the Exeter assessment this year is 11 mills on the dollar, being 1 of a mill less than last year.

Changed Hands.—Mr. P. McPhillips who has carried on the livery business at Exeter for a number of years, left on Tuesday for Manitoba, having sold his livery to Mr. A. McDonald, who now has charge of it.

Deceased.—Mr. Robert Fountain, father of Mrs. W. H. Verity, and who has been ailing for some time, died at his residence, North Exeter, on Tuesday last, at the advanced age of 70 years. He was highly respected by all whom he had formed an acquaintance. [Times.]

Wingham.

Good Catch.—Mr. James Halliday made a good haul of black bass on Monday evening. He caught several weighing fully two pounds each. He sent three weighing over five pounds, to S. H. Gradon, Esq., barrister, London, as a sample of what we have in the Maitland.

Walking on the Water.—We were under the impression that the days for attempting to walk on the water were long past; still some people are foolish enough to think they can do it. One day last week a man tried it on the mill-race in Lower Wingham, and came near drowning. He was taken out by some young men who happened to be in the vicinity at the time. He says he had a hole in one of his boots, which let in the water, causing him to sink. He should get up a subscription for a new pair of boots and try again. [Advance.]

Auburn.

Mr. Wenzel has purchased an engine. There will be a hum at his furniture shop in a short time.

Miss Rowell, of Ottawa, is at present in the village on a visit to her brother, Mr. Geo. H. Rowell.

The fall wheat in this section has all been harvested in good condition. The crop is much better than was expected some time ago.

Within the past two weeks there has been two boats put on the river at this place, and rowing is all the rage. Several matches are spoken of.

One of Watson's of Ayr, binding machines has been exhibited in this neighborhood by Mr. Wm. Levy. The farmers are highly pleased with it as a labor saving machine.

The contract of fitting up the property bought from the Brown for a paragonage was let on the 1st inst., the mason work by H. Bohn, and the carpenter work and painting to Jas. Young.

Colborne.

Bethel B. C. Sabbath school, which has been for a time working under difficulties, has been revived. A full list of earnest, efficient and willing workers have been selected, and the school will now go right along.

Quick Work.—7 acres and a half of fall wheat were bound in six hours and a half, on the farm of Mr. James Patton, Garbaid, by Geo. Patton, Mr. Thurlow of Garbaid, and E. Shaw of Leeburn. The binding was very heavy, we are informed the shocks average 40 to the acre.

We are pleased to note the improvements daily made on Cherrydale farm. Mr. LeTouzé is almost constantly doing something to improve its general appearance. Having excellent water privileges and scenery; we should not be surprised to see Cherrydale become a leading summer resort.

Reappearance.—After many days' total thunders are again in motion. Farmers have an eye to your flocks of sheep, and don't "blood" the best when they come to see you. The steam thrasher of Mr. Ackland, thrashed at Mr. Henry Green, on the canal, one day last week. The yield of fall wheat was very good.

Leeburn.

Accident.—While chopping wood in Mr. Burke's bush last week, Mr. James Hogarth gave his foot a bad gash with the axe which will lay him up for a few weeks.

Scarcity of Water.—Many of the wells in this community have gone dry, and all the creeks. Many of the farmers have to draw water in wagons for home, and drive their stock down Butternut Row to the lake for water. Should the dry spell last much longer the lake might go dry too.

RATHER A HURRY.—The rain storm of Saturday evening last caused some quick harvest work in drawing in to the barns. Also a few Romeos going to the Point Farm with their Juliets had to drive at a rather faster pace. This famous resort is in full blast once again. From East, West, North and South many fair maidens have come to revive their beauty once more.

Seaford.

Returned.—Mr. Thomas Govenlock returned from the old country on Wednesday evening last. After disposing of his stock, Mr. Govenlock took a week's holiday and visited several points of interest in "Auld Scotia," and spent a very pleasant time among the friends and scenes of his youth. We regret to learn that his cattle speculation did not turn out as well as could be wished. The meat trade is very dull in the Old Country this season, and prices are unusually low. Many cattle exporters there have lost large sums of money. This is much to be regretted, as men of the enterprise and means of Mr. Govenlock and others, who have ventured in this cattle export business, have been productive of very great benefit to the people of this country, and it is to be regretted that while doing good for others their speculations do not turn out well for themselves. However, very likely they will have better luck the next time. Mr. Govenlock looks well, and judging from his appearance we should say that his trip has done him more good than will counterbalance the effect of the poor luck in his business speculation.

