PAINS SO BAD
STAYED IN BED

Young Mrs. Beecroft Had
Miserable Time Until She
Took Lydia E. Pinkham's
Vegetable Compound.

Hamilton, Ont.—"I have suffered for
three years from a female trouble and
consequent weakness, pain and irregu-
larity which kept me in bed four or five
days each month. I nearly went crazy
with pain in my back, and for about a
week at a time I could not do my work.
I saw Lydia E. Pinkham's Vegetable
Compound advertised in the Hamilton
Spectator and I took it. Now I have no
pain and am quite regular unless I over-
work or stay on my feet from early
morning until late at night. I keep
house and do all my own work without
any trouble. I have recommended the
Compound to several friends."—Mrs.
Emily Beecroft, 289 Victoria Ave., N.
Hamilton, Ontario.

For forty years women have been
telling how Lydia E. Pinkham's Vege-
table Compound has restored their
health when suffering with female ills.
This accounts for the enormous demand
for it from coast to coast. If you are
troubled with any ailment peculiar to
women why don't you try Lydia E.
Pinkham's Vegetable Compound? It is
made from native roots and herbs and
contains no narcotics or harmful drugs.
For special advice women are asked to
write the Lydia E. Pinkham Medicine
Co., Lynn, Mass. The result of forty
years experience is at your service.

GAME PRESERVE
IN CANAAN COUNTRY

Movement on Foot to Increase
Supply of Deer and Moose—
Game Wardens Active.

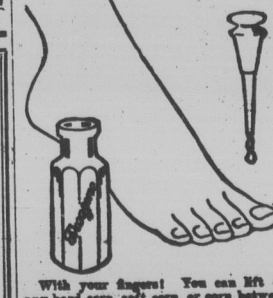

Moncton, Jan. 14.—A movement is
on foot in this section of the province
for the establishment of a game pre-
serve particularly for the preservation
of deer and moose. The land sug-
gested for the preserve is a wild
territory extending north of Nerves
Brook to Canaan Station, to the origi-
nal intercolonial railway line on the
east side and the Canaan River on the
west. The area would be about one
hundred and fifty square miles admi-
rably suited, it is said, to the propa-
gation of game animals.
Petitions asking the government to
close this block of land to all settle-
ment and to place in it an adequate
staff of wardens to protect the deer
and moose, are in circulation and have
been widely signed. The overflow
from the preserve would make game
animals more numerous in the prov-
ince, it is argued.

A considerable revenue flows into
the coffers of New Brunswick each
year because of the "good hunting" in
her forests. In the season just over
1275 moose were slaughtered in the
province. This was about 125 less
than in 1919. In 1920, 2,450 deer
were killed, about the same number as
in the previous season.

The game wardens have of late been
very active, and there have been a
large number of prosecutions for vio-
lation of the law.

Lift off Corns!

Doesn't hurt a bit and Picozox
costs only a few cents.

With your fingers! You can lift off
any hard corn, soft corn, or corn between
the toes, and the hard skin calluses from
bottom of foot.
A May bottle of "Picozox" costs little
at any drug store, supply a few drops
under the corn or callus. Instantly it
dissolves, then shortly you lift that
annoying corn or callus right off, red
and all, without one bit of pain or com-
plaint. Truly! No humbug!

RESCUING A
DYING RACE

Good News About the Bison—
Canada Stops the
Slaughter.

It has just been announced by the
Canadian Government that there are
now in Canada over five thousand
head of bison.

This is a wonderful piece of news.
For it means that an interesting and
useful animal which, owing to wanton
slaughter, was on the point of extinc-
tion, is once more multiplying and be-
coming one of the world's important
animals.

Half a century ago millions of bison
roamed the great prairies of North
America. One herd alone was esti-
mated to contain as many as four million
animals, and to cover an area on the
plains equal to over twelve hundred
square miles.

It might well have seemed impos-
sible then that such vast herds could
ever be exterminated. But without le-
gal restraints there is no limit to the
wifil and wanton waste of wild life
that men will bring about.

In an English Rose Garden.

A million and a half were butchered
to feed the builders of railways, and so
vast were the stocks of bison left lying
about on the plains that for years
the Indians made a living by collecting
the bones and selling them for arti-
ficial manure. Many an English rose gar-
den owed its beauty in past days to the
pulverised bones of the one-time
monarch of the prairies.

The world's stock of bison was re-
duced to a few score pairs, and it
seemed that by the nineteenth century
the creature would be as extinct as
the dodo.

Then men of science and lovers of
Nature pleaded for the poor bison, and
the governments of Canada and the
United States were persuaded to pro-
tect the creature and prevent its utter
extinction.

Herd Of Five Thousand. . . .
They set aside large national parks
in which they placed a few animals,
leaving them free to live their natural
lives and multiply unaided. Canada
built a great fence 206 miles long to en-
close the precious animals. The hundred
bison existed in these preserves, while
a few were kept in parks in other
parts of the world.

