

HE ISN'T WANTED.

European Socialists Have No Use for Herr Most.

France Will Not Be Asked to Surrender O'Brien and Dillon.

Marked and Steady Decline of Russia's Grain Trade.

Patti Has Not Adopted the Jewish Faith.

Home Rule for Scotland.

London, Oct. 18.—In a letter to one of his Scotch correspondents, Mr. Gladstone promises that in the speeches he makes during his coming tour in Scotland, he will refer to the question of home rule for Scotland.

Patti Not to Become a Jewess.
LONDON, Oct. 18.—The Pall Mall Gazette publishes this paragraph: "We are surprised by Mrs. Patti to contradict positively the statement that she has adopted the Jewish faith, or is about to be baptized as a Jewess."

The Socialists.
HALLE, Oct. 18.—At today's session of the Socialist Congress it was decided to nominate candidates to contest all the elections at the city of Berlin. It was also decided to hold a Socialist labor demonstration on the May 1 next, and thereafter on the Sunday following the last of May in each year.

Cheap Ocean Passage.
LONDON, Oct. 18.—Mr. Henderson Heaton, M.P., has returned from his Canadian trip with increased confidence in the success of the cheap passage movement. He has submitted to the Imperial authorities detailed plans for the establishment of a 2-cent passage rate between England and Canada.

The Newfoundland Question.
LONDON, Oct. 18.—There is good authority for stating that Lord Salisbury is about to make fresh proposals to France regarding the Newfoundland question, on a basis of free access by the French fishermen to the Newfoundland's fish supply in return for the abrogation of the French bounties. It is also possible the repeal of the bounties will also form the basis of a London to Washington.

The Times' Advice to Canada.
LONDON, Oct. 18.—The Times says: "If Canada desires to make the McKinley law of benefit to her instead of to cause loss, the most likely method is to adopt frankly and fully the policy of free trade. It is best to begin with the mother country. Canada will not be able to lose her commercial relations at once. It will be enough for the present if the direction and aim are right."

Most Need Not Come.
LONDON, Oct. 18.—John Burns, the Socialist and workingman's leader, when asked about the proposed return of Herr Most to Europe, answered that true socialism has no sympathy with anarchy, and that most need expect welcome from the Socialist either in London or Germany. There never was so wide a gulf between socialism and the Herr Most type of anarchy as there is to-day.

A Big Mistake.
LYONS, Oct. 18.—President Aynard, of the Chamber of Commerce, speaking at a meeting called to consider means for protecting the silk trade from the effects of the McKinley Bill, said in regard to the repeal: "Such retaliation I should regard as a mistake. Let us leave Americans to reap the inevitable results of their own short-sighted policy. They wish to export without paying, but they will soon discover their mistake."

Oppressive to Consumers.
LONDON, Oct. 18.—Mr. Mundella, M.P., in a speech at Sheffield, said he believed that the United States tariff law would dispossess its framers and prove oppressive to American consumers, especially farmers. Austria, Germany, Belgium and France, he said, would suffer from the law. He said he had no doubt however that England would over-master the dear labor of America, and that if the Canadians proclaimed free trade they would be masters of the situation.

The Tippecanoe Farce.
TIPPECANOE, Oct. 18.—The trial of the Irish Nationalists charged with conspiracy was continued yesterday. Tenant Quinlan testified he lived on a farm belonging to Smith Barry, who had been occupied by his father, and after his death by himself, the total period of his tenancy being 90 years. Neither he nor his father had been molested until last December. After he had paid his rent four shots were fired into the house.

In the Matter of Eggs.
LONDON, Oct. 18.—Some interest is aroused here by the proposal for the import of Canadian eggs to the English market. A difference of opinion exists as to the possibilities of the trade, but several leading dealers in London inform me they think the idea north of the border. Moreover, whatever may be the case as regards domestic demand, there are fair prospects of developing a trade in eggs suitable for manufacturing purposes, if proper care be taken to meet the special conditions of the trade.

A Visit to Canada Means Arrest.
LONDON, Oct. 18.—Chief Secretary Balfour has ordered a thorough investigation of the circumstances attending the escape of Messrs. O'Brien and Dillon, but the Government has decided not to make any request of France for the surrender of the fugitives. Such a request would be difficult, in view of the asylum granted by England to Boulanger and other French refugees. Should the two voluntary exiles set foot on Canadian soil after reaching America, they will be arrested there.

