SHOE POLISH
It's a pure oil paste—no mops, bottles or liquids—contains no Turpentine or Acids. The finest of them all. ALL DEALERS, 10c.
THE F. F. DALLEY CO., LIMITED, Hamilton, Ont., and Buffalo, N.Y.

Best of All Our Oranges and Lemons Are "Sunkist"

We pick, pack and ship over 20,000 cars of California oranges and lemons each season from our 5,000 groves. These are of varying grades. From all this vast quantity we select the finest—the superior grades—which we wrap in tissue paper bearing the famous "Sunkist" label so that you may know them as the choicest fruit. So be sure to get "Sunkist" oranges and lemons at your dealer's.

"Sunkist" oranges ripen on the tree. The warm California sunshine gives a tender, sweet pulp, matured and made exquisitely juicy by Nature.

"Sunkist" Navel Oranges Are Seedless
These oranges are distinct, full-flavor, thin-skinned. They are picked by gloved-hands; thoroughly cleansed; wrapped in "Sunkist" tissue paper; packed carefully to insure firm, unbruised fruit.

How to Tell "Sunkist"
Each "Sunkist" orange and lemon is wrapped in tissue paper upon which is printed the "Sunkist" label. Lemons or oranges without "Sunkist" wrappers are not "Sunkist" brand.

Free—Best Rogers' Orange Spoon—Send us 12 "Sunkist" orange or lemon wrappers and 6 two-cent stamps for postage, packing, etc., and we will send free, a Wm. Rogers & Son full standard, AA plate orange spoon. For each additional spoon send 6 two-cent stamps and 12 wrappers. You can easily leave a full set. Get a dozen "Sunkist" oranges or lemons and send for your first spoon.

Compound Extract of SARSAPARILLA

A BLOOD PURIFIER OF MERIT
It's better to take no medicine at all than to depend upon cheap concoctions that are compounded to sell at a low price and a big profit, just because there is a large demand for certain remedies at certain seasons of the year.

Compound Sarsaparilla

Purifies the blood, arouses the torpid liver, drives out all impurities, cleanses and tones up the system, and helps nature through all the dullness that comes from the indoor life of winter. It arouses energy, brightens the eye, clears the brain, and gives lightness to the movements. Compound Sarsaparilla is not the only thing you will find in this drug store. We make a specialty of all articles of merit.

HALLEY'S COMET and GALVANIT

GALVANIT is expected to appear in the leading stores of the North West about the same time as the **GREAT COMET**. You will be looking for these wonderful phenomena. One is expected to illuminate the sky, but it is certain that **GALVANIT** will cast a radiance over the EARTH.

GALVANIT METHOD

Is the new way of electroplating metal upon metal by unskilled labor in your workshop or home, so simple that a child can use it. Applied by a moistened rag or brush. A pure deposit of metal is guaranteed every time you polish with Galvanit.

GALVANIT METHOD is endorsed by the leading scientific authorities of Great Britain, including such men of world-wide repute as Professor Sylvanus Thompson, D.Sc., F.R.S.B.A., etc., president of the Royal Society of Arts, England.

Described as the greatest scientific discovery since radium. Storekeepers are invited to apply to Mr. C. Smallridge, who has charge of its introduction in the North West.

AVIATION MEET AT LONG ISLAND, N. Y.

Many Foreign Aviators Are Expected to Challenge This Year For the Big Prize.

New York, May 13.—America's first international aviation meet for the championship of the world will be held on Long Island. The last international meet, at which Glenn H. Curtiss of Hammondsport, New York, won the Gordon-Bennett trophy, was held last year at Rheims, France.

St. Louis, Indianapolis, Los Angeles, Seattle and Washington and Baltimore have all been bidders for the contest, but the Aero Club of America selected New York, because it believes the transportation lines here are better equipped to handle large crowds, and because foreign aviators are not inclined to undertake the expense of a long land trip after crossing the ocean. The exact site for the course has not been definitely chosen, but it will be somewhere near Hempstead Plains, Long Island, just outside the limits of New York City.

