TO ENCOURAGE SETTLERS

The Maritime Development and Colonization Association recently formed in Halifax takes a lead out of the book of the Western Colonization Association, and takes hold of Eastern problems from the right viewpoint. The East has suffered severely in the past from a general failure all round to advertise its resources, a failure to even have easy of access reliable and complete information as to what it had to offer prospective settlers. The slogan adopted by the new Association is "Selection, Direction and Protection", which covers a lot of ground. It makes known available properties suitable for immigrants and gives details concerning these so that the new-comer may be aided without loss of time in finding out just what is available and what is suitable to his needs. Protection is a clause also necessary for whenever there are properties for sale there will be some who are ready to take advantage of the stranger and lead at a good round price property very probably ill-adapted and not up to representation as to crops, productivity, etc. These projects outlined above are all good and will assist in building up the country. The prophet, however, has not yet arisen to tell how we may retain within the bounds of the Maritimes our own people who drift away by thousands to the United States, the larger proportion never to return except as occasional Summer visitors. The criticism along this line has been destructive and there has been no scarcity. The constructive criticism has been very largely lacking and most conspicuous by its absence.

If the Provinces would prosper one thing most essential is cheap and abundant power, for in no other way can our manufacturers hold their own against competitors who have this big asset. The sooner dreams of cheaper power are made living realities the better for the Provinces. A start has been made in certain parts and other parts will probably follow, but the example should not be followed in too leisurely a manner. Cheap power would make this valley a manufacturing area of no mean importance.

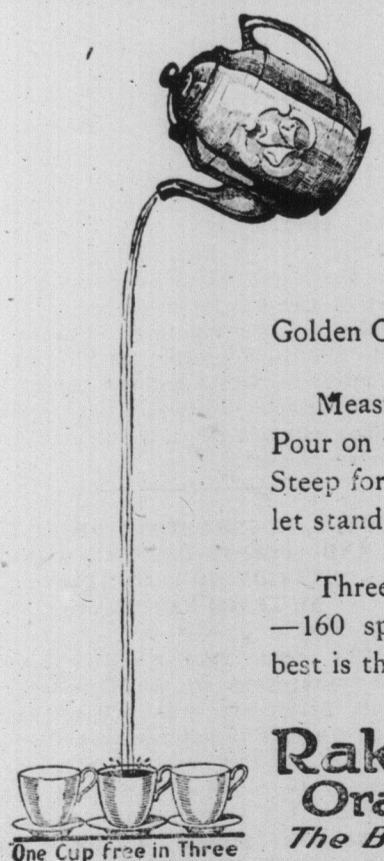

The above is one suggestion among a number of others which we shall be glad to refer to from time to time.

THE SHAKE-UP

Los Angeles Times: The Town of Klink, in the State of California, is having its name officially changed to Ivanhoe. Since prohibition set in there has been nothing to Klink.

UNIVERSAL APPEAL

Manchester Guardian: The whole earth visits the "movies" and pays for its entertainment, for they are the one way that has ever been discovered of bringing the drama of life, the stuff of comedy and tragedy that is of universal appeal, to the eyes of every man.

BACK TO THE LAND MOVEMENT

Maritime Development Association Plans to Bring Settlers to Provinces.

Col. Robert Innes, of Ottawa, formerly of Kentville, Director of Agriculture on the Soldiers' Settlement Board, was in Halifax over the week end. He had recently been attending a session of the executive of the Maritime Development and Colonization Association, of which he is Secretary, and which was held in Moncton on Thursday. This Association was formed in Halifax recently and is based on the same objects and principles as the Western Colonization Association, which receives substantial financial support from the Federal Government. The direct object of the Association is to promote and direct local and inter-Provincial colonization for the Maritime Provinces, and also to encourage by the most practical means the back to the land movement in these Provinces. To aid them in this they have a further object of co-ordinating their efforts with the Governments of the Provinces and the railways for land settlement in the Provinces. Their slogan is, "Selection, Direction and Protection," as applied to new settlers.

The Association's meeting last week was to prepare articles of incorporation. The Executive Committee consists of the following well known men of the three Provinces: A. E. MacLellan, of Kentville, chairman; Angus McLean, Bathurst, N. B.; E. A. Schofield, St. John; E. T. Higgs, and S. A. Pomeroy, Charlottetown; R. K. Smith, Amherst; F. G. J. Concan, Halifax; Lt.-Col. Innes, Kentville, Secretary. Among the objects of this Association as laid down in the form of incorporation under which they are seeking powers, are: To give advice and directions to settlers entering or now located in the Maritime Provinces, to carry on activities of Maritime development; to establish and support associations calculated to benefit settlers entering the Maritime Provinces, to procure information in regard to the natural resources and industries of the Maritime Provinces and to adopt such means of advertising as may seem expedient; to act as agents without remuneration for the listing sale, exchange or improvement of lands, natural resources, industries or any other enterprise in the Maritime Provinces.

