SUPPOSE WE MAKE ?

A great lot of talk about middlemen's profits leads us to say this to you—

It has always been and always will be our policy to maintain prices that will give every customer the benefit of our low cost of running this store. The more we sell, the lower cost per piece. Hence the lower price to you.

A small fixed margin above operating expenses goes into our profit, but that margin is small. We try always to keep a class of goods worthy of your confidence and to sell them at a price that merits that confidence.

Please come in,—examine our stock,—compare our prices.
