

Total receipts for the year \$155.98, expenses \$145.86.

Evangelistic work.—The usual devotional meeting was held the third Wednesday of each month. An evening meeting was held March 16th, when each member handed in the results of his or her self-denial for one month. The Golden League met fifty-one times during the year (Tuesday evenings). There are twenty-five members in the city and elsewhere, average attendance eleven. Those who leave the city are kept in touch with the League by correspondence. There have been nine addresses given on special subjects, besides the regular branches taken up by the workers.

Scientific Temperance.—Instruction in this subject has been given weekly during the school year to the girls and boys in Miss How's class, Elizabeth Street School. Written examinations were held at Christmas and Midsummer, the highest per cent taken at the former being ninety and at the latter ninety-four. Fifteen prizes were given; twelve of these were donated by Mr. J. L. Morrison. A pledge book circulated in the class received forty-eight signatures. One hundred and fifty juvenile papers were distributed. One new feature in this department of our work was the establishment of a library consisting of eighty-nine volumes, suitable for girl's and boy's reading, which library has proved a valuable agent in creating a taste for good reading and raising the moral tone of the class. The grateful thanks of the Union are due to the following friends who in addition to the members of the W.C.T.U. and Y.W.C.T.U. contributed volumes: Miss Workman, Mutual Street; Miss Richardson, Pembroke Street; Mrs. and the Misses Morrison, Winchester Street; Mrs. Carswell, Uxbridge; Masters Robert Cargell, Winchester Street; Walter Baillie, Wellesley Street; Norman Withrow and Percy Withrow, Wilton Crescent.

Press.—During the year eight locals have been sent to the daily papers and two letters to the Journal.

Lumberman's work.—The literature sent to the lumbermen this year was composed of six magazines, two scrap books and ninety-five papers.

Parlor Meetings.—A reception was tendered to the members of the "Y" bicycle club at which their colours were presented.

Flower Mission.—During the year the workers visited the General Hospital, Children's Hospital, Old Woman's Home, Home for Incurables, and an average of fifteen families a week in St John's Ward. They have distributed 4962 bunches flowers, 8½ dozen eggs, 7 dozen oranges, 497 glasses jelly, 22 large baskets fruit, 136 small baskets fruit, 4 plants, and at Christmas a barrel of holly with Christmas texts attached, and clothing to two families. Income from all sources during the year \$67.00.

Kitchen Garden.—Last year a class for learning the Kitchen Garden work was formed with Miss Johnston as instructor, and as a result, work under that department was carried on at the Girl's Home and was very successful; average number of teachers three.
