WHEAT TOUCHES LOWEST LEVELS

Chicago Market Closes Heavy on Lack of Export Demand.

CROPS GROW BETTER

Only Manitoba Grain Finds Shipping Outlet at Scaboard.

CHICAGO, June 28.—Wheat drop-ped today to the lowest prices yet this season, going for the first time under \$1.00 a bushel. Enlarged crop estimates and the lack of export deestimates and the lack of export demand appeared to be chiefly responsible. The market closed heavy, 2 5-3 to 3 1-8c net lower, with July at 93 3-4c. and Sept. at \$1.02 3-4. Other leading stables too. all underwent a setback, corn 1 5-8 to 2 1-2, oats 5-8 to 1 1-12c. and provisions 12 1-2 to

of the wheat market thruout the session. The most acute weakness, howsion. The most acute weakness, how-ever, was shown in the last half of the day. This period was subsequent to the issuance of a comprehensive crop report by a leading expert, who represented that a notable improve-ment had taken place of late in con-ditions in the eight principal winter wheat states. Better weather for the a handicap to the bulls, and was inthe early declines in the market. In the final hour of wheat trading, the effect of the absence of shipping call, especially the dearth of any industry from Europe, because more and more apparent. The total shipping sales here amounted to only 1000 bushels. No export business, whatever, was noted barring 500,000 bushels at the seaboard, all from Manitoba. Coarse grains weakened with wheat Warmer temperatures in the corn belt brought about larger offerings belt brought about larger offerings from the country and more than offset the influence of a Liverpool upturn due to prospects of a removal of taxation of the alcohol industry in Argentina. In the cats market rust reports from Nebraska and Illinois attracted attention, but were ineffective to stop declines. Lower prices on hogs left provisions without support. Recent buyers of futures were the largest sellers.
