A PALACE HOTEL PROJECTED.

In another column will be found the details of a project to build in Toronto the much-talked-of palace hotel. There is no one in Toronto that would not like to see the city equipped with such an hotel as the projectors have in view. A modern hotel is the one thing that Toronto to-day most stands in need of. This city is within three hours of the greatest centre of tourists on the continent. More people visit Niagara Falls and vicinity during the summer season than any other locality that we know of in the United States or in Canada. The one thing that would enable our city to attract its fair share of tourists who come this way is the possession of a hotel built and equipped according to modern hotel ideas. In addition to the large summer traffic along the Niagara River, we have a big stream of tourists passing our doors on their way to Montreal and the seashore, viz: Lake Ontario and the St. Lawrence River. The number of passengers by the lake boats increased wonderfully last year, and the prospects are so bright for the future that two new boats, we understand, are now under way to supply better accommodation to the traveling public. If we had the proper kind of a hotel here we would cause many of these people to stay in Toronto for a period, whereas under present conditions they neglect our city and spend there vacation in Montreal, where there is a hotel with a continental reputation. Even the ancient city of Quebec now possesses its modern hotel and profits greatly thereby. The time is ripe for the building in Toronto of a hotel that will eclipse even the Windsor of Montreal. Whether the plan that is proposed in another column is the proper one is a question that will soon be decided now that the projectors have made their prospectus public. They may rest assured of this fact, that they have the good will of the whole city. No class of the community can help but be benefited by the building of a grand hotel; but, whether it can be floated on the basis suggested is another question. It is worthy of the very best consideration.

THE DELINQUENT TAXES BEING PAID

The figures contained in the report of the Executive presented yesterday show that the City Treasurer was justified in ordering the tax sale which he did last fall. Quite a number of protests were entered on the ground that, as there was a large number of delinquent lots, and as real estate was depressed, it would not be wise to proclaim the fact by a tax sale. Had this advice been taken, the result would have been that next year a much larger list would have remained for publication and for outside comment. The Treasurer, however, took the bold course — advertised the delinquent lots—and as a result realized $80,000 of the $130,000 unpaid, and the balance of $50,000 will certainly come in at the adjourned sale next March. As the report says, in addition to the above, a large number of properties not yet liable for sale have been cleared off by parties interested, and that the receipts for arrears of taxes during the year aggregated the large sum of $176,000.

The sale was advertised and conducted in a public and yet economical manner, and no delinquent has reason to complain of his treatment by the Treasurer's Department.

THE FRENCH COMEDY.

We regret exceedingly that Edison has not yet completed his long distance Kinetoscope. We regret very much that the telephone is not yet perfected so as to convey speech across the Atlantic. Otherwise this continent, the whole world in fact, would have keenly enjoyed that comedy of comedies, the election of a French president. The outline pictures of the incident, as cabled by the correspondents, are good enough, so far as they go, but they are devoid of color and shading. They leave too much to the imagination. As a matter of fact it is impossible for the cleverest writer to weave his words so skilfully as to do justice to the dramatic incidents that occurred at Versailles on Thursday. What word painter, for instance, can infuse the coloring, the humor, the life into his description of the scene, when M. de Baudry D'Asson, the Legitimist, rushed up to the tribune, and, waving a document high in the air, raised his voice above the pandemoniac din that prevailed and moved "That the Monarchy be restored"? Or what writer can photograph the same irrepressible deputy as he leaves the tribune discomfited, his eyes bulging with excitement like those of a beetle, and shouts, "Vive le Roi!" with a rapidity and enthusiasm that reminds one of steam issuing from the safety-valve of an engine? This is just one incident out of a hundred equally dramatic and exciting. As Toussaint, a wild-eyed deputy, went up to deposit his vote in the urn, he was suddenly seized with one of those mercurial extravagances that characterize the Frenchman. The fit took him just as he was throwing in his ballot. He gained relief by shouting at the top of his voice, "Vive la revolution sociale!" He kept this up till he got on to the fact that no one heard him. Then he subsided.

Imagine the babel that reigned in the Chamber when the President arose to announce the result of the second ballot! It took five minutes before the deputies became aware of what he said. The President had lost all control over the assembly. He was like a rudderless ship in a gale. His hands trembled violently and in vain he invoked the deputies to respect the constitution. Then was it that the Socialists set off their most elaborate fireworks. Up and down the aisles they paraded, with arms aloft, howling, "Down with the thieves!" "Hurrah for the Social Republic!" and such like catch cries.

Monsieur the Duke of Orleans worked his racket on the outside, as he had no seat in the Chamber. He adopted the customary rule. He issued a manifesto. The task of the day said he, was to overcome immediate dangers; to-morrow would witness the re-establishment of Monarchy, the glory of the past.

