

OFFERS TO MAKE
GARBAGE ODORLESS

Company Seeking Contract to
Dispose of New York's Re-
fuse Will Make a Test-
Use Cheese in Experiment.

New York, April 4.—Gathered about
a big can half filled with limburger
cheese, Mayor Hylan's committee on
garbage disposal is going to witness, in
a few days, the demonstration of a
scientific method of killing odors and
bacteria that, it is asserted, will solve
New York city's problem of getting rid
of its refuse.

At a meeting in Fire Chief Kenion's
office in the Municipal Building, the
committee agreed to attend the demon-
stration, the time and place to be set-
tled by Street Cleaning Commissioners
Taylor. The only stipulation imposed
was that it take place in the open air.

The test is to be made by the Odor-
less By-Products and Reduction Com-
pany, 220 Fifth Avenue, which recently
purchased Barren Island and the old
disposal plant there in an effort to per-
suade the city to contract with it for
the disposal of garbage. Otto B. Shul-
hof, president of the company, who is
chairman of Mayor Hylan's committee
on Recreation and on Recreation, urged
the merits of the plan at the meet-
ing. He was seconded by Professor
Maximilian Toch, treasurer of the com-
pany, who was formerly chief chemist at
the municipal disposal plant on Barren
Island and was appointed by President
Taft as one of the delegates to the Sec-
ond International Congress of Chemists.
For Chemists, Not Engineers.

"The whole trouble with the efforts to
solve the problem of garbage disposal in
this city," said Professor Toch, "is that
engineers have been employed where it
is purely a matter of chemistry. I pro-
pose to take a gallon can half full of
limburger cheese and deodorize and ster-
ilize the cheese in fifteen minutes. I
have no hesitation in offering a public
test of the process because patents have
been applied for."

Professor Toch told the committee
that his company would guarantee to
dispose of the garbage without offending
a single section of the city.

"We propose to have our barges, dif-
ferently constructed from those at pre-
sent, which were used by our grandfath-
er," he added. "Each barge will have
a dome-shaped, hinged top. The gar-
bage will be put inside on top of a mix-
ture of chemicals, cresol, formaldehyde,

chlorine, &c., which oxidize slowly and
kill putrefying odors.

"The barges will be towed to Barren
Island, where their cargoes will be placed
in auto-claves, great steel containers,
cooked under steam pressure at 265 de-
grees Fahrenheit to remove the grease.
The residue will be mixed with coal
and burned. The grease will be run
off and is concerned will be the same as
lighting a gas jet in the house. There
will be no unpleasant fumes."

Professor Toch said that at each dock
where the barges are brought up, there
would be an expert to handle the chem-
icals. This man, could wear a gas mask.
If the reaction of the chemicals bothered
him.

"How will your company make
money?" asked Health Commissioner
Copeland.

"We'll be paid by the city," said Pro-
fessor Toch, "and if we don't make a
living we will go the way of our pre-
decessors."

"That's just what we're afraid will
happen," said Dr. Copeland.

Professor Toch said that the grease
could be sold profitably but the residue
was worthless and would have to be
burned.

There was an amicable argument be-
tween the committee and Mr. Thibault
of the experiments the city is making on
Blackwell's Island with refuse disposal.
Major Roberts said that there had been
no odors from a vacuum process and
that it might be worth while to use it
for all the city's garbage.

"We may find," said Chief Kenion,
"that it will be feasible to establish dis-
posal plants in every section of the city
and burn the garbage where it is col-
lected. The rubbish can be used as fuel."

Both Professor Toch and Mr. Shul-
hof contended that this would prove too
expensive on a large scale.

Attestation was expressed by mem-
bers of the committee yesterday over the
fact that they had been summoned. A
report was made by the committee last
summer, and it was thought that there
would be no more meetings until certain
investigations on the proposition of gar-
bage disposal that are being conducted on
Blackwell's Island under the supervision
of Major W. H. Roberts, assistant en-
gineer of the board of estimates and a
member of the committee.

Fire Chief Kenion said that he had
received a notice from the mayor's office
a few days ago inclosing for investiga-
tion by the committee two letters, one
from the Brooklyn Chamber of Com-
merce and the other from Mr. Shulhof.
He didn't explain what the former let-
ter contained, but the latter described
the method that the Odorless By-Prod-
ucts and Reduction Company said would
relieve the situation that has been the
bane of every street cleaning and health
commissioner since consolidation.

