METABOLIZED

TASTELESS

PLAIN, Also
WITH ANTISEPTICS
(CREOSOTE & GUAIACOL)

WATERBURY CHEMICAL CO. OF DES MOINES, IA.

Fully Endorsed by the Medical Profession

PURE

Glaxo

PURE

A Modified, Standardized Dessicated Milk, with added cream and lactose. It contains all the solids of milk in a sterile, soluble form and is of the highest nutritive value.

The whole process of manufacture under the direct supervision of qualified inspectors. Contains NO starch, flour, malt or preservatives, yet will keep sweet and wholesome in THE HOTTEST WEATHER.

The GLAXO process causes the casein in this milk to undergo a physical change, which prevents it forming into a clot when acted upon by the gastric juice.

Over 25 % cream, Glaxo is the nearest approach to the NATURAL food of an infant that is possible to science.

Winnipeg Office: 285 SMITH STREET

From which address a sample will be sent to any doctor on application.