The ghost of the "man on horseback" appeared in the Chamber just as shades of night were coming on. It appeared in the person of Monsieur Michelin, Boulangist, who, in a delirium of excitement, protested against the usurpation then going on. He ended his demonstration by casting a withering glance all round and screaming, "You are a parcel of usurpers."

A surprising feature of the election comedy was the absence of any Napoleonic demonstration; none such, at least, is reported. But we are told that Prince Victor Napoleon was at work on a manifesto the moment he heard of the late President's resignation. Orders were given to prevent its importation across the border, and at latest accounts it hadn't reached Paris. It is too bad Bonapartism didn't get a show. If we had had a hand in the deal we would have engaged the actor who played Napoleon here lately. Having secretly made a trap door in the Chamber of Deputies, at the proper moment we would have touched the spring and shot the Napoleonic mimic into the arena, making him strike one of Bonaparte's familiar attitudes. The Deputies would have quailed before the image of the great dictator. It only required some such coup as this to complete the comedy.

These Frenchmen are all right in some respects, but as parliamentarians they are infants, mere children. They don't know how to govern themselves. The best government for France is a dictatorship. No other form is possible among men who lose all idea of reason at the very time when reason is most of all required. France requires another Napoleon.

53 BURIALS AT BUTTE.

Another Canadian Supposed to Be Among the Dead.

Butte, Mont., Jan. 18.—The public funeral over the remains of the victims of Tuesday night's explosion took place today. It was a gloomy spectacle. All the hearses in town were engaged. The financial loss is smaller than was at first estimated, not reaching over $150,000. In all 53 bodies were laid away to-day.

To the list of missing the name of Charles Hoffbauer was to-day added. A few hours before the explosion he was up town and purchased a pair of shoes, and on his way home he stopped at the fire. One of the shoes, badly torn, has been found a mile from the scene of the explosion, but not a fragment of his body has been found. There is no doubt that many others were blown to atoms who will never be heard of. Among the debris was found a number of letters addressed to William Moffatt, 453 Tremont-street, Boston. The letters were from Canada and signed Ambrose Allen. It is supposed he is among the victims.

East York Reform Convention.

Editor World: At the Reform Convention yesterday Ald. Leslie (referring to the 1891 voters' lists) is reported to have said: "In St. Paul's and St. Matthew's Wards and Deer Park, there were 1500 rotten votes on the list." No one who knows how thoroughly the lists in East York were scrutinized will be deceived by such a reckless statement. I challenge Ald. Leslie to give any six names in St. Matthew's Ward which he claims were improperly placed on the list on the Conservative side. JOHN GREER.

After La Grippe.

After la Grippe obstinate coughs, lung trouble, etc., frequently follow. There is no remedy so prompt, and at the same time effectual and pleasant, as Milburn's Cod Liver Oil Emulsion with Wild Cherry and Hypophosphites, which is the latest and best combination of anti-consumptive remedies. Price 50c and $1 per bottle. 246

At the Pavilion Sunday.

The gospel temperance meeting of the Canadian Temperance League in the Pavilion on Sunday next will be addressed by Rev. W. F. Wilson, pastor of Trinity Methodist Church; Rev. Dr. Workman, Major Bennett of the Salvation Army and others. Interest will be given to the song service from the fact that Mrs. Juliette d'Ervieux Smith, one of the favorite soprano singers of the city, will render several sacred selections.

A great paper will be to-night's Toronto Sunday World.

No Doubt About It.

A Mimico, Ont., Man Speaks From Experience.

HIS SUFFERINGS, MISERY AND AGONIES ARE BANISHED.

He Says: 'Paine's Celery Compound Has Made Me a New Man.'

The strong testimony of men and women who have endured sufferings and agonies from disease for months and years, is always the means of rescuing and saving the lives of others who suffer and who have not found the true means of escape from death.

Mr. William Wilson of Mimico, Ont., desires to point every sufferer to that true life-giver, Paine's Celery Compound, the only medicine that can truly banish disease and suffering and give a new and happy life; he writes as follows:

"When heaven sends into the world an agency for banishing suffering, misery and disease, I think every afflicted human being should know of it.

"I thank God that in my time of pain and suffering my attention was directed to Paine's Celery Compound. For months I was in such a condition that I could not work. My trouble was pain between the shoulders and general weakness of body. I went to several doctors, but their medicines were used in vain.

"I continued in suffering and agony until I was recommended Paine's Celery Compound. The first two bottles I used worked wonderfully in relieving my pain, I gained strength and had an assurance of brighter days.