For Manitoba.—Mr. J. M. Lawrie, of St. Catharines, brother-in-law of Mr. S. Dickson, post master, leaves here today for the Birtle District, Northwest Territory, accompanied by Mrs. Lawrie and family. Mr. Lawrie accompanied by Mr. S. Hannah and Mr. K. McLeod went to the Northwest last spring. He went simply for a trip, having no intention whatever of settling there. He was so much taken up with the appearance of the country, however, that he purchased a large tract of land within three miles of the village of Birtle, returned home, disposed of his business in St. Catharines, and is now en route to his new home. He takes with him a number of horses and a lot of other stuff for use in the new country. Mr. Lawrie is a shrewd, active business man, and although we do not anticipate he will stick long at farming, yet we have no doubt he knows what he is doing, and that the change of location will be profitable to him. He says the country around Birtle is settling up surprisingly fast. When he went out there last spring, he thought he was going to the very outskirts of civilization, and now there is a smart village and the surrounding country is nearly all taken up and much of the land settled upon. [Expositor.]

Brussels.

Venor's July hail storm struck Brussels last Saturday afternoon.

The Rate.—It is believed that the taxes this year will amount to 2 cents on the dollar.

Caledonian.—Great preparations are being made for the celebration of the Caledonian games.

Hot.—A hot man from a hot place, and still heating, was making things warm in town on Monday last. Benzine did it.

The residents don't know which to attribute it to, the N. P. or the N. C.—the National Policy or the New Council. Possibly both have had a finger in the pie.

Salt.—The engine and other machinery for the use of Rogers' salt well have arrived, and will be placed in position at once under the supervision of Mr. Callick, formerly of Goderich.

Quiet.—Our town is unusually quiet. The farmers of the neighborhood are busy in the harvest field; the schools are closed, and a large number of boys are in the fall field; business is dull and the merchants are sighing for the dullness to cease.

Vacations.—Rev. S. Jones is off on a holiday trip. Rev. J. Ross will be shortly. Mr. John Stewart is in town spending vacation, and looks solidly robust, notwithstanding his severe tussle with Blackstone. Miss Dollie Shaw and Mr. William Shaw returned Monday last from a trip to Michigan. Miss Anna Oliver and Miss Campbell are home from Brantford College recuperating.

Bad Road.—The gravel road, north and south of the village is in a bad state. The townships of Morris and Grey are responsible for the state of them. The Council of one township claims that that of the other is responsible for the abomination, and between them the gravel road has gone to the bowwows. If the thing is not attended to at once, the fall rains will break up communication by the gravel road between Brussels and the outside world. Our Reeve will shake them up at the next meeting of the County Council.

Out on the Road.—Considerable excitement was caused here lately by the ejection of Caleb Whiting from a farm in the township of Morris, hard by. Whiting it appears had rented the place from Pat. Moore, who is not in good favor with many who have had dealings with him. The property was, it is said, in suit, and Moore was beaten in a case tried at Toronto. Whiting claims that Moore hurried him, alleged that he had been robbed of \$175, and was on that account short of funds, and offered to make a rebate of 20 per cent on the rent if he was paid at once. Whiting accordingly paid him, he says, and shortly afterward received notification not to pay the rent to Moore, as the farm was out of his hands. He informed the parties interested in the matter, that Moore had obtained the rent, and he was not in a position to pay it again. The upshot was the ejection of Whiting from the property by the Sheriff, at the request of the real owners. Popular opinion is with Whiting, as against Moore. The latter is well, if not favorably, known as a travelling vendor of dry-goods along the highways and byways of Huron and neighboring counties.

The Signal is now noted for cheap printing.

Dangannon.

Stop Thief.—Last Friday night over forty pound of mutton was stolen from the premises of Mr. John Bowers.

Mr. Matthew Sprout, Wawanosh, had two sheep lost last week while straying on the road. Wild cats are suspected.

Mr. Ben. Augustine, of Ashfield, lately lost a valuable horse through sickness. The animal was estimated at about \$150.

Mr. Currie, of Wawanosh, has sold his property, comprising a farm of two hundred and ninety acres and a sawmill to Mr. Smith, of Chatham, for \$4,000.

Mr. Thos. Stothers, West Wawanosh, starts out thrashing this week with his steamer. Mr. Stothers says he has a big season's work ahead. His machine is in fine order, and there are few can outthrash it.

Accident.—A son of Mr. Irwin Dougherty, Ashfield, met with a serious accident on Saturday while reaping. His leg got accidentally caught in some part of the machine gear, and was mangled severely.

A certain gent, not too old or yet too young, has lately been mowing the thistles in his garden and intends thrashing the same and feeding the seeds to his "bird" who will—judge by the look of things—be forthcoming shortly, as the "cage" is nearly ready to receive its fair occupant.

The numerous friends of Mr. Joseph Smith, carpenter, will be sorry to hear of his intended departure from our midst. He leaves for Chicago on Friday next, where he will remain all winter. Then westward ho! in the spring, destination Dakota, where if he likes the looks of the country, he intends moving his family. We wish Mr. Smith a safe journey and a profitable and pleasant residence in his new home.