Every encouragement was given to
the animals, and while ten years ago
the Canadian herd amounted to only
700 it now numbers over 5,000. Per-
haps the best assurance that the ani-
mal will be allowed to go on multiplying
is the fact that though their preserva-
tion had its origin in sentiment it may
now be classed as a distinct financial
success. In other words, the Canadian
Government has proved that it pays to
protect the bison.

The authorities value the animals at
\$300.00 apiece or \$150,000 in all; but
this is a low estimate, for of the few
that have recently been killed the
mounted heads realise anything up to
\$100.00, the skins \$125.00 each, and
the horns \$20.00 each.

Experiments are being carried out
in the utilization of bison wool, and
though there are difficulties in manu-
facture, owing to the admixture of
coarse hair, it is believed that the wool
will prove a valuable product for car-
pet-making.

When one remembers that in a little
more than twenty years at the close of
the nineteenth century over fifteen
million bison were killed in North
America the wonder is that any should
be alive today to carry on their race.

The bison is an interesting and pic-
turesque creature, and, although so
fierce-looking, it is harmless. The
world would be the poorer if such an
animal were allowed to die out, and
the Canadian Government's splendid
example is well worthy of being fol-
lowed in other countries where rare
creatures are in danger.

Such animals as the bison are a part
of the nature resources of the country.
And, as President Roosevelt said not
long before he died "No generation has
the right to use more than the interest
of any natural resource. It is the duty
of a state to preserve the capital intact
for succeeding generations."

SOUR, ACID STOMACHS,
GASES OR INDIGESTION

"Pape's Diapysin" neutralizes ex-
cess acid in stomach, relieving
distress at once.

Time it! In five minutes all stom-
ach distress, due to acidity, will ge-
nerally disappear. Indigestion, heartburn, sourness
belching of gas or eructations of undi-
gested food, no distress, bloating, flatu-
lence or headache.
Pape's Diapysin is noted for its
speed in regulating upset stomachs.
It is the surest, quickest stomach sweet-
ener in the whole world, and besides it
is harmless. Put an end to stomach
distress at once by getting a large fifty-
cent case of Pape's Diapysin from any
drug store. You realize in five minutes
how needless it is to suffer from indi-
gestion, dyspepsia or any stomach dis-
order caused by fermentation due to
excessive acids in stomach.

Marquis & Company, Ltd.
BIG STOCK-TAKING SALE!
January 13th to January 20th.

WE start to take an inventory of our stock on January 20th and before
beginning we have decided that we will hold a big stock-taking reduc-
tion sale, at prices that will make the goods move and mean big savings to
the purchasers. Remember, these prices are good for one week only. No
samples—no goods on approval, and sold for cash only.

MARQUIS & COMPANY, LTD.

EXCESS PROFITS
TO BE PROBED

Senate Committee Calls for
Speedy Prosecution of
Fuel Profiters.

Washington, Jan. 7.—The Senate
Coal Committee to-day called upon the
Department of Justice to begin pro-
secution of coal profiteers, who, accord-
ing to Senator Kenyon of Iowa, have
overcharged the War Department \$5-
500,000 and "robbed the American
people of hundreds of millions of dol-
lars."

Announcement of the committee's
action was made in the Senate to-day
by Senator Calder of New York,
Chairman, in the course of a debate
in which Senators took turns denoun-
cing the coal men whose activities have
been brought to light in the pending
investigation.

Prosecutions at Once.

"We have sent information concern-
ing the recent revelation to the De-
partment of Justice and having sug-
gested that prosecutions be begun at
once," said Senator Calder. He add-
ed that the committee would move
within a week to lay measures before
the Senate to deal with the coal in-
quiry.

Debate over the coal question be-
gan when Senator Smoot of Utah re-
quested the committee to investigate
why anthracite coal is selling at \$15.80
a ton in the District of Columbia.
Senator Calder promised to turn the
committee's attention to this subject.

Excess Profit Paid.

Senator Kenyon gave a brief re-
sume of what the committee has un-
derstood about coal prices. He stated
that the War Department purchased

765,000 tons for current use for \$5-
447,000, and 150,000 tons additional
for average at \$1,305,000. He de-
clared the figures of the National Coal
Association showed the \$2.82 at the
mine was a fair price for coal during
the first nine months of 1920. Add-
ing 50 cents a ton as a fair profit for
the operator, he declared that \$3.32
would have been a reasonable average
price for coal at the mines. Calculat-
ing from this basis, he declared that
the War Department had paid in excess
profit \$3,600,000 on its coal purchases.

Hundreds of Millions.

"If the whole American people have
been robbed on coal as the Govern-
ment has been robbed the aggregate
of the robbery will run into the hun-
dreds of millions of dollars," said
Senator Kenyon.

WHEN YOU DECIDE