The races will be conducted by the International Aviation Federation, which the Aero Club of America is a member, and will last for a week. The first contest for the world's championship and the Gordon-Bennett trophy has been scheduled for October 22, but the dates for the minor events have not yet been set.

For the Gordon-Bennett trophy, the distance is 20 kilometres or 12.4 miles. Curtiss covered it last year in the record time of 15 minutes, 50.3 seconds, defeating Blériot, Lefebvre and Latham of France and Cockburn of England.

Many foreign aviators are expected to challenge this year, as under an agreement entered into between the Aero Club of America and the Wright Brothers, the latter have agreed to license all aviators competing in events sanctioned by the Aero Club of America. Field Bishop, president of the club, has reported from Europe, whether he went recently to complete arrangements for the meet, that the contest will be a great event, and that there will be foreign entries in plenty.

ROMANCE OF MINING IS NOT YET DEAD
Nelson Boy Is Presented With Claim by Capitalists of Vancouver

Nelson, May 13.—One could not desire a more delightful illustration of the romance of western mining life than has just arisen in connection with the bonding of the Elsie group of claims in the Bayview district by William Maher, the famous prospector, Vancouver capitalist, and miner of Nelson and the Sheep Creek country.

About two years ago Eddie Doolan, son of Larry Doolan, one of the old timers of the promotion and construction of the C.P.R., came to Nelson, a time well known and respected in all parts of the Kootenays, was out for a holiday with William Maher and his partner, Angus Murray, along toward August, 1908, they were away up in the wide spaces amongst the lakes, glaciers and peaks about the Bayview group. The ground about them looked promising, and an examination proved it was far better than its appearance.

A group of five claims was marked off, the Elsie, Wilson, Tennie, Ore Hill and Gold Nugget, they were away up in the name of William Maher.

"This claim is for you Ed," said Maher to young Doolan, who was with him. "You are the young man to get a miner's certificate, but I'll keep the claim for you."

Without a line of writing there the matter stood on the bare word of William Maher, but he comes of the stock of the Mahers of Tipperary, Ireland, who are renowned for pluck and loyalty to the death. The whole thing had almost passed from young Doolan's mind when his attention was pleasantly recalled to it by the receipt of a letter from William Maher, dated from Vancouver on April 29, and running as follows:

"Dear Eddie,—Enclosed please find bank draft for \$225, being twenty-five per cent. paid on price of the Elsie, claim I staked for you. I have bonded the group. Hoping you are prospering. Yours, William Maher."

Which means that William Maher has made young Doolan, who has barely turned his eighteenth year, a present of \$4,500.

TEN HOURS IN THE TAIL OF HALLEY'S COMET
Astronomer Says it Will Take Earth That Time to Pass Through.

San Jose, Cal., May 13.—Director Campbell of the Lick Observatory today issued the following statement:

"Halley's comet is the most conspicuous comet since that of September and October, 1835, and the chances are good that in a few days it will surpass in appearance the great comet of 1882. Astronomer Curtis photographed thirty-three degrees of its tail, but not nearly that extent is visible to the unaided eye. The diameter of the tail at a point 15,000,000 miles out from the head was about 1,900,000 miles.

"As the earth and comet will pass each other on the evening of May 18 with a relative velocity of between forty and fifty miles per second, the earth will be approximately ten hours in passage through the tail provided present dimensions remain essentially unchanged.

"The observer should have no difficulty in obtaining an excellent view of the comet a short distance above the horizon just before dawn. During the remaining mornings of this week the best view of the comet may be obtained at 3:15 o'clock in the morning local time for all situated in approximately a latitude of San Francisco.

"Observers near the northern edge of the United States, Canada and in Central and Northern Europe will get their best views earlier than 3:15 o'clock, and those situated in the southern part of the United States in similar latitude should look a few minutes later than 3:15 a.m. Tomorrow morning the comet will be 10,000,000 miles from the earth."

Pointed Paragraphs
It's the easiest thing in the world to be suspicious.
A man isn't necessarily sharp because he has good points.
It goes without saying that two women never do.

