

is building an addition and will put in several stove and clapboard machines. D. W. Clarke & Son, of Carleton, will add planing and dove-tailing machines. Carr & Shaw and Chase & Sons will build in and near Hartland, this winter, and H. H. Vesey & Son will put up a mill at the Thoroughfare, between North and Grand lakes, in the spring. I see it stated on good authority that fully fifteen mills have been built in the province during the past season.

The value of lumber exports from this port during November was \$66,772, as against \$123,143 for the same month last year.

The railroad boom in eastern and northern Maine causes a great demand for sleepers and the cedar business on the Miramichi will be a lively one this season. Ten cents are paid for sleepers delivered at the cars at the Northern & Western.

The recent heavy rains will cause severe loss to lumbermen who were operating at the headwaters of the St. John.

Carleton county operators write that they are unable to do much at present besides yarding the logs on account of the lack of snow.

Robert McElroy is to be numbered with the builders of new mills, he having erected a fine one at Kirkland.

There has been no change in prices during the month, though from time to time there has been talk of an advance. Wholesale prices are as follows:

Deals, Boards, Scantling, etc.			
Spruce deals	12 00	Pine	12 00
