

MANY thousands fully believe they or their friends are being hurried to the grave by that terrible disease, Consumption, and are being treated for that disease when they have only CATARRH in some of its many forms. We do not claim to cure Consumption, but fully believe from the results of our daily practice that we can save many who feel their cases hopeless.

DANGER SIGNALS!

Have you a cold in the head that does not get better? Have you an excessive secretion of mucus or matter in the nasal passages, which must either be blown from the nose, or drop back behind the palate, or hawked or sniffed backward to the throat? Are you troubled by hawking, spitting, weak and inflamed eyes, frequent soreness of the throat, ringing or roaring or other noises in the ears, more or less impairment of the hearing, loss of smell, memory you a pain in the chest, lungs, or bowels? Have you a hacking cough? Have you lost all sense of smell? Have you a complaint? Is your breath foul? If so, YOU HAVE CATARRH. Some have all these symptoms, others only a part. The leading symptom of ordinary cases of Catarrh is increased secretion of mucus of yellow or greenish colored matter,

CATARRH IS A DANGEROUS DISEASE,

and should not be trifled with; care should be taken to look for the first indications, and cure them promptly. If your case is a bad one, affecting the Throat and Bronchial tubes, producing tickling, coughing, and an almost constant effort to clear the passages, with tough, vile phlegm in the glottis on getting up in the morning, which is hard to eject, and other plain symptoms that the disease is stealing into the lungs, it should be attended to promptly and thoroughly.

DO NOT PROCRASTINATE.

Thousands of sufferers have applied to me for relief. Many thousands more are waiting, fearful it would be an experiment that would only end in failure. Do not trifle away your opportunity. You may be sure that Catarrh takes no backward step. Your case may be daily growing beyond the reach of human aid. The statements of others who have found Child's Catarrh Specific the only sure cure should have weight, and convince you of the hopefulness of your own case.

We deem it only fair that every one that wishes should have the opportunity to ascertain whether we are able to accomplish all we claim; for this purpose we add a few letters from our daily mail. Almost any of the writers will, doubtless, respond to any inquiry by letter, if accompanied by a stamp to pay postage.