"I have continued with the marvelous medicine until the time of writing, and feel myself a new man. I can positively affirm that Paine's Celery Compound has been the means of saving me from being crippled in body. It is a medicine that I can honestly recommend to every sufferer, and I can never forget what it has done for me."

HOME FOR CONSUMPTIVES

SUGGESTION THAT THE GOVERNMENT ESTABLISH ONE.

Provincial Board of Health Reports on the Prevalence of Consumption—Toronto Not Recommended As the Site—Annual Report of the Association—Discussion on Anti-Toxine.

The Provincial Board of Health met again yesterday in the Parliament buildings. Dr. Covernton, Toronto, presided. There were also present: Drs. Cassidy, Toronto; Kitchen, St. George; Vance, Brockville; Rae, Oshawa; and Bryce, secretary.

The greater part of the morning session was occupied in the discussion of the reports on epidemics printed in yesterday's World.

Dr. Cassidy gave statistics of diphtheria outbreaks in many places besides those of Ontario. The results of the employment of anti-toxine, it was agreed, were not sufficiently tabulated to form any decided opinion of the value of the new curative. The board generally anticipated great advantage from its introduction in the cure of diphtheria.

How generally diffused is the infection of diphtheria in Ontario was shown in that during 1894 the disease was reported from 110 municipalities. In cities there had been 30 to 40 cases per month in the last quarter and in one of the towns with less than 10,000 population 25 cases in 13 days in the past month.

On motion of Dr. Bryce, seconded by Dr. Rae, the report was adopted. The laboratory report of Mr. Mackenzie was also adopted.

Endorsed Anti-Toxine.

Dr. Cassidy moved, seconded by Dr. Bryce, that having heard the reports of the services afforded by the use of anti-toxine, in both Europe and America, and in the Province of Ontario, the board express approval of this course of treatment, and that the secretary continue to supply the anti-toxine to physicians desirous of using it. The motion was carried.

A Home for Consumptives.

Dr. Bryce presented an interesting report on this subject. A committee of the board had for several years reported on the problem how to lessen the great death rate from tuberculosis in Ontario. At their last meeting they had proposed regulations, placing tuberculosis on the list of notificable diseases.

The more the problem is studied the greater the urgency seemed to be, for the establishment, as a corollary to such compulsory notification, of a home for consumptives on some inland and elevated tract of warm and dry soil, protected by an evergreen forest growth, and conducted under conditions which have been found most successful wherever such sanitaria have been established.

Such provision, it appeared to the committee, could only be provided in the near future by the matter being undertaken by the Government; and that thereafter when it had gained public recognition, the counties might be encouraged to establish, in favorable localities, homes modelled on that erected by the Government.

Partially Self-Sustaining.

Such a home would necessarily be something between a hospital and a sanitarium, the maintenance of which might be in considerable part by products of agricultural, horticultural and other industries, and by moneys received from paypatients of the better class.

The arguments for the establishment of such an institution were summed up as follows:

1. That in 1892 one patient of every 20 amongst the 11,008 inmates of the General Hospitals of the province had tuberculosis, while almost as many more suffered from acute bronchitis and pneumonia.

2. That the amount of Government aid to the hospitals in 1892 was $359, which if the number had been maintained for the whole year, would have amounted to $131,071.

3. That General Hospitals have not separate wards for consumptives.

4. That with 750 deaths in the 12 cities of the province during 1892 from tuberculosis, and probably as many more suffering from the disease, there is danger of spreading of the disease.

Proposals to establish a hospital for consumptives in Toronto have been made, but taken no definite shape.

The Objections to Toronto.

However valuable such an institution might be to Toronto, it would not fulfil the conditions which recommend themselves to the committee. Lakeside cities and rural municipalities bordering on the great lakes have an incidence of deaths from consumption notably greater than the inland and more elevated counties. Toronto ranks highest, then come Brantford, Ottawa, Guelph, Kingston, St. Catharines, Hamilton and Belleville.

The very best locality, from climatic and geographical standpoints, should be chosen for a provincial home.

Probably 5000 consumptives are living in the province. This would necessitate an institution no larger than one of the provincial institutions for the insane.

The committee believed the time had arrived when the demand for a home for consumptives had become general.

The report was adopted, and it was ordered that it be forwarded to the proper authorities for consideration.

The board meets again this morning.

"A Gaiety Girl."

The much-heralded musical comedy, "A Gaiety Girl," will be presented at the Grand Opera House next Monday evening and the entire week by Augustin Daly's superb company of European artists, numbering nearly 100 people. The whole production was brought from England in its entirety by Mr. Daly at an enormous expense—a piece of enterprise which certainly deserves the support of the theatre-going public.

