

**FACTION WITHDRAWS
FROM KNOLLWOOD
PARK CONGREGATION**Letter Received by London
Presbytery.**ALL IS NOW SERENE**Church Will Continue Under
Guidance of Student-
Minister.

At the meeting session of the London Presbytery held in St. Andrew's Presbyterian Church, on Jan. 11, W. Crawford of Westminster, student minister, was elected to succeed Rev. J. Knox, who has held office for the past six months.

Following the installation of the new moderator, the remainder of the morning was spent in dealing with the Knollwood Park Church disaffection. At the last meeting a petition was brought in by one faction of the congregation, asking that the mission be given the status of an augmented charge, having and choosing its own minister.

The petition was not received by the Presbytery, as it had not passed through the hands of the session and board of managers of the church, and was sent back to the petitioners asking that they complete it by doing business in the regular way. A meeting of the congregation was called by the moderator, Rev. Fraser Cree, but the faction of the congregation that sent in the petition did not turn out, the meeting being attended only by those members and adherents who did not send in or sign the petition.

This morning the presbytery acknowledged the following letter, which was received by them from the faction sending in the petition:

"On behalf of the members and adherents who signed the Knollwood Park Church petition, we herewith wish to withdraw the same immediately, and we are pleading this support to another denomination in this field. This action is taken after careful consideration of the various incidents which have occurred in connection with the disaffection."

And Yet It Is the Same. He Was
Smoking With So Much Relish
After Dinner Last Night,
Of the Very Same Box, Too.

Every smoker has experienced this peculiar condition, the result usually of imperfect digestion of food, and the blame is rarely put where it belongs.

**HIS CIGAR DOESN'T
TASTE RIGHT**And Yet It Is the Same. He Was
Smoking With So Much Relish
After Dinner Last Night,
Of the Very Same Box, Too.

Every smoker has experienced this peculiar condition, the result usually of imperfect digestion of food, and the blame is rarely put where it belongs.

PEOPLE WANT

present site would be able to put up a presentable building, which would be increased in size as necessary. It could be built on all sides, where-possible to get light from the south and a little from the rear.

If a building was erected on the south side of the street, the departments could move in as soon as the building was ready. If they build on the present site, they would have to move into temporary quarters. That will be costly proceeding. One building they are erecting on the east side of the street, will require \$8,000 to install a system of water supply to the building. It will be necessary to erect a pump house as temporary quarters.

Such men are usually high livers, hard workers mentally, living under high pressure and high strain, and it doesn't take a great deal to disorder the stomach or render the liver torpid. They should make it a practice to use after meals Stuart's Dyspepsia Tablets, and thus avoid the sudden attacks of indigestion.

Brain workers will find Stuart's Dyspepsia Tablets a good investment. All druggists carry them in 60-cent boxes.

**An Unfailing Way
To Banish Hairs**(Beauty Notes.)
Ugly hairy growths can be removed in the privacy of your own home if you get a small original package of delatone cream into a paste of enough of the powder and water to cover the hairy surface. This should be left on the skin about 2 minutes, then removed and the hair washed and every trace of hair will have vanished. No harm or inconvenience can result from this treatment, but be sure you buy real delatone.—Adv.**DON'T THROW YOUR OLD CARPETS AWAY**No matter how old, how dirty, how dilapidated, tie a rope around them and send us to be made into

PARK RINK TONIGHT**Circular Track for Speed
Events at the Cove—
Ice Carnival.

Lovers of the great winter sport, skating, in the city of London, despite the probable shortness of the season, will yet have opportunities of enjoying this sport which have not been available for some time.

A decision, which will have considerable bearing on local improvement work here was that of the Provincial Legislature recently to pay for skating work when carried out in the vicinity of Provincial Government buildings. The point has been a disputed one for some time.

One case locally occurred in regard to the Institute of Public Health. The Provincial Government refused to pay for skating work when carried out in the vicinity of Western University. Now, however, they are willing to assume the responsibility. They will also bear their share of the cost of local improvement work on Dundas street, which has been planned for some time but held up because no agreement on the division of costs could be made between the city and the province.

**LONDON LOAN WILL
REMODEL PREMISES**Will Cost in Neighborhood of
\$14,000.
