Meadowvale can now boast of having one of the finest country schoolhouses in the country, and it is also being furnished with all the modern school equipments. Our first teacher was Miss Hattie E. Slocomb, who taught during the first term under the new law and part of the following term, but was forced to give up the school on account of ill health. Miss Slocomb was a very carnest worker, and was much liked by all the scholars. She also took great interest in all good causes, forming a Mission Band during her stay here, and acting for some time as superintendent of the same. We are sorry to see that the latter has been allowed to be broken up, and we think that an effort should be made on the part of those interestical in such things to have it revived, as it is an order that is a credit to the community.
