BOVRIL

Made in England, from a formula similar to the original Fluid Beef, but from the finest beef extracts, extracted at the company's works in the Argentine Republic and Australia, is the most nourishing, palatable and stimulating Beef Preparation at present offered to the public. It builds up the system after severe illness and is relished and retained by invalids when all other foods are rejected. To the healthy it is a strengthening, stimulating and life-sustaining beverage.

The professional man, the financier, the business man, or the book-keeper, will find that a cup of BOVRIL taken immediately before retiring at night will produce a sound healthy night's sleep and a clear active brain for the following day's work.