Col. Innes has of late been residing on his farm in King's County, and directing the agricultural and scientific survey of which the Provincial Government, aided by Federal agencies, is having made of that County. Col. Innes left for Charlottetown, where the Federal Government directed him recently at the request of the Prince Edward Island Government, which is desirous of making a similar survey there as the Nova Scotia Government is now having made in several Counties of this Province.

CANADIAN MAY LOSE \$9,500,000
Nothing Left For The L. P. Steel Stockholders.

Toronto.—L. R. Steel stockholders in this city are to be told at a meeting next Thursday night that their stock certificates are worthless, says the Globe in a news page story. The newspaper continues: "They will get the news from their own Secretary, C. H. MacKenzie, who is just back from Buffalo, after battling in their interests. Mr. MacKenzie was called to Buffalo for consideration of an offer made by a group of capitalists in New York, known as the McKinnon Syndicate, who have bid \$1,600,000 for all the assets of the Steel enterprises in Canada and the United States.

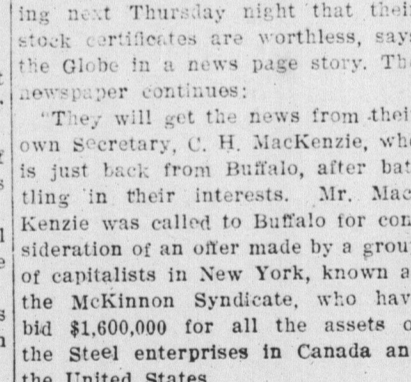

This sum is just enough to meet the claims of all the creditors, which means there will be nothing left for the stockholders who put \$23,000,000 into the enterprises, Canadians alone, invested \$9,500,000. The United States receivers will meet on Jan. 15th to give final consideration to the McKinnon offer, and unless there is something better before them by that time, the offer will be accepted, according to the news brought back by Mr. MacKenzie."

DIPHTHERIA MORTALITY DECREASED
Tiny Pump Removes The Dangerous Membrane And Gives Relief.

New York.—The lives in two local hospitals have been hundreds of little diphtheria patients saved by a new invention, a tiny electric suction pump that clears the throat of choking membrane and allows the patient to breathe. It was learned last week. The pump is the invention of the late Dr. Henry L. Lynch. Doctors at the Kingston avenue and Willard Parker hospitals credit it with reducing their diphtheria death rate from 33 per cent. to 10 per cent. After the diphtheria membrane has been removed by the pump, a silver tube is inserted in the throat through which the patient breathes until the crisis has been passed.

BEFORE AND AFTER
A vacation always looks better while you are waiting for it than it does when you are on it. Because, when you are on it, you can't help counting the days that will elapse before it is over. A vacation begins getting over just as soon as you start on it.

FIVE YEARS' AGONY ENDED

When He Took "Fruit-a-tives" For Rheumatism

The Medicine Made From Fruit "Fruit-a-tives" is the long sought remedy for Rheumatism and Lumbago. From all over Canada come letters testifying to this fact.

Mr. John E. Guilderson of Parrsboro, N.S. writes: "I suffered badly with Rheumatism for five years—tried different medicines—was treated by doctors in Amherst—and here at home—but the Rheumatism came back.

"In 1916, I saw an advertisement for 'Fruit-a-tives' and took a box and got relief, so I took them for about six months and the Rheumatism was all gone and I have never felt it since". 50c. a box, 6 for \$2.50, trial size 25c. At dealers or from Fruit-a-tives Limited, Ottawa, Ont.

C. S. BEALS AWARDED SCHOLARSHIP
Wolville.—The appointment of Carlyle Smith Beals to the Overseas Post-Graduate Scholarship of Nova Scotia, given by the War Memorial Department of the I.O.D.E., has been received with great satisfaction. Mr. Beals graduated from Acadia in 1919, took post-graduate work at Yale, and received his M.A. degree from Toronto University. He receives this honor because of the splendid war record of his family, as well as because of his fine academic qualifications and high standard of manhood. This gift entitles him to \$1,000 and the privilege of attending any European University he desires. Mr. Beals, who is at present teaching in a private school in Quebec, is a son of Rev. and Mrs. F. H. Beals, of Hantsport.

ITALY OWES NOTHING TO UNITED STATES
Views of an Italian Diplomat and Financier.

