Rev Dr Buchanan a Presbyterian onary from Central India occu missionary from Central India occupied the pulpit in St. Andrew's church last evening and delivered a very interesting address. He holds that the secret of the strength of Britain in India is: Justice and that Canadian, American and European missionaries will never be able to convert India to Christianity; they may sow the seed, but the great work to be done will fall upon native Christians. To win the natives from their false faiths, theory is ineffectual: it must be by theory is ineffectual; it must be by practical Christianity. He concluded by saying: Practical Christianity re-futes all arguments.

Gold Ore Assay A NEWS-RECORD man called on Dr My ius to-day to ascertain the result of a test to which he had subjected a sample of the Germania Gold Mining Co's ore. An assay was made of a sample weighing half an ounce, and this yielded 14 gr of gold. This is wonderful, as a ton of ore, of the same quality as the sample, would yield fully \$1000. Even considering the fact that it is an exceptional fine quality of ore and from a favorable vein, the

result is amazing. Famine Relief Fund