The Wingham Times says.—Mr. T. S. Reid, successor to E. Dodge, having secured a good business stand in the thriving village of Dangannon, is about to vacate his store in the Stone Block, Josephine street, Wingham, in favor of some other candidate for the smiles of fortune. We regret to see Mr. Reid, who is a decent respectable man and an upright merchant, leaving town after a stay of only two months.

"Secure the substance before the shadow fall." Our villagers were electrified the other day upon seeing a house coming in town on wheels but were soon again in a state of placidity upon investigating matters, and finding the afore-said house nothing more formidable than a photo gallery, though the largest of the kind we ever saw. We understand the operator is an excellent hand, and the probabilities are he will leave a good many "shadows" behind him.

This village can boast of having more than a dozen dressmakers, and all handsome young ladies, too. I think we can safely challenge any other village in the county to bring forward the same number, and all unmarried. Yet it is not to the credit of our dressey "fair ones" that I say so, for I fancy it must be surprising to any one who enters into the details of fashion to consider how far the vanity of womankind has laid itself out in dress, what a prodigious number of people it maintains, and what a circulation of money it occasions! Providence in this case makes use of the folly which they will not give up, and it becomes instrumental to the support of those who are willing to labor. The poet has truly said:

"But womankind that never knows a mean,
Down to the dregs their sinking fortunes drain;
How they give, and spend, and waste and wear,
And think no pleasure can be bought too dear."

CONRAD.

Which is Right.

To the Editor of the Clinton New Era.
The Rev. J. E. Williams, of Rochester, son of Rev. Dr. Williams, of Goderich, has lately been delivering a lecture on the "Power of the Press." According to the report of the lecture in the Rochester Democrat, he extolled the newspaper as an instructor, in no measured terms. He quoted Lunenburg approvingly, as saying that "Before the century runs out the newspaper will be the only educator." Indeed, the lecturer went so far as to say that "It will be ahead of all books, so that they cannot be used." The newspaper is a district school, an academy and a university to many intelligent men. It educates in all departments. Further on, the lecturer is reported as saying that the newspaper educates upon spiritual questions. Now, all this is very antagonistic to the views expressed by the father of the lecturer, some time ago, in a local preacher, held in the town of Clinton. In that convention the oracular Doctor denounced the newspaper as a means of instruction. He referred to two or three cases of immoral editors, who had come within the range of his observations, and told us he was led by what he saw of their immorality, to make up his mind largely to ignore newspaper literature in the future.

Peter contra Peter. The modern newspaper is, unquestionably, the most faithful record of the events which transpire in this mundane world, and from no source can such telling illustrations be obtained of all those truths, which we need to know, whether scientific, political or religious. McCarthy, in "A history of our own times," says "The English people have long learned to look to the newspaper press as not only the quickest, but on the whole, the most accurate source of intelligence, in all matters of public interest."

NATHANIEL SMITH.

Mr. Duncan Campbell, of Stanley, who is teaching in S. S. No. 3, Hay, has gone to visit his friends in New Brunswick during the vacation.

Just to show how ridiculously low a printing office, (not in Clinton, but in Seaford) tendered for work, may state that its proprietor accepted at \$9.50, two jobs that cannot be made to pay at less than \$20 each. The publisher offered the work to us at \$15 each, but it was refused, and two Mitchell publishers also refused it at the same figure. If the publisher in question makes as large profit on his general work as he would on this, he will soon be a millionaire. [Clinton New Era.]

Trotting at Cleveland.

CLEVELAND, O., July 28.—At the opening of the sport the betting was confined to

THE 221 CLASS.

from which Piedmont was drawn by reason of this absence, thus relegating her to Lucy, Voltair, and Edwin Thorne. Thorne, 11, until some one induced Voltair's driver to show some lightning practice on the track, when a few green horns began to nibble at \$26 on Voltair, with Lucy next choice at \$20. The majority of the pools, however, elevated Lucy into the position of favorite at good odds.

The track was a little heavy as the horses began "brushing" before start. Voltair kicked like a Texan steer during scoring, and went about half a length of the grandstand on his forelegs. President Edwards gave the driver a thorough overhauling during the scoring.

First Heat.—Voltair got the pole, and the favorite the outside. The horses scored about twenty minutes before effecting a start. The three went away nose and nose. Voltair broke at the first quarter, and Thorne took the lead. Lucy showed her speed at the half, and from thence home was wheel all the way. At the wire Thorne's driver urged his horse to make a final effort, and Thorne's nostrils got in first, with Voltair a bad third. Time, 2:20.

Second Heat.—The horses got a fair start, and it was rather even all the way around to the three-quarter pole, with the best show apparently for Voltair. At the home stretch, however, Thorne passed Voltair, and won in 2:23 Voltair second Lucy third.

