Buy Radio

Some people simply buy coal; others

There is a difference and there is a reason. THE DIFFERENCE—When compared with other coals, RADIO shows a big percentage less ash; a big percentage less stone and a lot less bother in as much as it burns cleanly. THE REASON—The quality of Radio, the efficiency with which an order is handled and the prompt and courteous way in which it is delivered.

RIDES THOUSAND MILES TO BECOME A CANADIAN

Windsor, May 11.—Charles S. Barton, 85 years old, of Des Moines, Ia., dressed in the full regalia of a western cowboy, and riding a broncho pony, was rejected by customs officials here because he had not sufficient money to pay duty on his horse and comply with Dominion im-migration regulations.

Barton had ridden from Omaha, ap-proximately 1,000 miles, to fulfill his ambition to become a herder of sheep or cattle on a Canadian ranch. The jour-ney, made in easy stages, taking a full month.

Believing that international boundaries meant nothing to his kind, Barton left Omaha with \$15 in his pockets, confi-dent that Canada would be glad to make use of his experiences.

"Well, if I need some dough to be-come a Canuck," the cowboy protested, "I guess I can stay in Detroit and make some giving exhibitions with the less and showing the city folk how to ride a real bucking broncho."

NEAT JEWEL ROBBERY.

Carefully Chose Most Expensive Pearl Necklaces.

Paris, May 11.—A well dressed man walked into Boucheron's shop, at the corner of the Place Vendome and Rue de la Paix, and asked to see some pearl necklaces. He wanted something good, he said, and the salesman produced a dozen or so priced between 200,000 and 400,000 francs. Carefully the man scruti-nized each one, for there has been a scare among the public during the last few days on the subject of artificial pearls.

The assistant thought he had his eyes open. But he had not. After ten minutes

examination the purchaser could not make up his mind. "I'll come back," he said, and walked out.

Disappointed that he had lost a com-mission, the salesman started arranging his goods again. Incidentally there was one necklace missing, and that, of course the most valuable. The well dressed man was evidently a pearl expert of no mean sort.

CAUGHT IN LAUNDRY.

Cleveland, May 11.—Impressed five hours in a big washing machine, then rescued and finally captured by the Chinese owner of the laundry after a struggle, George Maury, twenty-two, was placed under arrest here. Maury broke into the laundry and took refuge in the machine following a pistol battle with police during which a man and a woman were slightly wounded.

One of seven charges against Maury is being a deserter from the army aviation field at Aberdeen, Md., and another violating his parole from the Elmira, New York, prison. The fight started when Maury and a companion drew re- volvers and ran when police attempted to search them in the heart of the down-town district.

BLINDED WITH ACID.

Toronto Automobile Bandits Attack Lone Visitor.

Toronto, May 11.—George Thompson, who arrived in Toronto Saturday evening from the vicinity of London, Ont., was roughly handled by automobile bandits and robbed of \$80. As a result of the treatment he received from the bandits, who threw acid in his eyes, he may possibly lose his sight. Thompson served overseas, and since his return has been working on a farm near London. He was found Saturday night wandering about, suffering great pain from his eyes and showing the effects of rough treat-ment otherwise. He told the police and the doctor at the hospital that he was unfamiliar with the neighborhood of the Union station, and that as he set out along Front street to locate a hotel he was followed by an automobile carrying

GOOD SALARIES FOR GOOD MEN.

That the London County Council (England), believes in the good old idea that to secure good men you must pay them well is illustrated in its decision to appoint an assistant housing adminis-trator at a salary of \$10,000 a year. The council already has a housing adminis-trator at \$10,000, and a housing director at the same salary.

AN EDUCATION DAY.

(Toronto Globe.)

The west has been furnishing bright people and bright ideas right along to date, and will do so to the end of the chapter. Now it is Saskatchewan that is going to set the pace. A monster "Edu-cation Day" in June is to assemble thou-sands of children from an area some 60 or 70 miles in every direction from Saskatoon, and the thousands of chil-dren in Saskatchewan are to play the hosts to those other boys and girls. One of the outstanding men of the continent is to be the speaker, and events of the first order are to characterize the day. The whole aim is to advertise education; or, to put it in the advertising men's phrase-ology, to sell education to the public. The Canadian people will wait with in-terest the story of this undertaking which should be a challenge to all the rest of us.
