

Items of Interest

Mr. F. L. Dery, D.F.I. at Montreal, reports the sale of over 2,000 bbls. of apples on Sept. 14, for domestic use in Montreal.

Mr. W. T. Ross, of Picton, Ont., had sweet potatoes for breakfast one morning recently. They were grown in his own garden and he pronounces them of good quality. Mr. Ross, an enthusiastic amateur gardener, usually brings to perfection anything that he undertakes.

About the middle of September, THE HORTICULTURIST received from Brown Brothers' Nurseries a small branch of an althea on which were flowers of two distinct colors. Most of the flowers were white. In the midst of them was one of a dark purple shade. The occurrence is unusual and interesting.

The 1907 New Model Little Giant Sprayer has all the improvements we think possible in a capable sprayer machine for apple orchard, small fruit, grape vine and peach work. It has an auxiliary air pump attachment which continually keeps the pressure so that in spraying large apple trees, the corners of 4 large trees may be sprayed while the vehicle is stationary. Another

improvement is an automatic agitator which operates simultaneously with the walking beam of the pump. As this beam goes up and down, the liquid in the tank is continually being agitated, thus keeping it thoroughly stirred and properly mixed. The Little Giant Sprayer Mfg. Co. have also a new design in nozzles, which answers the purpose in every way for all tree work. The hose they will use on the machine is 5-ply pneumatic steel rubber tubing, guaranteed

not to burst or leak. At the Toronto Exhibition they had wonderful success with their new machine, having taken orders for 30. They expect also to display this machine at the Ontario Hort. Exhibition and Honey Show in Toronto, Nov. 6-10.

enables you to hand-pick all the apples on the tree. Its extension feature permits it to run through the tree—not only to rest on the outside. Good for every purpose about a farm that a ladder is used for.

Very light and absolutely safe.
