HOLD CITY LIABLE.

BRANTFORD, May 11.—Major Gordon Smith of the Brant Dragons has notified the city council that loss of military equipment stored in the old postoffice building and stolen from the same will be charged against the city. The building was bought by the city and the Government has refused to pay for it. The Brant Dragons and the battery have no place to which to move to.

WINDSOR WANTS TO HAVE STEAM AUXILIARY LOCATED IN THAT CITY

WINDSOR, May 11.—Hopes are entertained locally that the auxiliary steam plant for generation of electrical energy for the Ontario Hydro-Electric Commission will be located at Windsor. Sir Adam Beck, in a statement at Toronto today, declared he had four centres under consideration for the location of the plant, Hamilton, Toronto, Niagara Falls and Windsor. Owing to cheap rates for coal prevailing here, its ready accessibility by water, and the taking over of the local street railway system by the Hydro Commission and the need of additional power to operate it, Windsor is confident of securing the proposed plant.

HYDRO BYLAW APPROVED.

WINDSOR, May 11.—The ratepayers of the town by a vote of 19 to 9 on Monday expressed their approval of the hydro-electric power bylaw submitted to them.

Mothers' Day was observed in the local Methodist Sunday school Sunday afternoon, when a nicely-arranged program was presented by the scholars.

UNKNOWN DONOR GIVES \$500 TO WELFARE FUND

Industrial Plants Make Large Contributions—Amounts Today.

Five bank notes, each one hundred dollars in value, was the contribution made by an unknown man, asking that the amount be credited to the initials "C. D." for the United Welfare campaign this morning. The unknown donor of the \$500 walked into the office of the honorary treasurer of the fund, A. D. McLean, in the Bank of Commerce, and very casually laid down his donation.

Complete returns on the campaign are not yet available.

Additional subscriptions reported from various industrial plants today were:

Somerville Paper Box Company, employees	180.00
Lawson & Jones employees	50.00
Silverwoods, Ltd., employees	100.00
Conroy and Paton's Barrel Company employees	125.00
Richards-Hess Co. employees	250.00
Smallman & Ingram employees	554.00
McClary Mfg. Co. office staff	601.50
C. E. Hyman & Co. employees	1,200.25
Total subscriptions to date from employees of London industries	\$6,115.89
Total subscriptions to date from employees of public utilities, railways, etc.	1,680.00
Some additional subscriptions not yet published include:	
Gorman, Eckert & Co.	\$500.00
D. S. Perrin & Co.	500.00

TELLS FARMERS OF U. S. ABOUT POLITICAL WORK

Lambert and Canadians Discuss International Agriculture Board.

MEETING AT CHICAGO
CHICAGO, May 11.—Representatives of farmer organizations in Canada and the United States met here today to discuss the establishment of an international board of agriculture.

American farmers were represented by delegates from the National Board of Farm Organizations and Farmers Unions, affiliated with this organization. Canadians present were: R. W. E. Burnaby, Toronto, president of the Canadian Council of Agriculture; N. P. Lambert, Winnipeg, secretary of the council; J. J. Morrison, secretary of the United Farmers of Ontario; and G. F. Chipman, Winnipeg, editor of the Grain Growers Guide.

Mr. Lambert, who addressed the meeting, said that agriculture was completely organized in Canada, and exercised immense influence in Dominion politics.

Political Procedure.
"It has its own whip and its own methods of political procedure in the House of Commons, but is constituted along broad national lines," he said.

Milo D. Campbell of Coldwater, Mich., who was until recently president of the National Board, made a plea for better understanding between Canadian and citizens of the United States and between farmers, labor and capital.

"Why don't the farmers strike as labor has been striking?" Mr. Campbell asked. "Because the farmer has his piece of ground and has an interest in the general welfare of the country. It is not that he is at heart more patriotic than the industrial worker."

Give Laborer Interest.
"The thing which will solve the question of labor unrest will be to give the laborer an interest in his work, just as the farmer has."

He declared that the people of today would have to recognize the right of collective bargaining—whether that of the worker in his union, the farmer, or the collective bargaining of business.

The question of armament will be taken up by the military and naval arms of the Government.

It was also planned to establish a basis for co-operation between the urban consumer and the rural producer. Mr. Lambert said that in Canada this question was in many respects in a far way of solution.

The sessions will continue for three days and according to some of the leaders a selection of a candidate for the presidency may be made.

TO DISCUSS GAS PRICES.