NO HOSPITAL FOR HIM

SAVED JUST IN TIME

Mr. Lewis MacPherson, of Douvres, Inverness County, Cape Breton, had been suffering tortures from his kidneys and bladder, which were terribly inflamed. Finally, his doctor could do nothing more for him and advised him to go to the hospital.

A neighbor, who had used Gin Pills—read Mr. MacPherson's letter.

"It affords me more than ordinary pleasure to convey, not only to yourself but also to all sufferers from Kidney and Urinary Troubles, the instant and complete cure that Gin Pills effected in my case.

"I suffered untold misery even when under treatment from the best doctors for over ten months; and nothing seemed to do me any good or relieve my painful condition. My trouble was inflammation of Kidneys and Bladder.

"I finally determined to take my doctor's advice and go to the Victoria Hospital at Halifax, for treatment. Two days, however, before my intended departure for the hospital, a neighbor called and, happening to have a Gin Pill in his pocket, insisted on my taking it. I did so and six hours after taking it, the results and benefits I derived were simply nothing more or less than miraculous. Instead of going to the Hospital, I sent for a box of Gin Pills with the result that I am a cured man. I recommend Gin Pills to every one suffering from Kidney Trouble."

LEWIS MACPHERSON.
It is just as we say, you see—Gin Pills do cure Kidney and Bladder Troubles when all else fails. Take them on our positive guarantee of relief or your money back.

Dealers everywhere have Gin Pills at 25c a box, 6 for \$2.50. Sample sent free. Write to: **Nelson, N.B. and Chem. Co. Limited, Dept. A, P. O. Toronto.**

BRITAIN'S KING WAS GOOD SEAMAN

Specific Act Described by a Writer Who Was Senior Officer Present On the Occasion.

London, May 13.—The Times prints a letter from a naval officer, describing a specific act of good seamanship, which King George performed while in command of torpedo boat No. 73, where, says the writer, he shared his cabin and box of sandwiches with his sole mate, the gunner.

"During the manoeuvres of 1889," he added, "a small squadron was sent to defend Lough Swilly and as an attack by the enemy was hardly expected, three attached torpedo boats were sent to sea one night to reconnoitre directly after dark, with orders to return into harbor at daylight. It was a rough night, and while returning toward the harbor, just after daylight one of the three broke down and had to anchor close to a lee shore where a nasty sea was on. No. 73 immediately went to tow the disabled boat out of danger. The situation was critical, and immediately preparations were made for rescuing the disabled boat, but the commander of 73 was so keen to have another try, notwithstanding the fact that he had been up all night that it was decided to give the young sub-lieutenant a chance of winning his spurs, so he was provided with a brand new hemp hawser, and was sent out to rescue his friend, which he did, and towed him safely into harbor.

"It was a smart piece of seamanship which would have done credit to an officer who had far wider experience in this sort of work than Prince George then enjoyed."

"There were no special correspondents of newspapers present, and it was well known that the modest commander was not one of those who play to the gallery, it being sufficient for him to know that he had done his duty and done it well."

The writer of the letter signs it "Senior Officer Present" and concludes:

"May one add, with all due respect, that perhaps His Majesty will make none the worse King for being a good sailor."

DARING HOLD-UP IN SEATTLE STREET CAR

Bandits Get Away With Over \$1500 Mostly From Saloon Men

Seattle, May 12.—Between \$1,500 and \$2,000 in money and jewelry was carried off before dawn by three bandits who held up a South Park street car. Twenty men were on the car, including the three bandits. The highwaymen remained quietly in their seats until the car reached Spokane avenue. There they lined up the conductor, the motorman and the passengers. While two of them kept the passengers in line by leveling revolvers, the third robber relieved each one in line of his valuables and ordered him to march back to the rear of the car. When the robbers had completed their work, one of them entered the motorman's compartment and ran the car to Edmonds, a small station west of Georgetown, where the men got off and entered the Northern Pacific train. It is thought they boarded a south-bound train which left shortly after 10 o'clock. The heaviest losers in the hold-up were saloon keepers and bartenders, who were on their way home after their night's work.
