

health of Count Carti, congratulating him upon the happy and successful termination of the arduous labors of the Commission. The Count responded in a strain equally cheerful, and in conclusion proposed the health of the Queen of England and of the President of the United States. Thus ends the labors of the Mixed Claims Commission, whose trunks are packed and awaiting the arrival of the steamer for New York.

RIFLE COMPETITION.

VICTORIA, BRITISH COLUMBIA—RIFLE MATCH—NAVAL OFFICERS versus VOLUNTEERS.

A match between ten officers of H.M.S. navy and ten men of the Victoria Volunteers was fired on Saturday at Clover Point butts—closing at five o'clock,—and witnessed by a few scores of persons from the overhanging bank. The shooting was poor on both sides, but that of the volunteers was markedly so; in fact, we do not remember worse shooting from their hands. It is accounted for, however, from non-practice on the side of the latter. For the return match, which is, we believe, shortly to come, the volunteers must waste some rounds, till they may become familiar with their former proficiency. We might say that the officers had an advantage in the weapons used; they fired with the Snider, whilst the volunteers used the old long Enfield. Ranges—200, 300, 400 and 600 yards. Five rounds at each range gave the following scores:—