INDIAN RIVER, May 11.—Mayor Henderson and the council have been appointed to attend a meeting at Brantford tomorrow, at which the proposed increase in the natural gas rate from 85¢ per thousand feet will be under discussion. The matter will be considered by representatives of Galt, Brantford, Paris, Woodstock and Ingersoll. If the sentiment is as keen as the other centres as here there will be a lively opposition to the proposed increase.

ORGANIZED STEEL MERGER

ST. THOMAS MAY HAVE HAMILTON COUNCIL INCURABLES' HOME, PROPOSAL OF B. OF H. FOR CHILD WELFARE

Such Cases At Present Sent To London For Treatment.

ST. THOMAS, May 11.—A movement for the erection or purchase of a building for the care of incurables considered by the board of health last evening. The board may possibly be asked to consider an annual allowance toward an establishment of the kind. The Hamilton Welfare Home, in London, where they are looked after mostly at the expense of St. Thomas, is thought that it is an institution of limited capacity would meet the present requirements and the cost to the city. A \$20,000 investment would be comparatively reasonable and in the end an economical investment for the taxpayers.

Dr. Curtis favored waiting until Amasa Wood Hospital was completed, as his patients with the exception of the incurables would be cared for in the new building.

A FORMER ST. THOMASITE.
One of the delegates to represent Canada at the financial congress in Brussels is James Henry Gundy, D.D., former pastor of Grace Methodist Church, St. Thomas. Mr. Gundy was treasurer of the St. Thomas branch of the former conducted a book store on Talbot street west.

Harold Winner, a late resident of Windsor, and Phineas Hale, an allied costs each this morning for an offence against the O. T. Winner on Kains street. A juv was found in the auto, but he did not climb the back of a building, where the officer held him up. Winner refused to say where the whiskey came from other than the "old friend" from London was taken again. The accused paid their fines without a murmur.

Mr. E. Gage, manager of the Royal Bank, Smithville, has been appointed to the agency of the retiring manager, G. N. Giddy, who is leaving for the west.

Mrs. John Acton, 32 Fifth avenue, in receipt of a silver cross from the militia department in memory of her late husband, Sergt. John Acton, 91st Battalion, who was killed in the battle of Hill 70, August 15, 1917.

Thrupp Sunday, usually the second Sunday in May, has been postponed for two weeks on account of the backward spring.

Mrs. (Judge) C. W. Colter is a sister of the late John Pollins, barrister, Toronto, who recently died in that city. Judge Colter left today to attend the funeral.

The Jewish war relief campaign was inaugurated last night by a meeting of philanthropic people. The objective is placed at \$8,000.

FARMERS OF SOUTH ELGIN INTERESTED IN TOBACCO INDUSTRY

Many New Fields Have Been Planted in Bayham Township.

ST. THOMAS, May 11.—Although the growth of tobacco was condemned recently by a minister in a speech at Fort Burwell, new fields for the cultivation of the weed are being prepared in the township of Aldborough. Western part of the county will show this season an increased area sown with the tobacco crop, and they are leased by parties outside the limits. In the spring operations and harvesting and the work from daylight until dark. Another batch of these industrious people have been called for by the tobacco growers, and they are leaving for Canada. Big profits came to the owners of small plots last fall, and the ground is being cleared and the tobacco is being planted in various parts of the township. The growth is being encouraged by the tobacco growers, and the crop shows up satisfactorily the area will be increased later.

RETAIL MERCHANTS DELAY DECISION AS TO EARLY CLOSING

Clerks Press For Answer By Next Monday Night.

ST. THOMAS, May 11.—The Retail Merchants' Association has postponed a settlement of the demand of the retail clerks and employees for an earlier closing hour, Saturday night, and the usual half-holiday on Wednesday afternoon during the summer season.

The association was to give a definite reply to the appeal of the clerks last night, but after a meeting of some hours the clerks were advised that as the gathering of merchants was not a representative of a delay of the decision was requested until next Monday evening.

The clerks in their request for an early closing hour were supported by a petition of 250 customers who were willing to co-operate in making effective a proposition to have all stores closed at 6 o'clock during the week-day evenings except Saturday, when the hour ought to be 9 o'clock.

A committee was appointed of the members of the association present to wait on those of the merchants who failed to put in an appearance to urge them to support the proposition. The association and have the early-hour question given a definite discussion and disposal.

DENTAL OFFICES PROVIDE THIEVES WITH HAUL OF GOLD

Three Galt Dentists Robbed on Sunday By Clever Crooks.

