on the prairies, the cities, towns, and villages have planted trees by the thousands and along the streets, and in the parks, and where provincial highways have been constructed trees have been planted along these under a systematic plan. These are all shade and ornamental trees and they are planted for aesthetic rather than economic reasons. At the same time on the prairies, especially the planting of trees in urban centres helps along the movement in rural districts. But the movement has not ended there. In addition to the five or six million trees sent out by the Indian Head and Saskatchewan

ively, there has been a much larger planting and seeding of purely forest trees than ever before. The Dominion Government Forestry Branch has planted trees at Petawawa, Ontario, forest experiment station and on a number of its forest reserves in the Prairie Provinces to a total number of about 150,000; several of the big pulp and lumber companies have done considerable planting, and there has been a forward movement in the municipal forest plantations in Quebec and Ontario. In the latter province the scheme of county and township forests devised last year was put into active operation. In Simcoe county, the first tree in the county forest plot of one thousand acres, near Camp Borden, was planted by the warden with appropriate ceremonies. It is expected the whole plot will be planted in ten years. In the same county two townships and one village planted plots of ten acres each, and in Norfolk county twenty thousand seedlings as a beginning were planted on the municipal forest. Other townships set out trees and the counties of York, Ontario, and Durham are laying out nurseries and getting ready to start next year.

WASHINGTON, July 14.—Senator Hale Tuesday blocked an attempt by Senator Walsh, Democrat, of Massachusetts to reduce the protective rate of 35 cents a bushel on potatoes in the pending tariff bill. Senator Walsh obtained a recom-

sideration of the previous vote on the potato schedule, but the Senate again voted by a substantial majority to sustain the 35 cent rate.
