CONFERENCE ON PACIFIC RIM BEEF EXPORT OPPORTUNITIES TO BE HELD IN CALGARY

International Trade Minister John C. Crosbie announced today that a two-day seminar on selling beef in the Pacific Rim markets, with special emphasis on Japan, will be held at the Calgary Convention Centre, March 29-30. The seminar is jointly sponsored by External Affairs and International Trade Canada (EAITC) and the Canada West Foundation. The conference is entitled "Beef Export Opportunities in the Pacific Rim: Competition, Constraints and Cooperation."

Mr. Crosbie announced Federal support for the conference under the Pacific 2000 trade initiative which is part of the government's Going Global market development policy established in October 1989.

Mr. Jack Shields, MP (Athabasca) and Parliamentary Secretary to Mr. Crosbie, will speak on the Minister's behalf at the Conference luncheon on March 29th.

"I am pleased to be announcing the Government's continuing contribution to the effort to secure better access to the Japanese market for Canadian meat products. It is reassuring to see that the process we began in Tokyo in November of this past year with the establishment of the Canadian Beef Export Federation's office, is being followed up," said Mr. Crosbie. "This sort of collective sharing of expertise is likely to be of great benefit to existing and would-be exporters to the Japanese market," added Crosbie.

In November of 1989 the export arm of the industry, the Canadian Beef Export Federation, established a high profile, promotional campaign in Japan in co-operation with EAITC, the Canadian Embassy in Tokyo and several provincial governments. The effort to increase Canadian beef exports to Japan includes an advertising campaign, beef seminars for importers, distributors and processors, and in-store promotions directed at Japanese consumers.