GALT, May 11.—Early Sunday night robbers entered three Main street dental offices by the aid of skeleton keys and carried off a haul of gold, silver, and jewelry. The police announced the robberies today, and state that they expect to arrest the thieves in the near future. The same parties who operated in Guelph Saturday night, two strangers, who had an automobile, were noticed coming down the stairway from one of the offices at 9:30 p.m. from one of the offices, the other two dentists losing \$12,000 worth of loot.

The annual North Dumfries school fair will be held at Sprague's Road on Sunday.

WINDSOR, May 11.—Erection of a modern M. C. A. building to serve the interests of the youth of the Border Cities is the objective determined upon as one concrete result of the Work Conference held in Windsor last week and which concluded its sessions yesterday.

The need of a M. C. A. in Windsor has been acute for some years. The needers for the laundry building and alterations to the nurses' cottage were opened a big increase in the cost was noted.

PROPOSE Y. M. C. A. FOR YOUTH OF THE BORDER

WINDSOR, May 11.—Erection of a modern M. C. A. building to serve the interests of the youth of the Border Cities is the objective determined upon as one concrete result of the Work Conference held in Windsor last week and which concluded its sessions yesterday.

The need of a M. C. A. in Windsor has been acute for some years. The needers for the laundry building and alterations to the nurses' cottage were opened a big increase in the cost was noted.

During the conference important aid in support of a campaign for a Y. M. C. A. were given by Taylor Station, M.C. secretary of the Y. M. C. A. of Windsor, Toronto, and Rev. C. W. Forman, of Toronto.

CAUSE OF FLAME UNKNOWN.

OWEN SOUND, May 11.—A fire which started in the store of John Thompson at 2 o'clock this afternoon caused \$1,000 worth of damage to the stock of wallpaper. Mr. Thompson was out at the time, and the first alarm was given by the fire department. When the fire was under control, it was found that the cause of the fire was not ascertained.

TEACHERS HAVE NO RESPECT FOR THEIR PEDAGOGICAL COURSE

Charge of Thomas Marshall in Ontario Legislature—Wants Better Training.

TORONTO, May 11.—Adequate training for Ontario school teachers was strongly advocated today by Thomas Marshall of Lincoln. Mr. Marshall compared the importance of the teaching profession with that of law and medicine and remarked upon the fact that under present systems only one year is required to train a teacher, while five years are necessary to qualify a doctor or lawyer. He was speaking in support of a resolution which favored a reorganization of the educational system of the province and for the co-operation of all classes in providing facilities for teacher training.

"On the efficiency of the teacher depends the efficiency of the system," said Mr. Marshall. "A high school teacher is not a man. A man comes a teacher by virtue of what he has learned in the school of professional pedagogy."

Requires Five Years.
"It required five years of professional training to equip a man as a doctor or lawyer. Four years of training is the minimum for the veterinarian surgeon, while one year's training is considered sufficient for a teacher, whose function is to train and direct the development of human minds."

"If it is a fact that it requires but one year to develop a teacher and five years to develop a lawyer or doctor, why all this ado about teachers' salaries? Are they not receiving already enough for members of a profession which requires such scant preparation?"

The brief period of professional training now demanded is all too short to shake popular belief that any man can become a teacher.

"If that belief is right, it is also right that teachers' salaries should be low. Any new job should draw only a low salary."

Importance of Training.
"But if the contrary is the case," continued Mr. Marshall, "the province of Ontario should be equipped with a system of teacher training which would measure up beside the other professions. To make the profession of teaching a career, it is necessary to realize the importance of special training."

"I have yet to meet," he said, "the first teacher who regards his or her pedagogical course with the slightest respect, or whose professional training has convinced him that there is even such a thing as a science of education."

Of the seven principals of Normal Schools in the province only two were certified to have received any special training. Of 99 members of Normal staffs only 12 had special scientific teacher training. None of 41 instructors in faculties of education had received any previous special training.

"Indeed it has been whispered," he said, "that some of these very applicants for an English teacher's position do not believe that such a thing as the science of education existed. They are being paid salaries for teaching something which they are absolutely ignorant. The ingrained belief that any man can be a teacher seems to be more than scoured by the department of education itself in making these appointments."

He recommended the establishment of at least three professional courses. One should be a one-year course, which should be the minimum required for public school teaching. The second a two-year course for high school teachers and principals of larger public schools. The third should be a four-year course which all high school principals and teachers in professional schools should be required to have taken.

The third should be a four-year course which all high school principals and teachers in professional schools should be required to have taken.
