corn and wheat to-day, closing weak to-night and considerably lower than Satur-day. As we have been telling you the

short interest has been eliminated and the public are carrying some oats. They received a shake-out to-day on the change for the better in the weather. We advise extreme caution in trading in oats now as the market will be extremely nervous. However, cash oats are still in good demand, and we believe will continue to be so until we get new arrivals. On any good break from this price will in our op'nion be the place to buy some September oats.

STRENGTH IN CANADIAN STOCKS.

World Office, Monday, June 18. The Canadian financial interests made a further display to-

day of their own ability to make a market aside from the sentiment of Wall-street. The N. Y. stock market continued the bear proposition it has shown itself to be for over two weeks, and dragged with a semblance of a rally early in the day to a very weak close. Almost what might be considered astonishing firmness pervaded the Toronto Exchange, altho dealings were necessarily curtailed. The only issue to sympathize with Wall-street was Twin City, and incidentally it might be mentioned that local interests are bearish on account of the new stock issue. The earnings for the first week of June were, however, large and show a good growing earning power for this proposition. Dominion Coal was bulled by the inside interests and stood up well against adverse market conditions. The strength displayed in the shares, with the accompanying gossip, implies that the attempt to advance the stock further has not been relinquished. The tenacity with which the Mackay common stock is held is somewhat of a surprise to the Mackay common stock is held is somewhat of a surprise to the street. Liquidation can only have been taken by the inside interests, and a later advance in the shares would be a usually natural result of this class of operations. The support in the B. C. Packers' shares drew into more prominence to-day. The common stock of this company has come into good enquiry, but there appears to be little for disposal short of 25. The preferred shares as a 7 per cent. dividend payer are selling lower than any other stock on the market and must secure a place much nearer par, unless there is something more radically wrong with the company than officers of the company are willing to give out. Washington, June 18.—The executive council of the American Federation of Labor convened here to-day for a several days' session. The meetings are executive.

President Gompers announced that the principal business at the morning session was the report of Secretary Morrison, who showed that on June 1 there was a total on hand of \$97,902.

The report also showed that on the report of t

Provides for Annual Appropriation ot \$3,000,000-No Court Review.

Washington, June 18 .- The basis of a complete agreement on the meat inspection legislation between President Roosevelt and the house committee on agriculture, was arrived at to-day at the White House.

Speaker Cannon represented the committee in this instance, and subsequently spent some time explaining the situation to the committee in its room at the capitol.

The bill was practically completed

when the committee adjourned to-day. It will authorize an annual appropriation of \$3,000,000 to ray the cost of inspection and will contain no provision for the levy of an assessment to make up any deficiency in the amount available for this work, as suggested by Mr. Cowan, representing the Texas catt. growers, and later urged by the president
