

Enemies of Tea

If tea is left open near oranges, soap, spices, matches, etc., the tea will take on the flavor of any of these articles.

In fact, tea absorbs odors as readily as does butter. This is because of the high temperature at which it is "fired" during the drying process, which makes the tea very sensitive. It thus quickly loses flavor and strength, and goes "flat" if left exposed to odors, dust or air.

To Protect the Consumer

When you buy a package of Red Rose Tea at your grocer's you get the benefit of the great care we take to protect the consumer, as the sealed package is an armor that keeps out odors, dust and air. It keeps the tea pure, clean, fresh and full strength.

The price printed on the package protects you against overcharge. It is the lowest price for which a tea of Red Rose quality can be sold—a price which allows the grocer only a fair profit.

You will enjoy the distinctive flavor, rich strength and splendid economy of Red Rose Tea. TRY A PACKAGE.

"THE FLAME" RETURNS. Richard Walton Tully has proved himself as adept at the writing and production of thrilling, colorful drama. This was proved when his latest work "The Flame" played here some time ago and for those who delight in thrills, the news will be very welcome that the piece is to come for another week to the Alexandra Theatre, beginning Monday, April 9.

"CHIN CHIN" NEXT WEEK. The coming to the Grand next week of Montgomery and Stone in their famous musical fantasy "Chin Chin" will be one of the most conspicuous theatrical events of the current season, and capacity audiences are assured of the entire engagement. CRITICISM

has been leveled by many at the provision made for convalescent soldiers. THE SUNDAY WORLD will next Sunday contain a pictorial and literary description of the Whitty Convalescent Home, formerly the Whitty Asylum. The superior accommodation afforded our convalescent heroes at Whitty will, in a large measure, make up for the disadvantages of being somewhat removed from the larger centres.

The home now consists of eight cottages, equipped with the most modern improvements, each cottage containing 64 beds. With the advent of summer this accommodation will be increased by the addition of a thousand tents, which will be located on the spacious grounds surrounding the cottages.

BE SURE AND OBTAIN A COPY OF NEXT WEEK'S TORONTO SUNDAY WORLD so that you can learn of at least one convalescent home that will afford satisfactory accommodation for the returned heroes.

LUNCH AND REST ROOM FOR WOMEN WORKERS

Will Open Cafeteria in Queen Street Presbyterian Church Basement.

A new cafeteria for munition workers will shortly be opened under the auspices of the Girls' Friendly Society. Arrangements for this new departure which is unique in situation, have been the record for quick business. Miss Nordheimer, who is always on the look out for free opportunities to help the girls, was much impressed with the lack of any canteen or lunch room in the vicinity of Carlaw avenue. Here in the new Wrigley Building are some 250 women munition workers. Miss Nordheimer decided that the basement of Queen Street, East Presbyterian Church, Carlaw avenue and Queen street, would make a good lunch room, and within two days the whole arrangements were made. The minister and elders of the church are so enthusiastic over the idea of helping in this way that they are lending the whole of the school building, for luncheon and rest rooms. Soup, tea, coffee, sandwiches, pie, etc., will be provided at the same rates which prevail in all other canteens, on cafeteria plan. As the factory hours are from 1 a.m. to 8 p.m., the lunch room will be open from 11 a.m. to 1 p.m.

Many ways it is anticipated that this outside cafeteria, which gives the workers an opportunity to get out in the fresh air for a few minutes, will be more popular with the girls than one right in the factory. It will be opened on Tuesday after Easter.

Be Careful What You Wash Your Hair With

Don't use prepared shampoos or anything else that contains too much alkali, for this is very injurious, as it dries the scalp and makes the hair brittle.

The best thing to use is just plain unperfumed coconut oil for it is pure and entirely greaseless. It's very cheap and beats anything else all to pieces. You can get this at any drug store, and a few ounces will last the whole family for months.

Simply matten the hair with water and rub it in; about a teaspoonful of this is required. It makes an abundance of rich, creamy lather, cleanses thoroughly and rinses out easily. The hair dries quickly and evenly, and is soft, fresh-looking, bright, fluffy, wavy and easy to handle. Besides, it loosens and takes out every particle of dust, dirt and dandruff.

A Single Application Will Banish Objectionable Hairs

Here is a home treatment for removing hairs that is quick, painless and inexpensive. With some powdered delatone and water make enough paste to thickly cover the objectionable hairs, apply and after two or three minutes rub off, wash the skin and it will be left soft, clear and hairless. This treatment will not mar the skin, but to avoid disappointment, be careful to get real delatone.
