Advertising rates on application. NO. 25 YONGE-STREET, TORONTO.

The Golden Rule. If the Ontario Government are in the mind to adhere to their mining policy, it will be good business to devote any revenue arising from its royalties to the encouragement of developing the mineral resources of the Province.

While on this subject the inquiry may again be made, what is Toronto doing to secure a due share and part in the enterprises that are being sprung up in the region to the north of us as no distant day? The Board of Trade should set vigorously to work and discover in what way the city can put forth the best foot in securing a permanent hold on this region which is so naturally tributary to it.

Eminent Public Service. The Legislature will doubtless be asked to vote the additional sum contained in the supplementary estimate for Mr. Mowat.

The World has occasionally the unpleasant duty cast upon it of criticising the policy of the Provincial Government in having the people of Ontario. Indeed this province has been the scene of two such men as Oliver Mowat and William Ralph Meredith.

Not as Black as Painted. In the discussion of the Finance Act in Parliament on Monday last the chief objection to the act was the cost which is entailed on the country and on individuals interested in reviewing the act.

Each person entering the competition must enclose \$1 for a box of Egyptian matches. The Government is loath to order an amendment which looks like an admission that the cost is a stumbling block.

Conditions. The Bazaar will remove all frescoes, spot etc. and the editor a beautiful letter, has been in use among Egyptian women.

First Train on Record. Newspaper Men Who Know a Good Thing Give Their Opinion. The New York Central Railroad and the Wagner Palace Car Company have scored another great success by the magnificent tour of the International League of Press Clubs.

George H. Daniels, G.P.A., N.Y.C. and H.R.R., Grand Central Station, New York. In a convention assembled, direct us by unanimous vote to announce to you that we have been in the International League of Press Clubs.

Practical v. Formal Grammar. The Principals' Association of Ontario held its meeting last evening in the Y.M.C.A. building, Vice-president Bennett, Niagara-street School, in the chair.

Words of Wisdom to Willing Workers. At St. Luke's Church has evening a willing workers' special Lenten service was held, the sermon being preached by the Bishop of Algoma.

Yesterday afternoon the Jarvis-street Collegiate Institute Literary Society closed for the season with a well-attended program. Mr. Chase, the president, gave an excellent address in review of the year.

Cheap Food. Dyer's Improved Food for Infants is made from pure pound barley, is highly nutritious, and costs only 25 cents per pound.

CHAS. S. BOTSFORD 524 and 526 Queen-st. W.

As the warm weather begins to show itself so the style of dress changes to a certain extent. We have been selling large quantities of Tweed Goods; we are selling them yet and we expect to sell more of them, but at the same time purchasers are quietly casting their eyes to those light, soft goods, such as Crepons; these beautiful goods we have just received, covering pinks, blues, creams and all the pretty shades.

We have also received large quantities of new French delaines, they are from the best makers, the cloth is excellent, the designs are new, navy, brown and black; the printing on these goods is beautiful. We also received the second shipment of fine cashmere goods in all the new shades. We are selling quantities of velvet in the different colors now for trimming purposes; we have these in all shades, with a full range of prices. In our dressing department they are rushed to death and it is now getting to be a question of, "How soon can you make my dress?" Our dress makers are born artists; everybody cannot make a dress. We take the lead in this department.

CHOKERING NEW TORONTO

NEW TORONTO THE FACTORY AND RESIDENTIAL SUBURB OF THE QUEEN CITY.

Capital, Labor, Enterprise and Unity Bringing Forth Good Results.

The Future of New Toronto Assured. Meeting With Success Everywhere.

The Grand Trunk Railway to immediately commence the building of Passenger Station and Freight Shed and Sidings, with Full Suburban Service to and from the city.

The Toronto and Mimico Electric Railway and Light Co. have been sustained on all points in the Council, in the Courts and the Local House. Their road will be completed in time for the fall session.

The big Natural Gas discovery right at the factory will enable the manufacturers to make good cheaper than when coal gas is used. Pipes are being laid to connect the factories with the Gas Well. Other wells will be put down right away as soon as they are ready to be drilled.

There are now 8 large factories in operation, including the "Sawtooth Paper Company" and the "Drop Forge Company." All these works, and several others contemplated, are intending to increase the production of goods as fast as the accommodation can be had.

Fully 100 more dwellings could be erected as good rental and steady tenants during the year 1892.

The Dominion Government has recognized the name NEW TORONTO by giving that name to the New Postoffice, which is promised for early in April.

This is no paper town scheme, but a solid reality, which will be seen by visitors of the Long Branch or Hamilton Boats.

There are no other investments in New Toronto, as the natural increase will be better than any other investment, especially since the "many difficulties" of the city are being removed.
