SNEEZING and running at the nose, stuffed up feelings in the head, sore throat, tickling in the throat and coughing.

This is the natural development of whatisin the beginning "only a cold."
It is the way in which scores and thousands are allowing colds to develop into bronchitis, pneumonia, or consumption.

If colds were promptly cured there would be no need for sanitoriums and hospitals for consumptives. Because people have weak lungs they need not become consumptives if they will but guard against colds and cure them promptly by using Dr. Chase's Syrup of Linseed and Turpentine.