In the third heat, which finished the race, Thorne took the lead and never lost it, winning in 2:22, with Lucy second, and Voltair third.

Summary.

CLEVELAND, Thursday, July 28.—221 class \$2,000.
Edwin Thorne..... 1 1 1
Lucy..... 2 2 2
Voltair..... 3 3 3

ON THE CHICAGO TRACK.

It was supposed the 21 class contest would be something to cause bated breath. It didn't. The great Chicago stallion, Piedmont, under Pete Johnson's supervision, had not the least difficulty in capturing both first and second money. The mighty Alexander was not himself at all, seeming to be without nerve and allowing the distance flag to fly in his face in the second heat. The evening before there was little variance in the amount of specie ventured on the two stallions. They brought \$100 each where Lucy took \$16. Even on the grounds before the first heat Alexander was preferred at \$100 to \$85 on Piedmont, \$12 on Lucy.

Piedmont had the pole, Lucy outside. They got away well, Alexander's nose in front, Piedmont and Lucy lapping. At the turn Alexander flew up, and at the quarter pole Piedmont was two lengths to the fore, Lucy a half behind Alexander. At the half Alexander fell away two lengths more. At the third quarter the black stallion had lost another two lengths. So at the end Piedmont won by three lengths, Lucy second, with five lengths to give. Time good—2:18; only half a second from the extra purse.

The chestnut winner now commanded \$200 in the market, and the field begged for 51.

Lucy led the second start and Alexander changed his gait with a loss of five lengths at the first bend. Toward the quarter post, Lucy and Piedmont made a beautiful pair, even as a line, but Lucy became proud in such good society and lost her head and feet, also two lengths. This little lead Piedmont held all the way adding an inch now and then, till it footed up three lengths at the string.

Alexander, lathering, had the red flag waved in his face, and he went meekly to the post, to the disgust of his backers.

No one ventured a penny now against Piedmont. Piedmont and Lucy had it neck and neck for a few yards from the stand, but Piedmont added a length to his lead at the first two poles and came to the end away ahead of the little mare, who trotted a pretty race, however, and won second money.

SUMMARY.

SAME DAY—Second race. Purse \$2,500, 221 class, \$1,250 to first, \$625 to second, \$375 to third, \$250 to fourth, with \$500 extra to the winner of the fastest heat if better than \$2:17. S. J. Morgan, Chicago, enters ch. s. Piedmont, by Almont. 1 1 1
Palmer & Wells, Aurora, Ont., enter br. m. Lucy, by Aurora Revenge. 2 2 2
W. W. W. Philadelphia, enters blk. s. France Alexander. 3 dia.

The Cincinnati Commercial thus hits the nail on the head regarding the dynamite devilry, supposed to be the work of the Irish "Skirmishers": Congress will have to take this matter in hand, and we shall see in the course of the debates how far toadying to assassins can be carried in this country. It does not become the people, whose Prudence has been shot down by a hideous vagabond, to allow nests of murderers to go into the internal machine business. There are a lot of schemers in this country making money out of the so-called Skirmishing Fund, no doubt. We would not feel kindly toward England if there were public subscriptions there, backed by newspapers of large circulation, for the promotion of riots in this country for the reestablishment of the Southern Confederacy; and if rioters came over here to preach this sort of bloody folly, and boasted that they were so sacred that we must not touch them, it seems quite possible that we should pull their necks.

Aside from the internal-machine development, there was a general feeling that there had been about enough war against England preached in this country. The everlasting dingdong in behalf of impracticable schemes for destroying the British Empire should be stopped by force of public opinion. Let the demagogues understand at once that they have nothing to make by joining in the howling that is expected to destroy an Empire.

Mr. Hardaker, of Hamilton, drove out for the purpose of attending the funeral of his sister, Mrs. Hammill. While awaiting the cortege to start he was taken suddenly ill, and expired before medical aid arrived. The deceased was fifty-two years of age, and had resided in Hamilton over thirty years. He leaves a wife and five children.

Nature Makes no Mistakes.

Nature's own remedy for bowel complaints, cholera morbus, cholera, cramps, vomiting, sea sickness, cholera infantum, diarrhoea, dysentery, and all diseases of a like nature belonging to the summer season, is Dr. Fowler's Ext. of Wild Strawberry, which can be obtained of all dealers in medicine.

MARRIED.

At Goderich on the 2nd inst., by the Rev. Dr. Ure, Mr. John McLean, to Miss Annie Leod, both of Goderich.

DIED.

Williamson—In Goderich, June 18, Agnes Williamson, aged 1 year and 1 day.
Young—In Goderich, on Wednesday, August 3rd, Jane Young, aged 63 years.