Academy.

On Monday evening the Academy of Music will present to its patrons for a week's engagement one of the brightest vaudeville companies on the road. It is C. W. Williams' Comedians, which, for the past five years, have given general satisfaction to the public. Mlle. Agnes Charcot of Paris is the sensation of the combination. Her performance is a hypnotic one, and is declared to puzzle the medical men and scientists in general. There are quite a number of acts in addition to the entertainment given by Mlle. Charcot.

"Duffy's Blunders" Next Week.

"That Funny Little Man," as Barney Ferguson, the popular Irish eccentric comedian, is called all over the country, will be seen at the Toronto Opera House all next week in his brand new comedy, "Duffy's Blunders." Ever since the days when Barney and his partner Mack, under the title of Ferguson & Mack, convulsed audiences all over the world, the droll little man has held a firm position in the esteem of the fun-loving theatregoer. His methods are original, quaint and mirth-provoking, and in his peculiar line, although he has many imitators, he has no equals. When last seen here it was in "McCarthy's Mishaps," the play in which he made fame and fortune for five seasons. There will be the usual matinees Tuesday, Thursday and Saturday.

Ladies read Love and Marriage, by the late Robert Louis Stevenson, printed for the first time in Canada in The Toronto Sunday World.

MOST PRONOUNCED SYMPTOMS OF HEART DISEASE AND HOW TO SECURE RELIEF IN 30 MINUTES.

The most pronounced symptoms of heart disease are palpitation or fluttering of the heart, shortness of breath, weak or irregular pulse, smothering spells at night, making it necessary to sit up in bed to breathe, swelling of feet or ankles, say the most eminent authorities, is one of the surest signs of a diseased heart. Nightmare is a common symptom, spells of hunger or exhaustion. It is estimated that 60 per cent. of all cases of dropsy come from heart disease. The brain may be congested, causing headache, dizziness or vertigo. In short, whenever the heart flutters or tires out easily, aches or palpitates, it is diseased, and nothing will give such perfect relief or so speedily effect a cure as Dr. Agnew's Cure for the Heart. It has saved thousands of lives and yours may be counted among the number if its use is begun at once.

This remedy absolutely never fails to give perfect relief in 30 minutes, and is as harmless as the purest milk.

Away With the Idea That Kidney and Bladder Troubles Cannot Be Cured.

Relief Comes Within Six Hours to All Who Use South American Kidney Cure.

For three years I have suffered considerable pain and been much alarmed by what physicians called a complicated case of kidney and bladder disease, and spent over 100 dollars for treatment, but never received marked relief until I began the use of South American Kidney Cure. A few doses helped me wonderfully. I have now taken four bottles and consider myself completely cured. I feel that I cannot do less than to recommend it to others.

Signed D. J. LOCKE,
Sherbrooke, Que.

"I Took One Bottle of South American Rheumatic Cure and Obtained Perfect Relief."

This Remedy Gives Relief in a Few Hours and Usually Cures in 1 to 3 Days.

J. H. Garrett, a prominent politician of Liverpool, N.S., makes for the benefit of the public the following statement: I was greatly troubled with rheumatic pains for a number of years. On several occasions I could not walk, nor even put my feet to the floor. I tried everything and all local physicians, but my suffering continued. At last I was prevailed upon to try South American Rheumatic Cure. I obtained perfect relief before I had taken half a bottle of the remedy, and to-day regard it as the only radical cure for rheumatism.

ALL MEN

Young, old or middle-aged, who find themselves nervous, weak and exhausted, who are broken down from excess or overwork, resulting in many of the following symptoms: Mental depression, premature old age, loss of vitality, loss of memory, bad dreams, dimness of sight, palpitation of the heart, emissions, lack of energy, pain in the kidneys, headaches, pimples on the face and body, itching or peculiar sensation about the scrotum, wasting of the organs, dizziness, specks before the eyes, twitching of the muscles, eyelids and elsewhere, bashfulness, deposits in the urine, loss of will power, tenderness of the scalp and spine, weak and flabby muscles, desire to sleep, failure to be rested by sleep, constipation, dulness of hearing, loss of voice, desire for solitude, excitability of temper, sunken eyes, surrounded with LEADEN CIRCLES, oily looking skin, etc., are all symptoms of nervous debility that lead to insanity unless cured. The spring of vital force having lost its tension every function wanes in consequence. Those who through abuse committed in ignorance may be permanently cured. Send your address for book on diseases peculiar to man, sent free sealed. Address M. V. LUBON, 24 Macdonell-ave., Toronto, Ont., Canada.
