

are again weaker; granulated was lowered an eighth of a cent at the refineries on Saturday last, the quotation to the wholesale trade being now 6½c. Yellows have hardly weakened proportionately; nothing is to be had under 5½c., with no great range to select from, the factories have only three grades; bright yellows seem quite neglected. No syrups are turning out, and values are steadily held. Molasses seems in uncertain, unsettled shape, and difficult to quote; the consumption this winter and spring has not been as large as usual, and stocks are stated to be pretty large for the season; an auction sale of a considerable lot is advertised for Thursday. We quote Barbados nominally 40c. In teas there is nothing notably new; Japans hold their value steadily, and some further lots went hence to

New York last week; blacks and greens very quiet. Rice unchanged at \$3.70, mill price for car lots. Tobacco and spices just as they were. Canned goods still show a comparatively narrow movement, and prices are same as last quoted.

METALS AND HARDWARE.—In course of transmission over the wires our last week's report got badly jumbled, more particularly that portion relating to the duty on iron and iron piping, which should have read, "The duties on iron have not been changed. On wrought iron pipe up to two inches, the duty has been

bounced up to \$35 a ton, but the effect on prices is not yet patent; piping over two inches remains at old duty." Owing to the holidays there have been no cable quotations of warrants since last Thursday, but the general market in Britain is weaker, and hoops, bands, and sheets were cabled lower on Saturday. As regards local business there is a little more doing in small lots, but no large transactions can be reported, nor any ordering ahead of consequence, owing to the apprehension of further decline. We quote:—Coltress, none here; Calder, No. 1, \$26.00; Calder,