MAGIC BAKING POWDER
To reach the highest point of perfection in the
manufacture of baking powder, many years of
scientific experimental work by expert chemists
are required to determine the exact proportions of
the ingredients and the proper method of blending
same to produce a baking powder of the maximum
leavening quality and at the same time obviate
the possibility of deterioration without the use of
ingredients so frequently used as preservatives.
This is the reason that MAGIC BAKING POWDER
has become so universally used from coast to
coast and has earned by demonstration the rep-
utation of being Canada's perfect baking powder.

chlorine, &c., which oxidize slowly and
kill putrefying odors.

"How will your company make
money?" asked Health Commissioner
Copeland.

ROTHESAY NOW HAS
NUCLEUS FOR FUND
FOR WAR MEMORIAL
A soldiers' memorial building for
Rothsay is a very live issue in the life
of the community at present and the
Duke of the Rothsay chapter of the I. O.
O. F. at its meeting held yesterday at
Netherwood street, decided to open a
special fund for the memorial hall. A
contribution had been received from
Netherwood school and this was made
the nucleus of the special fund. The
meeting was held at the residence of the
regent, Mrs. W. S. Allison, presided at
the meeting. The reports from the re-
cent sale of home-cooking and candy
showed that \$110 had been realized by
that undertaking. As another means of
raising funds, a rummage sale was de-
cided upon. The chapter decided to in-
crease its contribution to the salary of
a kindergarten teacher in the East St.
school. A committee was appointed to
buy materials and make arrange-
ments for the summer work of mem-
bers in preparation for the annual
sale in the winter. Mrs. W. S. Allison
was appointed as the delegate to the
annual meeting of the provincial chapter.

University as
An Inspirer
of Patriotism

The role of the university as an in-
spirer of patriotism, was the subject of
an address by Theodore Goodrich
Roberts, of Fredericton at a meeting of
the St. John N. B. Club in the Y. W.
C. A. recreation centre last evening. Mr.
Roberts said that patriotism, or love of
country, was needed now even more than
before the war to weld the nation and
to build up the country. Participation
in sport and association with other men
at college had a big influence, he said, in
developing in students a spirit of un-
selfishness and co-operation which would
later show itself in their efforts to for-
ward the interests of the nation as a
whole, instead of devoting themselves
exclusively to the accumulation of wealth
and self-aggrandizement.

At the conclusion of Mr. Roberts' ad-
dress, the company, which numbered
about forty men and women, enjoyed
musical entertainment and a social hour.
Under the leadership of Dr. E. Stanley
Bridges, the men in the party sang sev-
eral of the college songs, with Miss Alma
Gale acting as accompanist. Mrs. A.
N. Carter sang several solos, with Miss
P. Biederman as accompanist. Towards
the close of the evening, Mr. Roberts
was again, when Mrs. E. C. Weyman
and Mrs. E. J. Ryan presided at the
tea table.

In introducing Mr. Roberts as the
lecturer of the evening, E. C. Weyman,
president of the club, recalled the close
connection of the Roberts family with
the University of New Brunswick.
George Roberts, the lecturer's grand-
father; Dr. E. Roberts, his uncle; George
G. Roberts, his father, and Charles G.
Roberts, his brother, all held degrees
from the university. The lecturer him-
self and his brother, William, were both
former students of the institution.

Mr. Roberts, in moving that the lec-
ture, said that the patriotism of former
times was a considerable problem, the
U. N. B. men, he said, should not be for-
gotten. He said that the lecturer had
William Brodie, president of the alumni,
seconded the vote of thanks, which was
unanimously passed and tendered the
speaker by the chairman.

Aims of the Club.
Mr. Weyman followed with a brief ad-
dress on the aims and purposes of the
club which, he said, were to further the
interests of the university. He said
that the driving force behind all the big
universities was the accumulated effort
of the students. It was the duty of the
university to support it. But the U. N. B.
was to continue to hold its head up
and turn out leaders as it had in the
past there must be united effort behind
it.

To Oppose
Mayor and
His Policy

The United Organizations held a meet-
ing last evening for further considera-
tion of the hydro situation, and at its
conclusion it was announced that the
United Organizations had gone on record
as being opposed to the platform adopted
by Mayor Schofield and his proposal for
a contract with the New Brunswick
Power Company, as the organization still
was firmly convinced that the only way
to deal with the matter was through
municipal ownership of the distribution
facilities. It was announced also that
it had been decided to oppose the
mayor's re-election, for the reasons given.