Victoria, B.C.—The policy of the United States toward Europe must change, said Commander L. Scelsi, Milan, Italy, Honorary Plenipotentiary of the Italian Government and President of the Sino Italian Bank of Shanghai, who sailed for China on the Canadian Pacific S. S. Empress of Asia.

"Hardheaded business men of the United States know that the war debts of the Allies should be cancelled," continued this Italian diplomat and financier. "Italy owes nothing to the United States and it is unreasonable that the latter should demand payment of debts from those very countries on whom they depend as a market for their goods."

While in New York, Commander Scelsi had access to United States Government figures and stated that the wheat administration alone had closed its books with a surplus of \$58,000,000. When the Treaty of Versailles was signed Commander Scelsi was Director-General of Political Affairs at the Foreign Office in Rome. From 1907 until 1911 he was General Italian Consul at Montreal and with the Hon. W. S. Fielding signed the first commercial treaty between Canada and Italy.

The electrification of a large portion of Japanese Government Railways, although considerably delayed by the recent earthquake, will be realized within the next two years, according to G. Murakami, who is returning to Japan to assume the office of general traffic manager of these lines. He has spent the past eighteen months in America and Europe studying railroad methods. There are already 60 miles of electrified railways in and around Tokyo, Mr. Murakami said.

NEW MATRON AT SOLDIERS' HOSPITAL
Middleton.—Miss Elsie E. A. Wood, of Middleton, has assumed charge of the Soldiers' Memorial Hospital as Matron. Miss Wood is a registered nurse of Quebec, and a graduate of Montreal General Hospital, which is affiliated with the Children's Memorial, Montreal Maternity, and Alexander Infection Hospitals of the same city. After graduation she served two years on the staff of the Children's Memorial Hospital, and since that time has been doing private nursing.

As night nurse, is Miss C. L. Smith, a graduate of Victoria General Hospital, and a registered nurse of Nova Scotia. Miss Smith has also had considerable nursing experience on the staffs of Berwick Memorial Hospital and the Provincial Sanatorium.

SCHR. BLUENOSE IS PITT TP FOR SALE
Wrangling Among Owners Over Fishing Race Is Thought Cause.

Halifax, N. S.—Tenders for the sale of the schooner Bluenose, fastest of fishermen, will be called for, following a decision reached at a meeting of the shareholders of the vessel held at Lunenburg over the week end.

LOOKING AHEAD
A very large measure of success is entirely possible to every young person who begins early enough in life to do the kind of thinking and the kind of work that lead upward. Let us help you on the way.

IRISH FARMERS DROWN PIGS USELESS BECAUSE OF LONG BACON STRIKE
Dublin.—Farmers in County Donegal are drowning their young pigs because the price they bring in the markets is so low that it is unprofitable to raise them. It is not an unusual sight, after a county fair, to see a farmer open his cart and let a litter of young pigs out on the road for anyone to take them. This condition is attributed to an 11 weeks strike in the Irish bacon industry.

ANAPOLIS

Local sportsmen are finding rabbits more plentiful than for many years past, and large bags are being brought out daily, as the mild weather tempts many hunting parties to the woods.

Mrs. W. C. MacPherson, who is the only woman member in Annapolis Co. of the Canadian Forestry Association, has been appointed to give a series of lectures through the County on various questions of forestry. She has already spoken at Lequille and at the High School here, and was listened to with keen interest as she described the growth of the forest trees and to devastating results of carelessness regarding fire.

Mrs. J. Herbert Runciman has partially recovered from her recent illness, and, with her daughter, Miss Marjorie, who was also a patient at the hospital in Halifax, returned home on Monday.

L. M. Fortier, Honorary Superintendent of Port Anne Park, who has been spending a month in Halifax, returned on Saturday.

Mr. and Mrs. Robert Sproutie, with their little son, returned Wednesday to their home in Wellesley Hills, Mass.

Mr. and Mrs. George Barnham and children arrived Wednesday and are guests at the Queen Hotel, while their residence on St. George Street, which they have not occupied since the summer of 1922, is being renovated.

Mrs. Kenneth Pinedo, of Kentville, arrived to visit her mother, Mrs. Roach, accompanied by her little daughter.

A. M. King has been spending a few days in Halifax.

William Spruatt, of Haverhill, Mass., arrived Wednesday to visit his sister, Mrs. Edgar McCormick, and other relatives in the vicinity.

Captain Angus Walters, in his capacity of managing owner was also instructed to keep the shareholders advised regarding any legal action he contemplated looking to the return of the international trophy, not awarded this year owing to the failure of Walters and his crew to abide by the decision of the sailing committee. The decision to sell the Bluenose had grown out, it is believed, of the wrangling.
