ONE EVIDENCE of the backwardness of the eastern provinces is the continued existence of the legislative councils, notwithstanding that the experience of Ontario has demonstrated their uselessness. It is gratifying, however, to observe that the governments of Prince Edward Island and New Brunswick are conferring with a view to their abolition in those provinces.

THERE IS SOME DOUBT NOW whether Capt. Hooper, who recently took possession of Wrangell Land, in the Arctic ocean, on be-half of the United States, was justified in so doing. The Americans allege that the place does not belong to the Dominion, as the colors of the Dominion have never been raised upon the land. Whether the colors have or have not been raised we are unable to say; but if it be true, as is asserted, that philosophy is perfectly clear and accurate, the cashier's desk to tell the boss to look the beaver inhabiteth Wrangell Land, then by the gods we claim the territory. A Romantic Marriage in New York (From the New York World, Oct. 5.)

The rescue of a lady from drowning at Whitestone, L.I., on the evening of Au-gust 23, has just resulted in a marriage, the rescued lady being the bride, and her res-cuer the bridegroom. On the evening in question a number of ladies and children were in the summer-house at the end of Capt. Merritt's private wharf at Whitestone. In the party was Miss Louise Gra-ham, whose parents are old residents of the village. Through some unexpected accident she fell over the railing at the water end of