SASKATCHEWAN
CABINET NAMED

Regina, Sask., April 5.—Hon. Charles
Avery Dunning of Moose Jaw, (Sask.),
was today called upon by Lieutenant
Governor H. W. Newlands to form
a new government to succeed that of
Hon. W. Martin, who recently resigned
the premiership. After the cabinet had
been sworn in Premier Dunning an-
nounced the portfolio as follows:
Hon. C. A. Dunning, premier, presi-
dent of the council, provincial treasurer
and minister of railways.
Hon. A. P. McNab, minister of pub-
lic works and minister of telephones.
Hon. S. J. Latta, Last Mountain,
minister of education and minister in
charge of the bureau of publication and
the King's Printers' office.
Hon. C. M. Hamilton, Weyburn,
minister of agriculture and minister of
municipal affairs.
Hon. J. A. Cross, Regina, attorney
general and minister in charge of the
bureau of child protection.
Hon. J. Gardiner, North Qu'Appelle,
minister of highways and minister in
charge of the bureau of labor and in-
dustries.
Hon. J. M. Ulrich, provisional secre-
tary and minister in charge of the bu-
reau of child protection.
The three new ministers are Cross,
Gardiner and Ulrich.

WOULD ABOLISH THE
N. S. UPPER HOUSE

(Canadian Press Despatch)
Halifax, April 5.—That all parties in
the house of assembly were practically
unanimous in their desire for the aboli-
tion of the legislative council was the
opinion expressed today by Hon. E. H.
Armstrong, minister of mines, when the
bill to abolish the Nova Scotia "house
of lords" came up for second reading.
But how to bring about the desired re-
sult was a considerable problem, the
minister added. The resolution of H.
L. Taggart, Progressive member for
Colebrook, declaring that in the opin-
ion of this house the legislative council
should be abolished by making no fur-

ther appointments and telling the coun-
cil that it shall hold no more sessions,
would not serve the purpose, Mr. Arm-
strong submitted. Unless the council
decided to abolish itself, it could only
be put out of existence by an amend-
ment to the British North America Act
made by the imperial parliament.

THE SCOUT LEADERS.
An interesting programme was given
last night in the weekly meeting of the
leaders' training course organized by the
St. John district council of the Boy

Scouts Association. G. L. Short gave
the address on the importance of the
weekly programme and presented his
subject in an effective manner. The ad-
dress was followed by a discussion that
was entered into by many and was of
practical value. A first aid lecture and
a demonstration were given by James
McGillivray and J. LeChaire, members of
the first aid team of W. H. Thorne &
Co., Ltd., and several new games were
learned afterwards. The meeting was
held in Trinity school room and was
largely attended; the interest in the pro-
gramme was marked.

FINE CONCERT BY
MONTCALM PARTY

A fair sized crowd attended the fare-
well entertainment put on last evening
at the Seamen's Institute by the concert
party of the Montcalm. The show un-
doubtedly was the best presented of the
season at the Institute. No less than
six of the performers at last night's per-
formance had been in vaudeville in En-
gland and they all gave a good account
of themselves. "Time" and "Again" the
artists were compelled to respond to sev-
eral encores before the audience was sat-
isfied. Whilst the programme was in
progress, the audience was on the pro-
gramme were excellent, special mention
might be made of the work of Messrs.
H. Collins, Neary, J. Gemmill and J. E.
Batty. The humorous sketch entitled
"The School Election" kept the
audience in roars of laughter through-
out. The programme was as follows:
Pianoforte overture—Mr. Brownrigg.
Sentimental song—G. Ford.
Patter song—Mr. Neary.
Banjo selection—H. Collins.
Comedian—Mr. Forsshaw.
Comic song—G. Deane.
Mandolin selection—J. E. Batty.
Sentimental song—Mr. Trunks.
Humorous sketch, "The Mr. McAl-
endrews"—The professor, Mr. McAl-
endrews; the boy, Billy Ramage.
Chairman's remarks. Interval.
Sentimental song—R. Joe.
Comic song—Mr. Parr.
Musical duet—Messrs. Ford and
Brownrigg.
Comic song—Mr. Boardman.
Novelty dancer—J. Gemmill.
Comic song—J. E. Batty.
God Save the King.
W. Scott Simpson presided and Mr.
Brownrigg was the accompanist.

SUN'S RAYS THROWN
BY MIRROR START FIRE
IN SHOP WINDOW

Despite biting winds, the sun was hot
enough in New York the other day to be
reflected from a hand mirror on display
in the shop window of Lydia Weingart-
ner's, at 605 East 141st
street, and caught by a magnifying
glass suspended by a string, to concen-
trate upon two silk umbrellas, setting
them alight. The umbrellas were de-
stroyed, but Patrolman John Fournier
put out the flames without calling out
the fire apparatus. He reported this fire
as due to natural causes.

BY SPECIAL REQUEST
Time Limit of Sale
Extended Till Monday
Were you in the crowd that attended our sale last Saturday? Perhaps you were there but
like others were not served owing to the unexpected rush exceeding the abilities of our help.
Well, you will have another chance surely before Monday night, and the same low prices
will positively be in effect.
