ENTIRE SPANISH CABINET RESIGNS

GREECE MUST PROSECUTE ASSASSINS

Otherwise Forfeit of Fifty Million Lire Will be Made to Italy.

TO RESUME PARLEY

Mussolini Anxious to Conclude Negotiations Regarding Fiume.

(Canadian Press Cable.) Paris, Sept. 14.—A statement issued by the Inter-Allied Council of Ambassadors today says that the Italian Government has decided to evacuate Corfu on Sept. 27, the date fixed by the Council for the conclusion of the Greek inquiry into the massacre of the Italian members of the Greco-Albanian boundary demarcation mission.

The international commission which will investigate the Janina murders will leave for Albania today under orders to conduct as vigorous an inquiry as possible.

Greece Will Act or Pay. The Council of Ambassadors is understood to have decided that if on Sept. 27, the day set for the evacuation of Corfu, the commission of inquiry thinks Greece has not done everything in her power to bring the assassins to justice, Italy shall receive the deposit of 50,000,000 lire made by Greece under the terms of settlement decided upon by the Council.

Mussolini's Plans. Paris, Sept. 14.—When Premier Mussolini declares the annexation of Fiume to Italy he will announce the withdrawal of the Italian troops from Porto Baross, the adjoining harbor. It is learned here from an authoritative source. He will then give up any claim to that port, to Sussak and to the Delta there, which will be left to Jugoslavia.

This, it is stated, is the result of direct negotiations now going on between Premier Mussolini and the Jugoslavia Government which are reported at about the point of completion, Jugoslavia being satisfied to have a fresh hand in the development of the ports left to it.

Premier Mussolini's declaration of the annexation of Fiume was fixed for tomorrow, the fifteenth, according to previous announcement, and it is reported also that the time limit expires on Mussolini's note to Jugoslavia which had been construed in some quarters as an ultimatum.

Settlement In Sight. The latest developments, both in Rome and Belgrade, appear to tend toward a settlement which will remove the Serbo-Italian crisis at one time threatening the breaking of relations and possible hostilities between the international field as the Greco-Italian situation appears to have been removed.

No Decision On Fiume. Belgrade, Sept. 14.—The Italian Charge d'Affaires here informed the Jugoslavia Government last night of Premier Mussolini's desire that direct negotiations between Rome and Belgrade regarding Fiume be resumed.

No decision has yet been reached here, but the resumption of negotiations on a fresh basis is considered possible.

His St. John friends are many and there will be very hearty greetings for him here.

Canada To Control World Wheat Market

Ottawa, Sept. 14.—Canada is in practical control of the world's wheat market for the next five months, according to a statement issued here today by P. K. Doherty, Canadian commissioner in the International Institute of Agriculture.

This statement is based upon the assumption that all optimistic news is exhausted, various adverse factors are to develop, the world's old stock of wheat is well cleaned up and that only 11,000,000 bushels are left from last year's crop here.

The railway company is neither hostile nor unsympathetic."

MacLACHLAN TELLS OF N.S. MINE STRIKE

Claims Walkout was Protest Against Use of Armed Forces.

APPEAL FOR FUNDS

Vancouver People Asked to Contribute to Blacklisted and Arrested Miners.

(Canadian Press.) Vancouver, B. C., Sept. 14.—Appealing to local working men and women for funds to assist the 900 Nova Scotia miners who were blacklisted as a result of the recent strike and the 200 men who are awaiting trial on addition and other charges, J. B. MacLachlan, former Cape Breton labor leader, gave his version of the facts of the Nova Scotia strike at a public meeting here last night.

Ascertaining that the strike had not been higher wages, or shorter hours, Mr. MacLachlan said the miners struck at a protest against the use of armed forces in industrial disputes. The miners had no compunction about breaking their contract, he said, because they considered the British Empire Steel Corporation had ignored the contract in reducing the pay for mining to thirteen cents a ton.

SO. AFRICA LABOR PARTY IS LOYAL

Opposed to Weakening of Empire Ties, Says Parliament Member. Bloemfontein, S. A., Sept. 14.—A striking reply to a recent pronouncement by the Nationalist leader, Tielman Roos, in favor of republicanism was made today by a Labor member of the South African Parliament, Barlow, at a meeting at which Boydell, a prominent labor leader, was present.

Barlow declared that the great majority of the members of the Labor Party were unreluctantly opposed to a weakening of the ties binding South Africa to Great Britain and the sister Dominions.

