MAYOR BEFRIENDS LETTER CARRIERS

"It reflects no credit upon the postoffice department that in a city like Toronto with the immense revenues accruing from receipts the letter carriers should in many cases be seen in the streets with summer uniforms covered only by winter overcoats."

MILES VOKES SAYS STATEMENT UNTRUE

Claims Dr. Bland Used Pulpit to Misrepresent Facts.

That Rev. Dr. Salem Bland had taken advantage of the pulpit to misrepresent a member of the board was the statement made by Miles Vokes yesterday.

The facts of the case are, according to Mr. Vokes as follows: In the early part of August, the finance committee found that there was not enough money to meet bills that required settlement.

A special meeting of the congregation was called, in which instruction from the quarterly and official boards was asked.

Mr. Vokes, who was then chairman of the committee, had occasion to make a trip to the west and he arranged with Charles Baker to go on a note for \$1000 at the bank, all of which was required to cover the financial matters of the church.

CLAIMS BOOK PRINT BRINGS HIGH PROFIT

Paper Controller Sees No Reason for Holding Further Investigation.

That the manufacturers' profits on book print have increased over 400 per cent was the statement made by Glyn Osler, counsel for Canadian publishers, before R. A. Fringle, K.C., paper controller, at a session held at parliament buildings yesterday.

The session resolved itself into an effort by Mr. Osler to have the investigation into the Toronto Paper Manufacturing Company reopened.

This Mr. Fringle refused to do, until further evidence of any advantage from such a course was shown.

His accounts, he stated, had reported that nothing would be gained in the book print situation by investigation into the Toronto Paper Company, which has ceased to manufacture paper.

"Like Lloyd George and Bonar Law," stated Mr. Fringle, "the government is anxious to terminate state control as soon as possible, and get back to normal. Were it not for the scarcity of news print which has resulted in a very critical situation for Canadian newspapers, I think this commission's work would already have been concluded."

The agricultural authorities are still on the track of the now despised scrub bull to which at least one monument has been erected.

The process of final elimination, however, appears to be a difficult one, and new steps are to be taken.

At the recent Guelph winter fair a conference was arranged between officials of the federal and provincial departments of agriculture and the Ontario Cattle Breeders' Association to mature plans for carrying out a scrub bull campaign.

A meeting was held at parliament buildings on Saturday afternoon and arrangements made for a campaign throughout the province, a special effort being made to concentrate in the counties of Lambton, Kentworth, Dufferin, Prince Edward and Grenville.

The agricultural representatives of these counties, together with the federal and provincial officials, are to meet in Toronto on Saturday next, when final arrangements will be made for the immediate launching of the campaign.

MAY BUY STOCK YARDS

Counsel is Preparing Report for Ontario Government.

A report being prepared for the Ontario government by J. S. Lundy, K.C., will, it is stated, recommend the purchase by the province of the Union Stock Yards at West Toronto, the question of price to be subsequently determined.

Mr. Lundy has delved into the ownership and history of the stock yards, and he will relate how the Swift people came into possession. His report will also deal with the formation of a packers' association, in which the U. F. O. is interested.

INDUSTRIAL ACCIDENTS DURING PAST YEAR

The amount of compensation and medical aid awarded under the Ontario workmen's compensation act during the year 1919 was \$4,057,696.62, as compared with \$3,883,994.84 during 1918, the total number of accidents reported was only 44,280 in 1919, as against 47,848 in 1918.

The number of fatal accidents during the first nine months of 1919 was less, but during the last three months the death toll in 1918, indicating recent increase in industrial activity.

LIQUOR INFLUX SMALL

Only One Carload Reached Toronto Yesterday, in Spite of Glowing Prophecies of Freshet.

Either the express-companies are in no hurry to deliver the liquor ordered from Montreal, following the termination of the ban on interprovincial traffic, or the quantity said to have been ordered by Ontario customers has been greatly exaggerated.

Less than five carloads of liquor brought from Montreal or delivered by Ontario distilleries in Toronto since New Year's.

Some rye whiskeys are being shipped to outside points by the Ontario distilleries, especially to the west. Present indications are that the volume of importations from Montreal in the next few weeks will be no greater than before the order-in-council was passed in 1917.

It is reported there is a scarcity of Scotch liquors in Montreal.

GIRL GUIDE ENTENTE

The hands-across friendship between the girl guides of Canada and the old land is seen by the cable from Lady Baden-Powell to Lady Pellatt, chief commissioner of the guides for Canada. The message runs: "The girl guides of the home country send their sisters overseas their best wishes for the new year."