Russia's Grain Trade Falters.
ONESSA, Oct. 18.—The marked and steady decrease of the export trade in Russian grain is attracting the serious attention of the Government. The total shipments from all the Russian ports for the first six months of the present year only reached 257,000,000 pounds—the total for the same period in 1889 being 310,000,000 pounds in 1889 and 346,000,000 in 1888. In view of these facts the Russian economists are making the fact that American, Indian and Egyptian grain is driving the Russian product out of the market, depriving the country of its former title of the granary of Europe. While this decrease is acknowledged to be progressing, nothing is being

done to encourage other industries to take its place, and the prospect for the future of the already wretchedly poor and oppressed peasantry, who barely held their own while Russia was still at the head of grain-selling nations, is dark indeed.

THE MURDERERS.

Birchall's Case—Day Hopes for a Reprieve.
TORONTO, Oct. 18.—Justice MacMahon has transmitted his private view of the Birchall case to the Secretary of State.

WELLAND, Oct. 18.—Arthur Hoyt Day, sentenced to be hanged Dec. 18 for the murder, is still in hopes he will secure a reprieve when his case comes before the judges in Toronto. He is closely guarded and no one is allowed to see him.

UNDER THE SEMAPHORE.

A Cut in Railway Rates—C. P. R. Earns.
The total net earnings of 103 roads for August aggregate \$19,792,203—a decrease from August last year of 61.10 per cent.

The traffic earnings of the C. P. R. for the week ending Oct. 14 were \$387,000; the same week last year, \$385,000; earnings of the New Brunswick Railway included both years.

The Canadian Pacific Railway, through its American subsidiary, the Duluth, South Shore and Atlantic, has made a cut in through rates to Europe in league with the North German Lloyd Steamship Company, and as a consequence a rate war is expected.

It is currently rumored that the Michigan Central Railway Company are projecting a tunnel from Courtwright to St. Clair. The report is that the company has been convinced by the result of the tests at Detroit that a tunnel is not practicable there, and that they have therefore decided to try it at Courtwright. If the scheme is a success the St. Clair branch will be made the main line.—[Sarnia Canadian.]

Failures.
NEW YORK, Oct. 18.—Business failures reported number 177 in the United States this week, against 183 last week and 205 this week last year. Canada had 29 this week, against 30 last week. The total number of failures in the United States from Jan. 1 to date is 7,985, against 8,942 in the portion of 1889.—[Bradstreet's Report.]

Twenty-Five Thousand Witnesses.
FREDERICK, Md., Oct. 18.—Twenty-five thousand people witnessed the marriage today on the fair grounds here of Jacob Kande, a young farm laborer, and Ella Grazer, the daughter of a farmer of Frederick county. The Rev. Jas. Stephens, rector of the Protestant Episcopal Church, officiated at the ceremony. The wedding ceremony was accompanied by all the din and noise that could be produced by twenty bands of music and the jests of the crowd.

Getting Board Money for a Corpse.
BANGOR, Me., Oct. 18.—A ghastly story is told of Ann Cooley, the woman for whose murder at New Portland last April Michael W. Norton was recently convicted. It is related that a year or two ago she was engaged by the town to take care of a sick man, a pauper, at a stipulated monthly salary of \$1.00. The patient died, and the funeral was held. Then, as the story goes, after notifying the authorities and having the funeral, Mrs. Cooley, who lived in a remote spot, far from the village, packed the body in ice and snow and kept it thus preserved until spring, in order to get so much money for the funeral. The extra pay for the funeral was \$1.00. The truth of the story, which only came out recently, is vouched for by many respectable people.

A Wonderful Woman.
TORONTO, Oct. 18.—The Farmers' Alliance has enrolled 130,000 members. The greatest political power within its ranks, its ablest organizer and most powerful speaker, is Mrs. Mary A. Lease. She is a woman of oratorical powers and a comprehension of the political situation which are wonderful. She has made up to date 160 speeches in the United States, and has been in the West, south and southwest. She is steady in most markets. Iron and steel are active and unchanged in the West, except active and tending upward in the West. Lumber is \$1.00 on removal of the Canadian export tax. Dealers in Maine have lost money this year. Cotton goods are generally in good position. Print cloths are the only goods in an unsatisfactory shape. Prices unchanged for men's wear in woollens. The cloak trade has opened well. Crop reports, increased receipts and long selling depressed wheat and corn early in the week, but the loss was regained later on light receipts. Not weather, better on light receipts. The increase of available wheat last week was 2,395,163 bushels. Hog products dull and weak early, but sympathy with grain, and strengthened later on smaller receipts at the West. Raw sugar is 1-16 cent higher. Refined is unchanged.

You cannot catch fish with "marriage lines," but many men are caught with them.