If the Nationalists wished to cooperate with the Labor Party at the next elections to overthrow the Government in accordance with the Kert-sog-Cresswell pact, Barlow said, they must unequivocally throw over their republican program. Labor considers that the present Government of General Smuts should be replaced but the Labor Party refused to attain that object at the price of weakening the ties which had made them masters in their own house and would enable them to carve out a splendid future.

Barlow concluded his address by demanding a plain answer from the Nationalists as to whether they were willing to abandon their advocacy of republic in South Africa and cooperate with the Labor Party.

Miss Hogan offered a plea of not guilty for her client, and Oct. 8 was the date set for the trial.

UNION OF MARITIME PROVINCES URGED

"Le Canada," Montreal, Believes Merger Would Cut Administrative Costs. Montreal, Sept. 14.—Le Canada, the French language newspaper of Montreal, once again urges that the Maritime Provinces unite for administrative purposes. The paper goes on to say:

"Periodically, the position the Maritime Provinces occupy in confederation comes up for public discussion. Their actual situation, it seems to us, is not one which can justify the least feeling of alarm. We, of course, all wish their progress was more considerable, but manifestly there is no ground for discouragement as to their future. In this relation we would once more venture to suggest that these provinces should, for political purposes, unite and make themselves one. This would obviously diminish considerably the cost of administration and adopt a more vigorous policy of development to be conducted in that part of Canadian territory which we would like to see enjoy a prosperity equal to that of any other part of the Dominion."

90,000 ARE EXPECTED AT N. Y. FIGHT

Majority of Experts of Opinion That Dempsey Will Floor Firpo \$1,000,000 GATE. New York, Sept. 14.—When Jack Dempsey, present holder of the heavy-weight championship, and Luis Angelo Firpo the scowling South American slinger step into a brilliantly lighted arena at the Polo Grounds at 9:30 p. m. tonight they will be watched by a crowd of more than 90,000 persons, some of whom have come all the way from Buenos Aires.

More than \$1,000,000 will have been collected by Tex Rickard, who has arranged the details for the struggle. Half of this amount will go to the fighters, 25 per cent to Dempsey and the remaining 15 per cent to Firpo. The rest goes to Mr. Rickard. Some of the spectators have paid \$7.50 for seats; others will pay \$5.00 when the gates are opened at 9:30 o'clock. Still others have paid \$1.00 to spectators. It was said.

The actual time Dempsey and Firpo will be fighting each other cannot be ascertained until the managers have scheduled the fight to run for three minutes each. Most enthusiasts predict that it will not last nearly that long. Indeed, some have predicted that there will be less than three minutes of fighting.

Most of the predictions of this sort come from those who think Dempsey will win. They are counting on a furious attack from the start with the result that Firpo will be knocked down during the first round and unable to rise before the count of ten. Many others think differently.

Few Back Firpo. Firpo faces his ordeal without the backing of the experts. Virtually all of them expect him to be floored by Dempsey.

In point of attendance the fight is expected to rival that of two years ago when Dempsey fought today temporarily to relieve the island Empire of payment of its dues as a member of the League and also of the expenses of affiliation with the International Labor Bureau and the Permanent Court of International Justice.

Champion Escapes Crowd. Jack Dempsey escaped from the curious stares of admirers who followed him around wherever he went in the Hotel Belmont, where he is staying last night. He sidled quietly to a back entrance and went to spend the night in the apartment of a friend.

After a good long sleep he got up this morning and went for a short walk through the park with Mike Trant, Chicago detective, and his bosom friend. The detective has been close to Dempsey during every one of his fights for several years.

Eight fans were today to find the fight leader with a late October chill. (Continued on page 2, seventh column.)

A nation-wide syndicate of bankers has been organized to assist the Government in rebuilding the devastated areas, and the Empire is asked to devote all surplus funds for this purpose.

The banking syndicate announces it will raise the additional money required for reconstruction by local and foreign loans.

The Bank of Japan, the insurance companies and the public have contributed 50,000,000 yen toward relief. Plans for feeding and housing refugees have been completed, and the Government and the people now are devoting all efforts to a great reconstruction campaign.

Corfuites Believe Saint Is Angry At Town Occupation

(Canadian Press Cable.) Corfu, Sept. 14.—Inhabitants of Corfu attribute another miracle to their revered St. Spiridon, whose body, entombed in the cathedral here, is exposed periodically at various religious functions and carried in procession through the town.

There is now a general belief among the common people that the saint has locked himself up in his casket because he is angered at the occupation of the town by the Italians.

Numerous pilgrimages visit the tomb daily and many flowers are placed upon it. An unusual religious fervor is manifested, crowds of Corfuites attending the daily services in the churches.
