Not Playing Her Part.

"I am only the wife of a missionary, and we do not count for much in Japan. Canada is not playing the part that she should in the world today. Its rays should light the dark gloom of other regions to a before plane and other nations to a higher plane, and purer atmosphere. Canada as a Christian nation is not ringing true. Everywhere I went in my work they had the highest regard for Canada, because our knights of chivalry rose up in war. It touched the hearts of the people of Japan, and raised Christianity there. Canada is the hope of the world, and the women are called forth to a greater battle and a greater enemy is now tunneling the founda-tions of our empire."

WORLD IN MIDST OF PERILOUS TIMES

Must Advance To Idealism or Back To Barbarism, Says Pastor.

That there should be personal concern on the part of every individual over the prevailing conditions in the world today, was the opinion of Rev. W. R. McIntosh, speaking on "Our Empire" in the King Street Presbyterian Church on Sunday evening. Mr. McIntosh took his text "Is It Nothing To You?" from Jeremiah, and brought up the troublous times in the days of Jeremiah, remarking that history repeats itself, and the world is once again in the midst of perilous times.

"If we do not at this time march to practical idealism, we shall have the alternative of reverting to barbar-ism, and this age will close in a chaos. We must break down the world of selfishness and individualism and create a spirit of brotherhood, the spirit of co-operation and the spirit of sacrifice and service throughout our country, and stand strong for all that is just and special prayers offered for "Our Em-
