DODGE PATENT SYSTEM

and are prepared to give estimates for transmissions of any capacity from 5 to 500 horse-power. The following is one of numerous letters after having used Pulleys three years:

The Dodge Wood Split Pulley Co., Toronto.
Dear Sirs—In reply to yours of the 8th inst., would say that we have now in use a considerable number of your Split Pulleys, and perhaps the best index of our opinion of them lies in the fact that since we got the first three on trial we have purchased no iron pulleys. We find we can run with much slacker belts, which is an advantage, and the saving of time when it is necessary to change a pulley is a considerable item in their favor. For our work generally they have proven very satisfactory.
Yours truly,
HAMILTON COTTON CO.

OFFICE OF THE PUBLIC ANALYST, MONTREAL, September 20, 1892.
To the Canada Sugar Refining Co's Montreal Gentlemen—I have personally taken samples from a large stock of your Granulated Sugar "REDPATH" brand, and carefully tested them by the Polariscopes, and I find these samples to be as near to absolute purity as can be obtained by any process of Sugar Refining. The test by the Polariscopes showed in yesterday's yield 99.99 per cent. of Pure Cane Sugar, which may be considered commercially as ABSOLUTELY PURE SUGAR.
