be followed in the early stages of this subject. It was well received and favorably commented on. The vocal solo by Mr. J. H. Monk was thoroughly appreciated and heartily encored. Miss Lyons in her paper on "Stepping stones to success in the teacher's profession," scored a decided success. The essay was well read, and outlined many of the devices adapted by the author in dealing \$589,000, as against \$363,000 for the same with all classes and conditions of chil-

The Institute adjourned at 4:30, after a most interesting and successful day. In the evening serious work was thrown aside, and the teachers of Victoria gave themselves up to the pleasing task of entertaining their visiting brethren. Addresses of welcome were de-livered by His Worship Mayor Redfern on behalf of the city; by Col. Baker, minister of education, for the education department; and by Principal Netherby the Victoria Teachers' Institute Suitable replies were made by Mr. W. C. Coatham, of New Westminster, and by Mr. R. Sparling, president of the Inland Teachers' Institute. The following musical programme formed a very pleasing and enjoyable feature of the even-

was the serving of light refreshments to the guests of the evening. It is needless to say that a most enjoyable evening was spent, and the visiting teachers will long remember the hospitality and sociability of the Victoria co-workers.

WEDNESDAY'S SESSION.

The second day's session of the Provincial Teachers' Institute is always the great day for business. On that day the valuable papers prepared are read and discussed. Yesterday these papers were more full of interest then usual and expenses were ore full of interest than usual and exeited a great deal of interest and discus sion. The teachers who were unable to be present will be glad to learn tha through the courteeey of Hon. Col. Baker they will have an opportunity of seeing them for the minister of education has arranged to have the paper printed and distributed.

After roll call, the president, Dr. Pope declared the Institute open for business and announced that Col. Baker, minis ter of Education, had very generously

presented the Institute with a cheque for \$20, in order to assist in meeting necessary expenses.

Mr. Paul Murray, of Maple Ridge, being called upon, read a carefully prepared paper on "Agriculture in Schools."

Col. Baker speke, highly commended the meeting for the marked skill displayed in handling the subject. In the course of his remarks the Minister said that the present text book on agriculture

were nearly always off side and the appropriate that he would willingly let the sheriff on this point. Victoria had need be try it on him, Miller. on "education." All are invited.

In hats the styles change, but the records will show Coughs are cured as they were 50 years ago.

~~~~ Ayer's Cherry Pectoral has no equal as a remedy for coughs, colds, and lung diseases. Where other soothing elixirs palliate, Ayer's Cherry Pectoral heals. It is not a cheap cough syrup, which soothes but does not strengthen; it is a physician's cough remedy, and it cures. It is put up in large bottles, only, for household use. It was awarded the medal at the World's Fair of ninety-three.

It has a record of 50 Years of Cures.

EARLY morning marriages seem to be quite the fashion. Yesterday Rev. J. F. Betts was called upon to officiate at a ceremony of this character, the principals in which were Mr. G. W. Barlow, of Nanaimo, and Miss Nellie Rudge, a daughter of Henry Rudge, of the Haddaughter of Henry Rudge, of the land a dington Island stone quarries, and a young lady possessing many friends in and about Victoria. rac in the city police court yesterday, and formally charged with stabbing and formally charged with stabbing with intent to do grievous bodily harm. The proceedings were of the briefest duration, Reda not being asked even for his ples, and a remand being ordered until next Tuesday forenoon. The victim of the affray now seems likely to disappoint the doctors and recover, in the face of their prediction that he could not possibly do so. When first taken to the hospital he was given less than twenty-four hours to live—yet he is still alive, and what is more, reported to alive, and what is more, reported to show signs of continued improvement.

MR. ROBT. HUTCHISON, who about four or five months ago commenced the con-struction of a Roentgen ray machine for Dr. Ernest Hall, has now perfected the plant and has had several very successful experiments, having obtained five good negatives of internal views of the body. The machine would have been ready for use long ago had Mr. Hutchison been able to secure a proper Grook's son been able to secure a proper Crook's tube, and as this was an essential for the production of the X rays, the delay was in consequence very vexatious, four or five tubes having been obtained before one was procured answerable. The tube now on hand is of the most modern kind, being of a double focus adjustable vacuum. To it the current is applied, the pressure being raised from 52 volts to 350,000 by means of the induction apparatus, an invention of Tesla. Mr. Hutchison proposes a public exhibition during the latter part of next week, and will then produce one of Tesla's high requency eclectrical experiments.

### DR. J. COLLIS BROWNE'S CHLORODYNE.

Vice Chancellor Sir W. PAGE WOOD stated publicly in court that Dr. J. Collis Browns was undoubtedly the inventor of Chlorodyne, that the whole story of the defendant Freeman was literally untrue, and he regretted to say that it had been sworn to.—Times, July 13, 1864. DR. J. COLLIS BROWNE'S CHLORODYNE IS THE BEST AND MOST CERTAIN REMEDY IN COUGHS, COLDS, ASTHMA, CONSUMPTION, NEURALGIA. BHEUMATISM, &C.

DR. J. COLLIS BROWNE'S CHLORODYNE is prescribed by scores of orthodox practitioners. Of course it would not be thus singularly popular did it not "supply a want and dill a place,"—Medical Times January 12,1885.
